| 95 | Randolph Avenue, Quincy Line. | |
| 96 | Randolph Avenue and Highland Street. | |

Running Card.

Engine No. 1 and Hose No. 1 will respond to all alarms and signals.

Ladder Truck No. 1 will respond to all alarms and signals except signal **451**.

Combination No. 1 will respond to all alarms but not to signals calling for apparatus to go out of town.

Hose No. 2 will respond to first alarms from Boxes **31, 32, 34, 36, 39, 341, 41, 42, 412, 6, 62, 63, 64, 65, 67, 68, 69, 652, 671, 71, 73.**

Hose No. 3 will respond to first alarms from Boxes **4, 18, 41, 42, 43, 45, 46, 47, 48, 412, 453, 62, 63.**

Hose No. 4 will respond to first alarms from Boxes 12, 13, 14, 15, 17, 142, 151, 21, 23, 24, 25, 27, 35, 37, 38, 312, 315, 371, 5, 51, 52, 53, 54, 56, 57, 512, 521, 542.

When, after an alarm has been sounded, and before the all-out signal for the same has been given, an alarm is given from another box, the alarm from the second box is to be responded to the same as a General Alarm.

Directions in Case of Fire.

Get the key to the nearest box, open and pull the lever all the way down **once**, then let go and close the door.

Remain at the station, if possible, after giving an alarm, to direct the firemen to the fire.

Second alarms will be given only by one of the Engineers.

Citizens are earnestly requested to keep themselves informed as to the location of the keys. Signs over each box will give the desired information.

Caution to Persons Holding Station Keys.

Never open or touch the apparatus except in case of fire.

Never sound the alarm for a fire seen at a distance, unless assistance is called for.

Be reasonably sure there is a fire before sounding the alarm.

Never let the key go out of your possession, except to some responsible person to give an alarm of fire, and be sure the key is returned.

If you remove from your house or place of business, return the key to the Engineers at once.

ANNUAL TOWN REPORT
OF
MILTON
MASS.

FOR THE YEAR ENDING
DECEMBER 31, 1910

COMPILED BY
THE AUDITORS

POOLE PRINTING CO.
221 HIGH STREET
BOSTON

STATEMENT OF THE AUDITORS

To the Citizens of Milton:

In accordance with the Revised Laws and the By-Laws of the town, we have examined the books and accounts of all officers and committees intrusted with the expenditure of money, and all original bills and vouchers on which moneys have been paid from the treasury for the year ending Dec. 31, 1910, and have found the same correct.

Respectfully submitted,

JAMES F. MITCHELL
WILLIAM B. BATCHELDER } *Auditors*

MILTON, MASS., Dec. 31, 1910.

REVISED BY-LAWS.

TOWN OF MILTON, MARCH 2, 1902.

*Adopted by the Town and approved by the Superior Court
May 20, 1902.*

CHAPTER 1.

GENERAL PROVISIONS.

SECTION 1. These By-Laws, contained in this and the succeeding chapters, being ten chapters in all, may be designated as the Revised By-Laws, adding the number of the chapter and section when necessary.

SECT. 2. So far as the provisions of these By-Laws are the same in effect as those of previously existing By-Laws, they shall be construed as a continuation of such By-Laws, but, subject to said limitations and the provisions of the next section, all By-Laws of the town heretofore in force are hereby repealed; provided that this repeal shall not apply to or affect any By-Law, order, or article heretofore adopted, accepting or adopting the provisions of any statute of the Commonwealth.

SECT. 3. These By-Laws and the repeal of all By-Laws heretofore in force shall not affect any act done, any right accrued, any penalty or liability incurred, or any suit, prosecution, or proceeding, pending at the time when they take effect; nor shall the repeal of any By-Law thereby have the effect of reviving any By-Law theretofore repealed or suspended.

SECT. 4. When in a By-Law anything is prohibited from being done without the license or permission of a certain officer, officers, or board, such officer, officers, or board, shall have the power to license or permit such thing to be done.

SECT. 5. In all the By-Laws of the town the following words and expressions shall, unless inconsistent with the manifest intent, be severally construed as follows:—

The words *public way* shall include any highway, townway, road, bridge, street, avenue, boulevard, roadway, parkway, lane, sidewalk or square; *the owner or occupant* of a building or land shall include any sole owner or occupant, and any joint tenant and tenant in common of the whole or of any part of a building or lot of land; words purporting to give a joint authority to three or more officers or other persons shall give such authority to a majority of such officers or persons; the word *person* may include corporations; words importing the singular number may apply to the plural number, and words importing the masculine gender may apply to the feminine gender.

SECT. 6. All fines and penalties for the violation of any By-Law shall, when received, inure to the use of the town, and be paid into the town treasury, unless it be otherwise directed by the laws of the Commonwealth or the By-Laws of the town.

SECT. 7. Whoever violates any of the provisions of the By-Laws of the town, whether included in these By-Laws or any hereafter enacted, whereby any act or thing is enjoined or prohibited, shall, unless other provision is expressly made, forfeit and pay a fine not exceeding twenty dollars for each offence.

SECT. 8. Whoever shall refuse or neglect to obey any order of any town officer or board of town officers, issued under any of the By-Laws of the town, directed to him and properly served upon him, shall, in cases not otherwise provided for, forfeit and pay for such offence a fine not exceeding twenty dollars.

SECT. 9. Prosecutions for the breach of any of the provisions of the By-Laws of the town shall be commenced within six months from such breach.

SECT. 10. Any or all of the By-Laws of the town may be repealed or amended, or other By-Laws may be adopted, at any town meeting, annual or special, an article containing the subject-matter of the proposed change having been inserted in the warrant for such meeting.

CHAPTER 2.

TOWN MEETINGS.

SECTION 1. The warrants for all town meetings shall be directed to the constables of the town, and the meetings shall be notified by posting attested copies of the warrant in each of the post-offices of the town at least fourteen days, and by leaving printed copies thereof at the dwelling-houses in the town at least four days, before the day of such meeting.

SECT. 2. The annual meeting for the election of town officers shall be held upon the first Monday of March, the polls to be open at seven o'clock in the forenoon, and after the election of a Moderator, they shall remain open until two o'clock in the afternoon for the election of such other town officers as are required by law to be elected by ballot, all said officers to be voted for on one ballot. At any time after 2 P.M. a vote may be passed to close the polls in not less than ten minutes.

SECT. 3. After the closing of the polls and the election of other town officers, the remaining articles in the warrant shall be considered.

SECT. 4. All motions shall, if required by the Moderator, be reduced to writing before being submitted to the meeting.

SECT. 5. Upon taking the question, if the decision of the Moderator is doubted, or a division of the house called for, the Moderator shall request the voters to be seated, and shall appoint tellers; the question shall then be distinctly stated, and those in the affirmative and negative, respectively, shall

be requested to rise and stand in their places until they are counted by the tellers, who shall carefully count each side and make a report thereof to the Moderator.

SECT. 6. No vote shall be reconsidered at the same meeting, except upon a motion made within one hour of the adoption of such vote, unless ordered by two-thirds of the voters present and voting thereon.

SECT. 7. When a question is before the meeting, the following motions, viz.:—

- to adjourn,
- to lay on the table,
- for the previous question,
- to postpone to a time certain,
- to commit (or recommit) or refer,
- to amend or substitute,
- to indefinitely postpone,

shall have precedence in the order in which they are placed in this section.

In proposed amendments involving amounts or dates, the smallest amount and the shortest time shall be put first.

SECT. 8. After the declaration of the vote for town officers, fifteen legal voters shall be appointed by the Moderator, who shall constitute a committee to be known as the Warrant Committee. The persons so appointed shall continue as members of said committee until the town meeting of the ensuing year.

CHAPTER 3.

THE WARRANT COMMITTEE.

SECTION 1. The Warrant Committee shall, within two weeks after their appointment, meet, at the call of the member thereof first named, for organization by the choice of a chairman and secretary. And they shall meet thereafter from time to time as they may deem advisable.

They shall have power to fill vacancies in their number by vote, attested copy of which shall be sent by the secretary to the Town Clerk.

SECT. 2. It shall be the duty of the Warrant Committee to inform themselves concerning those affairs and interests of the town, the subject-matter of which is generally included in the warrants for its town meetings; and the officers of the town shall, upon their request, furnish them with facts, figures, and any other information pertaining to their several departments; provided, however, that any such information may be withheld when, in the opinion of the officer or board of officers so requested, the communication thereof might injuriously affect the interests of the town or its citizens.

SECT. 3. The Warrant Committee shall consider the various articles in the warrants for all the town meetings held during the period for which they were appointed, including the various articles in the warrant for the annual town meeting next after their appointment; and they shall report in print before all such town meetings their estimates and recommendations for the action of the town.

CHAPTER 4.

THE TOWN'S FINANCES AND PROPERTY.

SECTION 1. The financial year shall begin with the first day of March.

SECT. 2. The Selectmen shall annually, not less than seven days before the annual meeting, cause to be printed and distributed among the tax-payers of the town, a detailed report of all moneys received into and paid out of the town treasury during the preceding calendar year, with such information and recommendations as they may deem proper, and with detailed estimates of the amounts of money that will be required for the ensuing financial year. With this report

shall be printed the records of all meetings of the town held since the last annual report was printed, the reports of the Auditors, of the Surveyors of Highways, and of the Engineers of the Fire Department, the Collector's account of receipts, payments, and abatements, a list of all taxes assessed, an abstract of the births, marriages, and deaths to be furnished by the Town Clerk, a statement concerning the condition and funds of the public library and the cemetery to be furnished by the trustees respectively, and a statement of all other funds belonging to the town or held for the benefit of its inhabitants; also statements of the liabilities of the town on bonds, notes, certificates of indebtedness, or otherwise, and of the total money paid the town, the income of which is to be applied to the care of lots in the cemetery. The annual report shall also contain such other matters as may be required by the By-Laws of the town.

SECT. 3. The assessment of taxes shall be completed and the tax list and warrant shall be delivered to the collector on or before the first day of August in each year.

SECT. 4. Poll taxes shall be payable on demand, and all other taxes assessed in each year shall be payable on or before the first day of November in the same year; and on all such taxes as are not paid on or before the said first day of November, interest shall be charged at a rate to be fixed annually by the Town, pursuant to Section 71 of Chapter 490 of the Acts of the year 1909, Part 1, and the Collector shall use all the means and processes provided by law for the collection of all taxes remaining unpaid after the first day of November in the same year.

SECT. 5. No person being an officer of the town shall in his official capacity make or pass upon, or participate in making or passing upon, any sale, contract or agreement, or the terms or amount of any payment, in which the Town is interested and in which such officer has any personal interest at variance with that of the town.

SECT. 6. The Selectmen, being duly authorized by vote of the town under the limitations imposed by statute, may authorize the Treasurer to borrow money temporarily in anticipation of the collection of taxes, or upon loans authorized by vote of the town, and to give promissory notes therefor in behalf of the town, the same to be signed by the Treasurer and countersigned by a majority of the Selectmen.

SECT. 7. No money granted for special purposes shall be applied to any other use unless by a vote of the town, and all unexpended balances of such grants shall be stated in the annual report.

SECT. 8. No order shall be drawn by any officer or committee on the Town Treasurer for any purpose not authorized by a vote of the Town, or by the laws of the Commonwealth, nor shall any such draft be made for any amount which overdraws the appropriation against which it is made, whether general or special; and the Town Treasurer shall keep full accounts in respect to the several separate appropriations and the drafts made against each, and shall not honor any draft which does not state specifically the appropriation against which it is drawn, or which overdraws such appropriation, whether general or special.

SECT. 9. To provide for extraordinary expenditures of departments, should any become necessary in excess of appropriations made, the town shall annually appropriate a certain sum of money to be known as the Contingent Fund. No direct drafts against this fund shall be made, but transfers from the fund may be made by vote of the Warrant Committee to the account of any other appropriation. A certified copy of such vote shall be sent to the Town Treasurer, and the Treasurer shall transfer accordingly, and honor drafts against the funds so transferred as if originally appropriated.

SECT. 10. No board, committee, or officer of the town shall commit the town to any expenditure or liability which

would, in the ordinary course of business, be chargeable to the appropriation of which such board, committee or officer is or has been in charge, after such appropriation has been exhausted, or after the satisfaction of all liabilities against it would exhaust it, until either the Warrant Committee shall have transferred additional sums to such appropriation, or until the town, at a meeting of the voters, shall have acted in the matter.

SECT. 11. No grant of a sum of money exceeding five hundred dollars shall be made until the subject-matter thereof has been considered and the estimates reported to the town, either by the Selectmen or other town officers, or by the Warrant Committee or some committee chosen for that purpose in pursuance of a vote of the town.

SECT. 12. The Selectmen shall have full authority as agents of the town to institute and prosecute suits in the name of the town, and to appear and defend suits brought against it, unless it is otherwise specially ordered by a vote of the town.

SECT. 13. Whenever it shall be necessary to execute any deed conveying land or other instrument required to carry into effect any vote of the town, the same shall be executed by the Selectmen, or a majority thereof, in behalf of the town, unless the town shall otherwise vote in any special case.

SECT. 14. Two Auditors shall be chosen by ballot at the annual meeting, who shall have the power and perform the duties prescribed by statute.

CHAPTER 5.

THE CEMETERY.

SECTION 1. The sole care, superintendence, management, and control of the Cemetery shall be intrusted to a Board of five Trustees to serve for the period of five years; one of said Board shall retire and a new member be elected at each annual meeting of the town.

In case of vacancies in the Board of Trustees the remaining members may fill the same, but any member so chosen shall hold office only until the next annual town meeting, when a Trustee shall be elected for the unexpired term.

SECT. 2. Citizens of Milton who are heads of families and have been residents of the town not less than five years shall be entitled to lots in the Cemetery, allowing one lot to a family, subject to the regulations adopted by the town, upon payment of the charges for putting the lot in order; but by unanimous consent of the Trustees the five years' residence requirement may be waived.

SECT. 3. The Trustees, when in their judgment it shall be deemed advisable, may sell lots at the rate of fifty cents a square foot, but only to those who are in some way connected with Milton people.

SECT. 4. The proprietor of each lot shall cause to be erected, at his own expense, corner-stones, and a step with his name and the number of the lot inscribed on the same, and shall cause his lot to be kept in proper order; and if the proprietor shall omit for thirty days after notice to erect such landmarks and to keep the lot in order, the Trustees shall have authority to have the same done at the expense of said proprietor.

SECT. 5. No lot shall be used for any other purpose than as a place of burial for the dead, and no proprietor shall suffer the remains of any person to be deposited within the bounds of his lot for hire; nor shall any proprietor sell or transfer the whole or any part of his lot without the consent of the Trustees.

SECT. 6. If in the judgment of the Trustees any trees or shrubs in any lot shall become detrimental to the adjacent lots or avenues, or dangerous or inconvenient, it shall be the duty of the Trustees to enter upon said lot and to remove said trees and shrubs, or such parts thereof as are thus detrimental, dangerous or inconvenient.

SECT. 7. There shall be no structure or inscription placed in, upon or around any lot which the Trustees shall deem offensive or improper; and it shall be the duty of the Trustees to remove all offensive or improper objects.

SECT. 8. The Trustees shall have authority to purchase any tomb in the Cemetery offered for sale, paying for the same such sums as, in their judgment, may be fair and reasonable. They shall also have authority to give for any tomb a lot to be constructed on the land occupied by the tomb, or to be selected at some other point in the Cemetery grounds, as they may agree with the proprietor of the tomb. Should there be no living proprietors, or legal representatives of deceased proprietors, the Trustees may take possession of such tomb, carefully remove its contents to a lot prepared for the purpose, and erect over the remains a suitable memorial stone.

SECT. 9. The following regulations shall be posted within the Cemetery:—

1. All persons are prohibited from driving on the borders.
2. No horse shall be left upon the grounds without a keeper, unless fastened to posts provided for the purpose.
3. All persons are prohibited from discharging firearms within the grounds of the Cemetery, except in connection with military memorial services.
4. All persons are prohibited from writing upon or otherwise defacing any sign, monument, fence, or other structure.
5. All persons are prohibited from gathering flowers, or breaking any tree, plant or shrub.
6. Dogs are not allowed within the Cemetery grounds.

CHAPTER 6.

POLICE REGULATIONS.

SECTION 1. No person shall move or assist in moving any building, over any way which the town is obliged to keep in repair, without the written permit of the Selectmen

being first obtained; nor, having obtained such permit, without complying with the restrictions and provisions thereof.

SECT. 2. Whoever, without a written license from the Selectmen, shall cause or suffer any cart or wagon to remain within the limits of any public way so as in any manner to obstruct travel thereon, or for more than twenty-four hours, shall forfeit and pay a sum not less than one dollar and not more than ten dollars for each offence; and he shall be subject to a like penalty if he neglects to remove the same within the time ordered by such officers, who may revoke such license at any time.

SECT. 3. No person shall place or cause to be placed, upon any public way or sidewalk, any lumber, iron, wood, coal, trunk, bale, box, crate, cask, barrel, package or other thing, and allow the same to remain for more than one hour, or more than ten minutes after being notified by a constable, police officer or the Selectmen.

SECT. 4. Any person who intends to erect, repair or take down any building on land abutting on any way which this town is obliged to keep in repair, and desires to make use of any portion of said way for the purpose of placing thereon building materials or rubbish, shall give notice thereof to the Selectmen. And thereupon the Selectmen may grant a permit in writing to occupy such a portion of said way to be used for such purpose as in their judgment the necessity of the case demands and the security of the public allows; such permit in no case to be in force longer than ninety days, and to be on such conditions as the Selectmen may require; and especially in every case, upon condition that during the whole of every night, from twilight in the evening until sunrise in the morning, lighted lanterns shall be so placed as effectually to secure all travellers from liability to come in contact with such building materials or rubbish.

SECT. 5. No person shall throw or place, or cause to be thrown or placed, any ice or snow into or upon any public

way unless the same be broken into small pieces and spread evenly.

SECT. 6. Whoever, without the written permission of the Selectmen, shall place or cause to be placed in or upon any public way, or sidewalk, any ashes, dirt, rubbish or filth of any kind, or any animal or vegetable substance, shall forfeit and pay a sum not less than one dollar nor more than ten dollars for each offence.

SECT. 7. Whoever shall suffer any horse or grazing beast, or swine, to run at large in the town, or to feed in any public way either with or without a keeper, and whoever shall drive any such animal upon any sidewalk, or suffer any horse to remain hitched across any sidewalk, shall forfeit and pay a sum not less than one dollar nor more than ten dollars for each offence.

SECT. 8. Three or more persons shall not continue to stand or remain in a group, or near to each other, on any sidewalk or in any public place in such a manner as to obstruct a free passage for foot passengers, after having been requested by a constable or police officer to move on. Any person who shall violate the provisions of this section shall forfeit and pay a sum not less than one dollar nor more than ten dollars for each offence.

SECT. 9. No person shall dig up or obstruct any portion of any way which the town is obliged to keep in repair without the permit, in writing, of the Selectmen, nor, having obtained such permit, shall fail to comply with the conditions thereof; and in addition to any penalty to which he may be subjected under these By-Laws for such failure, he shall reimburse the town for all expenses and damages which, or for which, the town may be compelled to pay by reason of such unauthorized use, or any failure to comply with said conditions.

SECT. 10. No person shall ride or drive any beast of burden, carriage or draught, or shall propel or cause to be

propelled any bicycle, tricycle, automobile or any vehicle whatsoever, at a rate of speed exceeding ten miles an hour, in or over any crossing in any public way.

SECT. 11. No person shall permit any team under his care or control to stand across any public way in such a manner as to obstruct the travel over the same for an unnecessary length of time; no person shall stop with any team in any public way so near to another team as to obstruct public travel; and no person shall stop with any team or carriage upon or across any crossing in any public way.

SECT. 12. No person shall drive or take charge of at the same time in any public way two or more vehicles drawn by horses or other beasts; or shall allow any vehicle belonging to him to be driven in any public way without some competent person in charge thereof.

SECT. 13. Whoever shall coast upon ice or snow on Adams Street, between Churchill's Lane and the line of the City of Boston, or upon any public way on which the Selectmen or Superintendent of Police shall by public notice have forbidden such coasting, and whoever shall drive, wheel or draw any coach, cart, wheelbarrow, handcart, velocipede, bicycle or any carriage of burden or pleasure, except children's carriages, or coast upon any sidewalk in the town, shall forfeit and pay a sum not less than one dollar nor more than ten dollars for each offence.

SECT. 14. Whoever shall behave in an indecent or disorderly manner, or use profane, indecent, or insulting language in or upon any sidewalk, public way, or other public place, to the annoyance or disturbance of any other person there being or passing in a peaceable manner, shall forfeit and pay a sum not less than one dollar nor more than twenty dollars for each offence.

SECT. 15. Any person or persons who shall play or perform on any musical instruments, or sing, parade, march, or congregate in any public way or public place, except in

connection with a funeral, without the written permit of the Selectmen, shall forfeit and pay a sum not less than one dollar nor more than twenty dollars for each offence.

SECT. 16. Whoever shall be or remain on any doorstep, portico, or other projection from any house or building, or upon any wall or fence on or near any public way or public place, after being requested by the occupant of the premises or by any constable or police officer to remove therefrom, shall forfeit and pay a sum not less than one dollar nor more than ten dollars for each offence.

SECT. 17. No person shall throw stones, snowballs, sticks, or other missiles, or kick a football or play at any game in which a ball is used, or fly any kites or balloons, in any public way.

SECT. 18. Whoever shall affix, by paste or otherwise, any handbill, placard, notice, or advertisement, or paint, draw or stamp the same, or any marks or figures, to or upon any signboard of the town, or to or upon any building, fence, wall, tree or structure, without the permission of the owner of such building, fence, wall, tree or structure, shall forfeit and pay a sum not less than one dollar nor more than ten dollars for each offence; and if such handbill, placard, notice, advertisement, mark, or figure be obscene or indecent, the penalty shall not be less than twenty dollars for each offence.

SECT. 19. Whoever shall undertake to enter a particular drain into a common sewer without a permit in writing from the Sewer Commissioners or without complying with the conditions and directions of such permit, shall forfeit and pay a sum not exceeding ten dollars.

SECT. 20. Whoever shall lead or cause to be led into any public way, or running stream, any drain or pipe from any house or other building whereby filthy water or other unclean matter may be emptied into or upon any such public way or running stream; and whoever shall throw, lead or discharge

or cause to be thrown, led or discharged, into any public way, or running stream, any noxious or poisonous matter or substance, or any matter or substance which shall cause an offensive smell or odor, or which shall be destructive of, or injurious to, animal life, shall forfeit and pay a sum not less than five dollars nor more than twenty dollars.

SECT. 21. The Selectmen may grant licenses to use a certain portion of any public way as a carriage-stand, under such terms and conditions as they may prescribe; and no person shall use any portion of any public way as a carriage-stand for the solicitation of passengers for hire without a license from the Selectmen. But licenses shall not be confined to one person to the exclusion of other applicants, and shall be granted so as to allow competition and promote public convenience.

SECT. 22. No person shall distribute papers, circulars, or advertisements through the town or any portion thereof in such a manner as to make a litter or otherwise cause public annoyance.

SECT. 23. No person shall fire, discharge, explode or set off any gun, fire-arm, torpedo, fire-cracker or fire-works in such manner as to frighten any horse, or to disturb the peace or quiet of any neighborhood.

SECT. 24. No person shall wilfully deface or injure any public playground, planting space, flower bed, tree, shrub or grass border.

SECT. 25. No person shall own or keep a dog which by barking, biting, howling or in any other manner is disturbing the peace or quiet of any neighborhood.

SECT. 26. No person shall hawk or peddle any of the articles enumerated in Section 15 of Chapter 65 of the Revised Laws, until he has recorded his name and residence with the Superintendent of Police, and been assigned a number by him, nor unless any vehicle or receptacle in which he shall carry or convey such articles shall have

painted on it in letters and figures at least two inches in height the name of the person selling, and the number given him by the Superintendent of Police, and be approved on the first Monday in every month by the Superintendent of Police; provided, however, that the foregoing provisions shall not apply to minors licensed by the Selectmen; and, further, provided that the Selectmen may restrain the sale by minors of any or all such articles.

No person hawking, peddling or selling, or exposing for sale, any articles enumerated in Section 15 of Chapter 65 of the Revised Laws, shall cry his wares to the disturbance of the peace and comfort of the inhabitants of the town.

No hawker or peddler shall carry or convey any articles enumerated in Section 15 of Chapter 65 of the Revised Laws in any manner that will tend to injure or disturb the public health or comfort, nor otherwise than in vehicles or receptacles which are neat and clean and do not leak.

SECT. 27. The Selectmen may license suitable persons to be dealers in and keepers of shops for the purchase, sale, or barter of junk, old metals, or second-hand articles, in the town. They may also license suitable persons as junk collectors, to collect, by purchase or otherwise, junk, old metals, and second-hand articles from place to place in the town; and they may provide that such collectors shall display badges upon their persons, or upon their vehicles, or upon both, when engaged in collecting, transporting, or dealing in junk, old metals, or second-hand articles; and may prescribe the design thereof. They may also provide that such shops and all articles of merchandise therein, and any place, vehicle or receptacle used for the collection or keeping of the articles aforesaid, may be examined at all times by the Selectmen or by any person by them authorized thereto. The aforesaid licenses may be revoked at pleasure, and shall be subjected to the provisions of Sections 186 to 189 inclusive of Chapter 102 of the Revised Laws.

Whoever violates any provisions of Sections 26 and 27 shall in cases not otherwise provided for, forfeit and pay for each offence a fine not exceeding twenty dollars.

SECT. 28. The Selectmen may order numbers to be affixed to or painted on the buildings on any street in their discretion. The owner of every house shall comply with such order within thirty days thereafter.

PROSECUTIONS AND PENALTIES.

Except when otherwise provided by law, prosecutions for offences under the By-Laws of the town may be made by any constable or police officer of the town.

CHAPTER 7.

THE CONSTRUCTION AND INSPECTION OF BUILDINGS.

SECTION 1. There shall be in the town a department for the Inspection of Buildings, which shall be furnished with office room and such supplies for the transaction of business as the Selectmen may provide.

SECT. 2. The officer of said department shall be called the Inspector of Buildings. He shall be appointed by the Selectmen, and shall hold office until his successor is appointed. His compensation shall be regulated by the Selectmen.

SECT. 3. Wherever the word Inspector without further addition occurs in this chapter, it means the Inspector of Buildings.

SECT. 4. The Inspector shall keep a record of all business of the department, and shall submit to the Selectmen such reports of the same as they may require.

SECT. 5. The Inspector may, so far as is necessary for the performance of his duties, enter any building or premises within said town at any reasonable hour.

SECT. 6. The Selectmen may, after a hearing, of which public notice shall be given at least seven days prior thereto, by posting a written notice thereof in each post-office in the town and on the public bulletin boards in the town, and by publishing the same in a newspaper published in the town, or, if there be no such newspaper, in one published in the city of Boston, pass a vote designating building limits within the town; and upon the acceptance of said vote by the town at a meeting called as provided by law, said building limits shall be established. Said building limits may comprise the whole or any specified part or parts of the territory of the town.

SECT. 7. Until building limits are established as provided in Section 6, the provisions of this chapter shall apply to the erection, alteration and removal of buildings and other structures throughout the town. After the establishment of such building limits said provisions, save as otherwise specified therein, shall apply to the erection, alteration and removal of buildings and other structures within such building limits only.

SECT. 8. No work shall be done upon any wall, building or other structure except such repairs as may be necessary for the preservation of the same, nor shall any wall, building, or other structure be erected, raised, moved, enlarged, altered, or torn down, without a permit from the Inspector.

SECT. 9. Applications for such permits shall be in writing upon blanks furnished by the town, and shall be directed to the Inspector, who shall keep a record of the same.

SECT. 10. In the case of an application for a permit to erect, raise, move or alter a building or other structure where the Inspector is of opinion, because of all the circumstances, that the reasons for the provisions of this chapter do not apply, the Inspector may, with the consent in writing of the Selectmen, issue a special permit waiving all or any of said

provisions. But before such permit is granted, three days' notice in writing from the Inspector shall be served upon all persons owning land within two hundred feet of the proposed building or structure, in order that such owners may be heard in opposition to the granting of such permit. The Selectmen shall keep a record of all such permits to which they consent.

SECT. 11. The framing plans and specifications of every building or other structure, and of every alteration in a building or other structure, for which a permit is required, shall be deposited temporarily with the Inspector. A copy of the plans and specifications of public buildings and of every alteration in a public building shall be deposited permanently with him. All plans and specifications deposited under this section shall be dated and signed by the Inspector immediately upon being received by him.

SECT. 12. Every permit issued by the Inspector shall state the purpose for which the building is to be used, and the conditions, if any, under which it is granted. All permits issued shall be recorded in detail, and said records shall be preserved.

SECT. 13. The Inspector shall not give a permit for the erection of any building or other structure until he has inspected the plans and specifications thereof, and ascertained that the building as planned has sufficient strength, proper means of ingress and egress, and that it conforms to the law and the By-Laws of the town, or for the alteration of any building or other structure already erected, until he has examined said building or other structure and the plans and specification of said alteration, and has satisfied himself that said building as altered will have sufficient strength, proper means of ingress and egress, and will conform to the law and the By-Laws of the town.

SECT. 14. The Inspector shall inspect all work for which a permit has been issued, and shall see that it is being carried on according to law and the By-Laws of the town.

SECT. 15. No permit for the erection of any building to be used as a factory, or in which steam or other motive power is to be used, or which is to be used for the manufacturing of chemicals, or for the alteration or the moving of any building for any of such uses, shall be granted until after public hearing before the Selectmen; and no building for any of such purposes shall be erected, altered or moved without such permit. Notice of such hearing shall be given at least seven days prior thereto, by posting a written notice thereof in each post-office in the town, and on the public bulletin boards in the town, and by mailing a copy of the same to the owners of premises within five hundred feet of the proposed location of the building, addressed to their last known residence or place of business, and by publishing the same in a newspaper published in the town, or, if there be no such paper, in one published in the city of Boston.

SECT. 16. No boiler to furnish steam for power shall be set or erected, except on a permit from the Inspector, issued after a hearing as prescribed in the preceding section.

SECT. 17. Permits for the erection, alteration, or moving of any building to be used as a stable in which more than four horses are to be kept shall only be granted after hearing as provided in Section 15. Notice of such hearing shall be sent to the Board of Health of the town, in addition to the notices prescribed in said Section 15.

SECT. 18. The provisions of Sections 15, 16 and 17, shall apply to the whole town irrespective of building limits.

SECT. 19. The Selectmen may, in their discretion, after a hearing as provided in Sections 15, 16 and 17, instruct the Inspector not to issue the permit asked for, and in such case no such permit shall issue.

SECT. 20. In case the owner of any building or other structure, or an applicant for a permit to erect, move or alter a building or other structure, is dissatisfied with any order or decision of the Inspector made in any of the proceedings

prescribed in this chapter, the matter shall be referred to the Selectmen, who, within one week from said reference, shall hear the parties, and after taking such expert opinion as may seem to them to be necessary, give their decision. In case the decision of the Inspector is affirmed, the expense of any expert opinion taken by the Selectmen shall be paid to the town by the owner or applicant on demand; otherwise such expense shall be borne by the town.

SECT. 21. Every portion of every building or other structure in process of construction, alteration, repair or removal, and every neighboring building or other structure or portion thereof affected by such process, or by any excavation, shall be properly supported during such process or excavation.

SECT. 22. All chimneys shall be built of brick or stone, and shall be lined with flue lining starting two feet below all thimble holes and at least two feet below the under side of first-floor timbers, and extending above the roof boarding; or shall have an eight-inch brick or stone wall from the foundation to the roof boarding, and shall be topped at least three feet above the highest point of contact with roof.

SECT. 23. No nails shall be driven into any chimney at any point; and no woodwork shall be within one inch of any chimney.

SECT. 24. Sills and girders shall be of sufficient size to safely support the superstructure.

SECT. 25. All woodwork, including lath and plaster, within two feet of any heating apparatus or smoke pipe, and all woodwork, including lath and plaster, coming in contact with any pipes from said apparatus, shall be properly protected by a metal or stone shield.

SECT. 26. All partitions in which hot air pipes run shall be lined with sheet metal, or the pipes shall be wound with asbestos covering.

SECT. 27. Where dwellings of more than two stories are to be occupied by more than two families, there shall be at least two flights of stairs from the ground floor to the top floor, or one flight from the ground floor to the top floor inside, together with an approved fire escape outside.

SECT. 28. The studding of main or carrying partitions shall be not less than four inches in thickness, and shall have a proper support at bottom with a header not less than three inches in depth unless hard pine is used, then it may be two inches. All openings in main partitions of more than thirty inches shall be trussed over and have double studding at sides. Every partition shall have a header extending the length of the partition, and carrying partitions shall be bridged with stock the full width of studding, and two inches thick at least once in height.

SECT. 29. The studding in outside walls and in partitions shall be not more than sixteen inches on centres unless permission is otherwise granted.

SECT. 30. For buildings other than wooden dwelling-houses the size of floor timbers shall be of sufficient size in the opinion of the Inspector to safely carry the weight intended. In wooden dwelling houses the floor timbers for a 12 to 14 foot span shall be not less than 2 x 8; for a 14 to 16 foot span, not less than 2 x 9; for a 16 to 18 foot span, not less than 2 x 10; for an 18 to 20 foot span, not less than 2 x 12; in every case the timbers shall be not more than 16 inches apart on centres.

SECT. 31. All headers and trimmers shall be double the thickness, framed together and pinned or hung in stirrup iron and joint bolted.

SECT. 32. All floor joists on the first floor shall be framed in even with the bottom of the sill and stopped off between where they come above the sills, either with joists or brick. Fire stops, the full width of the studding, and not less than

three inches thick, shall be cut in on top of the floor joists on each floor above the first floor.

SECT. 33. All floor timbers shall be bridged, in a space of more than eight feet, with 1 x 3 inches, or 2 x 3 inches, stock, properly nailed at each end.

SECT. 34. The rafters of all buildings shall be of sufficient size, in the opinion of the Inspector, to safely carry the weight that must necessarily be put upon them, and be placed not over twenty inches apart on centres.

SECT. 35. In dwellings arranged for two or more families, side by side, the vertical division walls between the families shall be either of brick not less than eight inches thick and continued without break or interruption from cellar bottom to roof boarding, or of studding not less than four inches in thickness; and the spaces between the studding shall be filled solid, either with brick and mortar, mineral wool, or other incombustible material, approved by the Inspector, and this fire-proof filling shall continue up to the roof boarding.

SECT. 36. All hearths shall be supported by trimmer arches of brick or stone.

SECT. 37. All piers shall be built of brick or iron columns on proper stone or brick footing, and be of such size as to safely carry the weight they are intended to sustain. Brick piers shall be built of hard-burned brick laid in cement mortar.

SECT. 38. All wooden buildings hereafter erected shall have the sills, posts and girts mortised, tenoned and pinned together and supported by suitable studding, and shall be properly braced. End girts shall be placed in all wooden buildings. Sills shall not be less than 6 x 6 inches and shall be properly tied to all girders, and a sufficient number of floor timbers shall be tenoned and pinned to same to keep the building from spreading.

SECT. 39. Posts and girts shall be not less than 4 x 6 inches, other posts not less than 4 x 8 inches, and plates not less than 4 x 4 inches.

SECT. 40. No wooden building shall be built within two feet of the line of an adjoining lot, unless a brick wall at least eight inches in thickness shall be substituted for the wooden wall next said line.

SECT. 41. Every wooden building or structure hereafter erected shall have a stone or brick foundation resting upon the solid ground or upon concrete, piles, or other durable substructure; said foundation shall be securely and properly built, shall have a sufficient amount of large stone extending through the wall to properly bond and tie it together, and shall be of such thickness as to properly sustain the weight it is intended to support.

SECT. 42. The underpinning above grade, if of brick, shall be not less than ten inches in thickness; if of stone, not less than fourteen inches in thickness, and shall be laid in mortar.

SECT. 43. All foundation walls shall be laid at least three inches below cellar bottom, and not less than three feet six inches below any adjoining surface exposed to frost.

SECT. 44. Every building or structure hereafter built of brick, stone, iron or other hard and incombustible materials shall have foundations resting upon the solid ground, or upon concrete, piles or other durable substructure, and not less than four feet below any adjoining surface exposed to frost.

SECT. 45. Foundation walls for such buildings as are designated in Section 44 shall be built of brick, stone or other suitable substance, properly bonded and solidly built with one-half cement mortar.

SECT. 46. For brick buildings with walls not exceeding thirty-five feet in height, the foundation walls, if built of common stone, shall not be less than thirty inches thick at bottom and twenty inches thick at top, and be built of stone large enough to extend through the wall; if built of block stone in horizontal courses, the walls shall be not less than

sixteen inches the entire height, and shall rest on a footing course twelve inches high and twenty-four inches wide.

SECT. 47. For brick buildings exceeding thirty-five feet in height the foundation walls, if built of common stone, shall be not less than thirty-six inches thick at bottom and twenty-four inches thick at top, and be built of stone large enough to extend through the wall; if built of block stone in horizontal courses, the walls shall be not less than eighteen inches thick the entire height, and rest on a footing course twelve inches high and thirty inches wide.

SECT. 48. Party or partition walls shall be built upon a footing course of stone or brick not less than four inches each way larger than thickness of the wall it is to sustain, and twelve inches high.

SECT. 49. External walls of brick buildings less than fifteen feet in height shall be not less than eight inches thick; over fifteen and less than thirty-five feet in height they shall be not less than twelve inches thick, except when the building is used as a dwelling-house, then the walls of the upper story may be not less than eight inches thick; over thirty-five feet in height the walls shall be not less than sixteen inches thick to the top of second floor, and twelve inches thick the remaining height.

SECT. 50. In every brick wall at least every ninth course shall be a heading or bonding course, except where walls are faced with face brick, in which at least every ninth course shall be bonded with Flemish headers, or by cutting the courses of face brick and putting in diagonal headers behind the same, or by splitting face brick and backing them with a continuous row of headers.

SECT. 51. Vaulted walls shall contain, exclusive of ties, the same amount of material as required for solid walls, and shall be securely tied together with headers in every sixth course at least.

SECT. 52. In reckoning the thickness of walls, no allow-

ance for ashlar shall be made unless it is at least eight inches thick, in which case the excess over four inches shall be reckoned as part of the thickness of the wall. Ashlar shall be at least four inches thick and properly held by metal clamps to the backing, or properly bonded to the same.

BUILDING GRADES.

SECT. 53. The Selectmen may, after a hearing, of which public notice shall be given at least seven days prior thereto, by posting written notice thereof in each post-office in the town and on the public bulletin boards in the town, and by publishing the same in a newspaper published in the town, or if there be no such newspaper, in one published in the city of Boston, and by giving personal notice to the owners of and to be effected by delivering to such owners a copy of said notice or by depositing the same in the post-office, post-paid and addressed to them at their last known residence or place of business, pass a vote designating a building grade or building grades for any part or parts of the town; and on the acceptance of such vote by the town at a meeting called as provided by law, said building grade or building grades shall be established.

SECT. 54. Said building grade or building grades may be at different heights above the level of the sea in different parts of the town, as the nature of the ground may require.

SECT. 55. No cellar floor of any building erected on land for which a building grade has been established, nor any part, except the foundation, of a building on such land which has no cellar, shall be below said grade.

OTHER PROVISIONS.

SECT. 56. The Inspector in the name of the town may take such measures as the public safety requires, to carry

the provisions of this chapter into effect; and any expense incurred in so doing may be recovered by the town from the owner of the defective property.

SECT. 57. Any person violating any of the provisions of this chapter shall be liable to a fine of not less than \$20, nor more than \$100, for each offence.

CHAPTER 8.

THE REGULATION AND INSPECTION OF PLUMBING.

SECTION 1. The word Inspector, without further addition, wherever used in this chapter, means the Inspector of Plumbing.

SECT. 2. No person shall carry on the business of plumbing unless he is a plumber and shall have first registered his name and place of business in the office of the Inspector of Buildings; and notice of any change in the place of business of a registered plumber shall be immediately given to said Inspector of Buildings.

SECT. 3. Every plumber before doing any work in a building shall, except in the repair of leaks, file at the office of the Inspector upon blanks furnished for that purpose a notice of the work to be performed; and no such work shall be done in any building without the approval of the Inspector.

SECT. 4. No pipes or other fixtures shall be covered or concealed in any way until the same have been examined and approved by the Inspector. Notice shall be sent to the Inspector when the work is sufficiently advanced for such inspection, and it shall be the duty of such Inspector, within two working days after receiving such notice, to inspect the same; and in case any change therein shall be found necessary, he shall direct in writing the change to be made.

SECT. 5. All plumbing work shall be subjected to the water test before the fixtures are set. After all the fixtures

are set the work shall be subjected to the smoke, peppermint or other reliable test under pressure. All such tests shall be made in the presence of the Inspector.

SECT. 6. The sewage and waste piping of every house or building shall each be separately and independently connected with the street sewer, where one is provided, or with a proper cesspool; and where there is no sewer in the street, and it is necessary to construct a private sewer to connect with one on an adjacent street, such system shall be used as may be approved by the Inspector.

SECT. 7. The soil-pipe of every building shall be of sufficient size to receive, and allow freely to pass, all that enters or should enter the same. All soil-pipes shall be of extra heavy cast-iron pipe. All drain and connecting ventilating pipes within the building shall be of sufficient size, and made of cast-iron with leaded and calked joints, but galvanized wrought-iron pipe may be used for vent purposes; all such pipes shall be properly secured to walls and ceilings with wrought-iron hangers. Waste-pipes shall be of cast-iron, of lead, or of annealed brass of a thickness not less than No. 13 Stubbs gauge with brass or cast-iron recessed fittings. No soil-pipe of any building shall be less than 4 inches inside diameter, except by written permission of the Board of Health. No vent-pipe shall be less than $1\frac{1}{2}$ inches inside diameter. No waste-pipe shall be less than $1\frac{1}{4}$ inches inside diameter.

SECT. 8. All drain-pipes shall have a proper pitch, shall have an accessible clean-out, and shall extend to a point 10 feet outside of the cellar wall. The pipe from the sewer or cesspool to within 10 feet of the cellar wall shall have tight joints. The clean-out, if made accessible, may be placed outside of the cellar wall. All drain or ventilation pipes shall extend undiminished in inside diameter at least 2 feet above the highest window on the roof. Every drain-pipe, except a drain-pipe from a building having but one sink or but one sink with adjoining trays,

shall have a suitable trap placed with an accessible clean-out at a reasonable distance from the point where such drain-pipe leaves the building. All changes in direction of soil-pipes shall be made by Y branches or by curved pipes. No ventilation pipe on the outside of any building shall be less than 2 inches inside diameter.

SECT. 9. All joints in iron drain-pipes, soil or vent pipes shall be made by thoroughly calking the same with molten lead. Joints of lead pipes with iron pipes shall be made by soldering the same into brass ferrules by means of a full-sized wiped joint and calking the ferrules to pipes which are of cast-iron, or screwing them to pipes which are of wrought-iron.

SECT. 10. Every water-closet, urinal, sink, basin, bath-tub, slop-hopper, and every tray or set of four or less wash-trays shall have a separate trap, placed as near the fixture as possible, except that when two sinks or two basins or a sink and a set of four or less wash-trays adjoin, one trap shall be sufficient. A basin and bath-tub adjoining shall each have a separate trap, and in no case shall the waste from the bath-tub or other fixtures be connected with the water-closet trap or water-closet lead outlet pipe. All fixture traps shall be protected from syphonage or air pressure by special vent-pipes having a diameter not less than the diameter of the waste-pipe and connected with the waste-pipe at a point not lower than the seal of the trap in such manner as to make the vent-pipe a continuation of or a Y branch from the waste-pipe, except that the highest fixture on a stack which extends through the roof shall not require such special vent-pipe unless the length of the waste-pipe from the trap of said fixture to the said stack exceeds 3 feet. Lead vent-pipes may be used only where they are exposed to view. Vent-pipes for water-closets shall be of not less than 2 inches bore and may be connected with the water-closet waste-pipe below the level of the trap seal. Two or more vent-pipes may be connected together or with a soil-pipe, but

such connection with a soil-pipe shall be above the uppermost fixture connected with such soil-pipe.

SECT. 11. No drip- or overflow-pipes from safes under water-closets, urinals, or other fixtures, no overflow-pipes from tanks or cisterns, no waste-pipes from refrigerators or other receptacles in which food is stored, no rain-water conductors, and no steam exhaust-pipes or steam waste-pipes, shall be connected with any soil-pipe. No openings shall be allowed in the soil- or waste-pipe of any building for the purpose of receiving the surface drainage of the cellar except by permission of, and in a manner satisfactory to, the Board of Health. No brick, sheet metal, earthenware, or chimney flue shall be used as a sewer ventilator, or to ventilate any trap, drain, soil- or waste-pipe.

SECT. 12. Every water-closet or line of water-closets on the same floor inside of the building proper shall be supplied with water from a tank, and shall have a flushing pipe of not less than $1\frac{1}{4}$ inches diameter inside.

SECT. 13. Cesspools shall have a top of stone, or arched brick, with iron rim and cover, and may be laid up dry, unless otherwise ordered by the Board of Health.

SECT. 14. Every privy vault shall be at least four feet distant from the line of an adjoining lot, unless by the consent of the owner of such lot; and every vault shall be so constructed as to be conveniently approached, opened and cleaned, and shall be made tight, so that the contents thereof cannot escape therefrom, if, in the opinion of the Inspector, the surroundings require it.

SECT. 15. No water-closet shall be inclosed with any upright woodwork.

SECT. 16. None of the provisions of the foregoing Sections of this Chapter shall apply to the drainage systems of barns and stables, except so far as ordered by the Board of Health, and all drainage systems of barns and stables shall be constructed according to plans approved in writing by the Board of Health.

SECT. 16. In the case of any dispute or difference in opinion between the Inspector and any person, the same shall be submitted by either party to the Local Board of Health, who shall pass upon the same, and whose finding therein, after hearing, shall be final and conclusive upon all parties. No member of said board shall sit in a case in which he is interested, and in case of such disqualification, or of the necessary absence of any member, the two other members shall appoint a substitute. If two or more members are so disqualified or absent, the Inspector shall appoint one substitute, the appellant another, and the two so appointed shall, if necessary, appoint a third.

SECT. 17. The Inspector of Buildings, in the name of the town, may take such measures as the public safety requires, to carry the provisions of this chapter into effect, and any expense incurred in so doing may be recovered by the town from the owner of the defective property.

SECT. 18. A person violating any of the provisions of this chapter shall be liable to a fine not exceeding \$50.

CHAPTER 9.

STREET RAILWAYS.

SECTION 1. The annual report shall contain the following concerning the street railways in the town and the street railway companies owning or operating the same, viz:—

Copies or full statements of all locations granted to street railways during the preceding calendar year, with all the terms, conditions and modifications thereof, and the terms of any modifications granted during the year of locations previously granted.

A copy of all regulations in force as to the rate of speed, the mode, manner and extent of use of tracks, and the number and routes of cars of any and all such companies made

by the Selectmen under the provisions of Sections 40 and 42 of Chapter 112 of the Revised Laws.

A statement of all taxes paid the town by street railway companies during the preceding calendar year, which by the terms of Section 47 of Chapter 14 of the Revised Laws are to be applied toward the construction, repair and maintenance of the public ways and removal of snow therefrom within the town.

SECT. 2. Whenever the Selectmen are of the opinion that additional accommodations for the travelling public are required upon any street railway in the town, and the company neglects or refuses to furnish the same at their request, it shall be their duty to petition the Board of Railroad Commissioners to order such additional accommodations to be provided under the terms of Section 70 of Chapter 112 of the Revised Laws.

CHAPTER 10.

TOWN WAYS.

SECTION 1. Every way that shall be laid out for the acceptance of the town as a town way shall be not less than thirty feet in width.

SECT. 2. Whenever an existing private way, the fee of which is in the abutters, shall be laid out for the acceptance of the town as a town way, the document relating to such laying out shall be accompanied by a certificate of a competent civil engineer, which shall be filed in the office of the Town Clerk, together with said document, before such way shall be accepted. The said certificate shall state that such private way is well built; and that as constructed it is equal to the average construction of the existing highways of the town.

SECT. 3. Whenever any way shall have been laid out or altered by the Selectmen, and accepted and allowed by the

town, no entry for the purpose of constructing any part of such laying out or alteration shall be made until all claims for damages by reason thereof shall have been finally adjusted or determined, unless such entry shall be authorized by special vote of the town.

LEGISLATIVE ACTS ACCEPTED BY THE TOWN OF MILTON.

Per order of the Chairman of the Board of Selectmen, the Town Clerk has had a search made of the records for all votes passed by the Town, accepting "Acts of the Legislature," from the year 1860 to the year 1906, which are herewith printed as follows:

MARCH 19, 1866. *Voted*, To establish a High School, according to the provisions of Section 2 of Chapter 38 of the General Statutes.

MARCH 2, 1874. *Voted*, To accept the provisions of Chapter 265 of the Acts of 1873, relative to public landing places in the Town of Milton.

MARCH 4, 1878. *Voted*, To accept the provisions of Sections 23 to 32 of Chapter 24 of the General Statutes, relative to the establishment of a board of fire engineers.

MARCH 3, 1879. *Voted*, To accept the provisions of Section 21 of Chapter 38 of the General Statutes, relative to the election of School Committee.

DECEMBER 8, 1879. *Voted*, To accept the provisions of Section 1 of Chapter 234 of the Acts of 1878, relative to truants and neglected children.

MARCH 1, 1880. *Voted*, To accept the provisions of Section 1 of Chapter 234 of the Acts of 1878, relative to truants and neglected children.

MARCH 5, 1883. *Voted*, To accept the provisions of Section 10 of Chapter 48 of the General Statutes, relative to truants and neglected children.

MARCH 7, 1881. *Voted*, To accept the Act of the Legislature, Chapter 158 of the Laws of 1871, entitled, "An Act to Provide for the Election of Road Commissioners."

MARCH 3, 1890. *Voted*, To accept the first nine sections of Chapter 51 of the Public Statutes, said chapter being entitled, "Of Betterments, and Other Assessments on Account of the Cost of Public Improvements."

FEBRUARY 12, 1891. *Voted*, To accept the Act authorizing towns and cities to lay out public parks within their limits; being Chapter 154 of the Acts of 1882.

MARCH 2, 1891. *Voted*, To accept the provisions of Chapter 386 of the Acts of 1890, relative to the election of Town Officers.

FEBRUARY 3, 1894. *Voted*, That the Town does hereby accept the provisions of Section 268 of Chapter 417 of the Acts of the Legislature of Massachusetts passed in the year 893, relative to the election of a separate Board of Assessors.

NOVEMBER 28, 1894. *Voted*, That the Town hereby accepts the provisions of Chapter 324 of the Acts of the Legislature of 1894, entitled, "An Act Relative to the Reservation of Spaces in Public Ways."

MARCH 4, 1895. *Voted*, That the Town hereby accepts the provisions of Chapter 309 of the Acts of 1885, entitled, 'An Act Authorizing Cities and Towns to License Groves, to be Used for Picnics and Other Lawful Amusements.'

MARCH 4, 1895. *Voted*, That the Town hereby accepts the provisions of Section 272 of Chapter 417, Acts of the Legislature of 1893, relating to the election of Sewer Commissioners in towns.

MARCH 4, 1895. *Voted*, That the Town hereby accepts the provisions of Chapter 462 of the Acts of the Legislature of 1893, entitled "An Act to Authorize the Establishment of a Building Line on Public Ways."

MARCH 4, 1895. *Voted*, That the Town hereby accepts the provisions of Chapter 218 of the Acts of the Legislature of 1894, as amended by Chapter 473 of the Act of the

same year, being "An Act Relative to the Election of Boards of Health in Towns."

MARCH 4, 1895. *Voted*, That the Town hereby accepts the provisions of Sections 20 and 21 of Chapter 50 of the Public Statutes, relating to the establishment and grading of sidewalks, by the Selectmen.

JUNE 29, 1895. *Voted*, That the Town accept the provisions of Chapter 304 of the Acts of 1895, entitled, "An Act to Authorize the Town of Milton to Construct One or More Systems of Sewerage."

MARCH 1, 1897. *Voted*, That the Town accept Chapter 101 of the Public Statutes, entitled, "Of the Suppression of Common Nuisances."

MARCH 1, 1897. *Voted*, That the provisions of Chapter 481 of the Acts of the year 1894, be accepted, entitled, "Regulation and Inspection of Buildings."

MARCH 3, 1902. *Voted*, That the Town accept Section 18 of Chapter 122 of the Revised Laws, relative to the appointment of an Inspector of Wires.

MARCH 3, 1902. *Voted*, That the Town accept Chapter 38 of the Revised Laws of Massachusetts, relative to the election of a treasurer of Public Library Trustees.

JULY 14, 1902. *Voted*, To accept Chapter 307 of the Acts of 1902, entitled, "An Act to Supply the Town of Milton with Water."

AUGUST 16, 1902. *Voted*, To accept Sections 58 to 64, inclusive, of Chapter 48 of the Revised Laws, relative to jurisdiction of towns over highways and county bridges.

MARCH 2, 1903. *Voted*, To accept Sections 20 and 21, of Chapter 25 of the Revised Laws of Massachusetts, relating to public baths, etc.

MARCH 2, 1903. *Voted*, To accept Section 339 of Chapter 11 of the Revised Laws, and Acts in amendment thereof

and in addition thereto, relative to the election of Overseers of the Poor.

MARCH 7, 1904. *Voted*, To accept Section 70 of Chapter 75 of the Revised Laws, relating to privy vaults.

MARCH 6, 1905. *Voted*, To accept Chapter 103 of the Revised Laws, relative to supervision of plumbing.

JULY 21, 1905. *Voted*, To accept Chapter 381 of the Acts of 1905, relative to the suppression of gypsy and brown-tail moths.

MARCH 8, 1910. *Voted*, To accept the provisions of Section 43 of Chapter 49 of the Revised Laws relative to the grading and construction of sidewalks.

MILTON TOWN RECORDS FOR THE MUNICIPAL YEAR 1910-1911.

MARCH MEETING.

WARRANT

COMMONWEALTH OF MASSACHUSETTS, NORFOLK, SS.

To either of the Constables of the Town of Milton, greeting:

In the name of the Commonwealth of Massachusetts you are hereby required to notify and warn the inhabitants of the Town of Milton, qualified to vote in Town affairs, to meet in the Town Hall in said Milton, the seventh day of March next, at 6 o'clock A. M., then and there to act upon the following articles, to wit:

ARTICLE 1. To choose a Moderator to preside at said meeting.

ART. 2. To choose all such Town officers as are required by law to be chosen by ballot, also on the same ballot to vote "Yes" or "No" in answer to the question, "Shall licenses be granted for the sale of intoxicating liquors in this Town?" The polls to be opened at 6 o'clock in the forenoon and may be closed as early as 2 o'clock in the afternoon.

ART. 3. To choose all such Town officers as are not required by law to be chosen by ballot.

ARTICLE 4. To hear and act upon the Auditors' report, and reports of other Town officers or committees.

ARTICLE 5. To see what sum of money the Town will appropriate for the support of Schools the ensuing year.

ARTICLE 6. To see what sum of money the Town will appropriate for transportation of pupils the ensuing year.

ARTICLE 7. To see what sum of money the Town will appropriate for the medical inspection of the pupils of the Public Schools the ensuing year, the same to be expended under the direction and at the discretion of the School Committee.

ARTICLE 8. To see what sum of money the Town will appropriate for the general uses of the Board of Park Commissioners the ensuing year.

ARTICLE 9. To see what sum of money the Town will appropriate to be expended by the Park Commissioners in conjunction with the School Committee in the improvement of school lots the ensuing year.

ARTICLE 10. To see what sum of money the Town will appropriate for re-surfacing the ball field and planting trees on Brook Road Playground, the same to be expended under the direction and at the discretion of the Park Commissioners.

ARTICLE 11. To see if the Town will vote to accept that part of Dyer Avenue, extending from Houston Avenue to Warren Avenue, as laid out by the Selectmen, as a Town way.

ARTICLE 12. To see if the Town will vote to accept that part of Houston Avenue, running from Thacher Street to Brook Road Playground, as laid out by the Selectmen, as a Town way.

ARTICLE 13. To see if the Town will vote to accept Columbine Road, as laid out by the Selectmen, as a Town way.

ARTICLE 14. To see if the Town will vote to accept Hinckley Road, as laid out by the Selectmen, as a Town way.

ARTICLE 15. To see if the Town will vote to accept Frothingham Street, running from Canton Avenue to Brook Road, as laid out by the Selectmen, as a Town way.

ARTICLE 16. To see what sum of money the Town will appropriate for the Street Department the ensuing year.

General expenses.

Street watering.

Construction of sidewalks. Removal of ice and snow.

ARTICLE 17. To see what sum of money the Town will appropriate for street lighting the ensuing year, and to see if the Town will vote to authorize the Selectmen to contract for street lighting service for a term of years.

ARTICLE 18. To see if the Town will vote to erect one electric light on Capen Street, between the Neponset River and the N. Y., N. H. & H. Railroad crossing, and appropriate money for the same.

ARTICLE 19. To see if the Town will vote to erect one electric light at Paul's Bridge, and appropriate money for the same.

ARTICLE 20. To see if the Town will vote to erect one electric light on the westerly side of Adams Street about opposite the main entrance of the Associates Building, and appropriate money for the same.

ARTICLE 21. To see if the Town will vote to erect one electric light on Canton Avenue in the South District of

the Town, between the light at the house of the estate of Lewis Davenport, and the light at the back avenue of the estate of Roger Wolcott, and appropriate money for the same.

ARTICLE 22. To see if the Town will vote to erect ten electric lights on Hinckley Road, and appropriate money for the same.

ARTICLE 23. To see if the Town will vote to erect nine electric lights on Columbine Road, and appropriate money for the same.

ARTICLE 24. To see what sum of money the Town will appropriate for the Fire Department the ensuing year.

ARTICLE 25. To see if the Town will vote to increase the pay of the permanent men of the Fire Department to three dollars (\$3.00) per day, and appropriate the sum of eleven hundred and forty dollars (\$1,140) for the same.

ARTICLE 26. To see what sum of money the Town will appropriate for the purchase of new hose for the use of the Fire Department the ensuing year.

ARTICLE 27. To see what sum of money the Town will appropriate for the use of the Department of Wires the ensuing year.

ARTICLE 28. To see if the Town will vote to install a new fire alarm box at the corner of Washington and Eaton Streets, and appropriate money for the same.

ARTICLE 29. To see what sum of money the Town will appropriate for the Health Department the ensuing year.

ARTICLE 30. To see what sum of money the Town will appropriate for the collection of ashes and garbage the ensuing year.

ARTICLE 31. To see what sum of money the Town will appropriate for the Public Library the ensuing year.

ARTICLE 32. To see what sum of money the Town will appropriate for the Police Department the ensuing year.

ARTICLE 33. To see if the Town will vote to accept the provisions of Chapter 327 of the Acts of 1904 relative to the pensioning of permanent members of Police Departments and Fire Departments.

ARTICLE 34. To see what action the Town will take with reference to the further investigation of the question of pensioning the employees of the Town and to the appropriation of money for the expenses of such investigation.

ARTICLE 35. To see what sum of money the Town will appropriate for miscellaneous expenses the ensuing year.

General expenses.	Town Hall and Lot.
-------------------	--------------------

Interest.	Printing.
-----------	-----------

Abatements.	Insurance.
-------------	------------

Contingent.

ARTICLE 36. To see what sum of money the Town will appropriate for the support of the Poor the ensuing year.

ARTICLE 37. To see what sum of money the Town will appropriate for Soldiers' Relief the ensuing year.

ARTICLE 38. To see what sum of money the Town will appropriate for State Aid the ensuing year.

ARTICLE 39. To see if the Town will appropriate the sum of \$250 to be expended by Huntington Frothingham Wolcott Post 102, G. A. R., on Memorial Day.

ARTICLE 40. To see what sum of money the Town will appropriate for hydrant service the ensuing year.

ARTICLE 41. To see what sum of money the Town will appropriate for the extension of water mains.

ARTICLE 42. To see what sum of money the Town will appropriate for the maintenance of the Sewer Department the ensuing year.

ARTICLE 43. To see what sum of money the Town will appropriate for the extension of the sewerage system the ensuing year, and to determine how the money shall be raised.

ARTICLE 44. To see what sum of money the Town will appropriate for Salaries the ensuing year.

ARTICLE 45. To see what sum of money the Town will appropriate for the use of the Tree Warden, to be expended in the care and planting of shade trees and the destruction of insect pests injurious to trees the ensuing year.

ARTICLE 46. To see what sum of money the Town will appropriate to be expended by the Tree Warden in the extermination of the gypsy and brown-tail moths.

ARTICLE 47. To see what salary (if any) the Town will vote to pay the Tree Warden.

ARTICLE 48. To see what sum of money the Town will appropriate for the improvement of the Cemetery the ensuing year.

ARTICLE 49. To see what sum of money the Town will appropriate towards the restoration of the Jason Reed Cemetery Fund, and what action it will take with reference to the sum so appropriated.

ARTICLE 50. To see what sum of money the Town will appropriate towards the restoration of the Jason Reed Public Park Fund, and what action it will take with reference to the sum so appropriated.

ARTICLE 51. To see what sum of money the Town will appropriate towards the restoration of the Perpetual Care Fund, and what action it will take with reference to the sum so appropriated.

ARTICLE 52. To see what sum of money the Town will appropriate for the general uses of the Board of Assessors the ensuing year.

ARTICLE 53. To see if the Town will authorize the Collector of Taxes to use all means of collecting taxes which a Town Treasurer, when appointed Collector, may use.

ARTICLE 54. To see whether the Town will vote to adopt the following change in its Revised By-Laws:

Section 4 of Chapter 4 of the Revised By-Laws of the Town of Milton is hereby amended as follows: By strik-

ing out wherever it occurs in said section the word "December" and substituting in place thereof the word "November," and by referring to Acts of 1909 instead of to Revised Laws, so as to make said Section 4 read as follows:

"SECTION 4. Poll taxes shall be payable on demand, and all other taxes assessed in each year shall be payable on or before the first day of November in the same year; and on all such taxes as are not paid on or before the said first day of November, interest shall be charged at a rate to be fixed annually by the Town, pursuant to Section 71 of Chapter 490 of the Acts of the year 1909, Part 1, and the Collector shall use all the means and processes provided by law for the collection of all taxes remaining unpaid after the first day of November in the same year."

ARTICLE 55. To fix the rate of interest on taxes unpaid after a time fixed by the Town.

ARTICLE 56. To see what action the Town will take in regard to borrowing money in anticipation of taxes.

ARTICLE 57. To see if the Town will vote to authorize the Selectmen to employ counsel to represent the Town at hearings before Committees of the General Court.

ARTICLE 58. To see if the Town will vote to accept the provisions of Section 43 of Chapter 49 of the Revised Laws relative to the grading and construction of sidewalks.

ARTICLE 59. To see if the Town will vote to request its Senator and Representative in the General Court to advocate a bill for the establishment of an Art Commission.

ARTICLE 60. To see if the Town will appropriate the sum of two hundred dollars (\$200) to be expended by the Selectmen for a band concert and athletic sports for the celebration of the Fourth day of July.

ARTICLE 61. To see what action the Town will take in regard to the will of Mrs. Marion D. Hollingsworth, late of Milton, deceased, and the provisions of said will in favor of the Town and its library, and the settlement of the questions which have arisen in connection therewith and compromise thereof.

ARTICLE 62. To see if the Town will vote to accept and maintain a drinking trough to be located on the triangle in front of Hose 2 House, at East Milton, provided that all the expense of installation be borne by the donor.

ARTICLE 63. To see if the Town will vote to appropriate the sum of \$1,000 to lay a new floor in the large hall situated in the Milton Town Hall building.

ARTICLE 64. To see if the Town will improve its property at the Lower Mills, between Adams Street and the Neponset River,—also improve the conditions at the Town Landing, and appropriate money for the same.

ARTICLE 65. To see what action the Town will take with reference to providing an approach to a proposed station of The New York, New Haven & Hartford Railroad Company at Milton Lower Mills, and with reference to the sale of a portion of the Town property in furtherance of plans to provide additional railroad facilities adjacent to said station.

And you are directed to warn said inhabitants, qualified as aforesaid, to meet at the time and place and for the

purpose herein mentioned, by posting attested copies of this Warrant in each of the post-offices of said Town fourteen days at least before said meeting, and leaving printed copies hereof at the dwelling houses in said Town at least four days before said meeting.

Hereof fail not, and make due return of this Warrant with your doings thereon, to the Town Clerk, at the time and place of said meeting.

Given under our hands at Milton this eighteenth day of February, Nineteen Hundred and Ten.

JESSE B. BAXTER,

MAURICE A. DUFFY,

PHILIP S. DALTON,

Selectmen of Milton.

COMMONWEALTH OF MASSACHUSETTS, NORFOLK, SS.

MILTON, March 7, 1910.

Pursuant to the within warrant I have notified the inhabitants of the Town of Milton, as within directed, to meet at the time and place, and for the purposes therein mentioned, by posting attested copies of the same in the post-offices of the Town, and by leaving copies at the dwellings of the inhabitants.

PELEG BRONSDON,

Constable of Milton.

At a meeting of the inhabitants of the Town of Milton, held according to the foregoing warrant upon March 7, 1910, the following proceedings were had upon the several articles in said warrant, namely:

ARTICLE 1. Robert F. Herrick, Esq., was chosen Moderator, and was sworn by the Town Clerk.

The following appointments of Ballot Clerks and

Tellers, were made by the Selectmen, to serve at said meeting, viz:

Ballot Clerks: Thomas M. Lennon, Charles H. Bearce, Edward Gallagher, Stephen Bianchi.

Tellers: G. Frank Kemp, J. Albert Simpson, Albert E. Streever, Robert J. Clark, Ernest E. Nickerson, James J. Mahoney, Charles A. Splaine, Lewis Harlow, Louis B. Currier, George F. Roberts, Edward F. W. Bartol, Thomas J. Healey, Reginald L. Robbins, Charles B. Abbott, Lewis W. Gage, Russell Swift, Prescott Skinner, James A. Roberts, Peter J. Barry, Norman Bowman, Joseph J. Mullen: all of the above named being sworn by the Town Clerk.

At 2 o'clock and 8 minutes, P.M., *Voted*, To close the polls for Town officers in ten minutes.

All ballots for the various Town officers having been sorted, counted, declared and recorded, resulted in the election of the following officers, namely:

ART. 2. Henry B. Martin was chosen Town Clerk.

Henry H. Barnes, Philip S. Dalton, Maurice A. Duffy were chosen Selectmen and Surveyors of Highways.

Herbert B. Tucker was chosen Assessor.

J. Porter Holmes was chosen Town Treasurer.

Theron A. Apollonio, Percy E. Sheldon were chosen School Committee.

Josiah Babcock was chosen Collector of Taxes.

William B. Batchelder, James F. Mitchell were chosen Auditors.

Nathaniel T. Kidder was chosen Park Commissioner.

John Balch was chosen Sewer Commissioner.

Reginald M. Johnson was chosen Water Commissioner.

Abijah W. Draper was chosen on Board of Health.

The following Constables were chosen: Peleg Bronsdon
Fred M. Farrington, Edwin A. Houghton, Herbert R.

Lawrence, Jacob S. Lincoln, Timothy McDermott, Peter McIntyre, Maurice Pierce, Henry C. Shields, James R. Travers, Duncan B. Walker, James Wigley.

Orrin A. Andrews, Nathaniel T. Kidder, Frederic M. Stone were chosen Trustees of Public Library.

C. Minot Weld was chosen Trustee of Cemetery.

Nathaniel T. Kidder was chosen Tree Warden.

Lavina H. Brackett, Parker B. Field were chosen Overseers of Poor.

Voted, That no license be granted for the sale of intoxicating liquor in this Town, the ballot being as follows: Yes, 190; No, 720.

ART. 3. The following officers were elected *viva voce*, namely: George Y. Badger, T. M. LeFevre, Fence Viewers. George E. Burt, Arthur H. Tucker, Surveyors of Lumber. Calvin H. Sanford, Pound Keeper.

ART. 4. *Voted*, That the Auditors' (printed) report be accepted, in as far as it is correct, but that the item in the Miscellaneous expense account, stating that the Town Clerk received \$182.16 for copying records be expunged as the amount received by him for that service was but \$25.

REPORT OF COMMITTEE IN CHARGE OF COPYING THE TOWN RECORDS:

The Directors of the Milton Historical Society, acting under the power conferred upon them by vote of the March Meeting in 1908, have made good progress with the work entrusted to them.

The first volume of the records has been copied by Miss Eleanor P. Martin with great care and accuracy, retaining all the peculiarities, of the original: The copy which is now in safe-keeping at the Public Library gives reference

to the original, by which one can readily turn to any point in the record.

The copying of the second volume is progressing well, and we feel that the most difficult volume having been finished the rest of the work will move along faster.

The financial aspect of the work is set forth in the report of the Town Treasurer, and it is not necessary to add anything here as no further appropriation is needed as yet.

For The Committee.

The Directors of Milton Historical Society,
NATHANIEL T. KIDDER,
President.

MILTON, 2nd. Feb. 4, 1910.

Voted, That the above report be accepted and placed on file.

Voted, That the report of the Committee relative to the restoration of certain funds held by the Town, appointed at the March Meeting in 1909 (and submitted in print) be accepted and placed on file.

Voted, That the report of the Committee on Pen-sions, appointed at the March Meeting, 1909 (sub-mitted in print) be accepted and placed on file.

REPORT OF COMMITTEE ON "ART COMMISSION."

The Committee appointed to investigate the feasibility and legality of an Art Commission in Milton, submits the following report:

Your Committee has considered whether or not it would be wise for the Town to have a commission of one or more competent persons to whom should be submitted for approval, the plans for all municipal structures to be erected on Town land, and works of art, or objects of utility or ornament, intended to be erected on public ways or lands, except cemeteries, and any works of art,

or objects of ornament, or decoration intended to be placed in or upon any public or municipal buildings, or to be removed therefrom, or relocated or altered.

As the result of correspondence, your Committee finds that Art Commissions exist in Boston, New York, Hartford, Philadelphia and Chicago, but has not found that such commissions exist in towns the size of Milton, though inquiry was made through State Secretaries of Massachusetts, Connecticut, New York, Ohio, Illinois, Indiana, Michigan, Wisconsin, New Jersey, Pennsylvania, California, and New South Wales, Australia.

Although such commissions are thus confined to large cities, your Committee is nevertheless of the opinion that an Art Commission properly appointed would be desirable for Milton, on account of the excellent results of the operations of such commissions in the cities where they have been established.

New York City is a particularly notable example of the advantages accomplished by an Art Commission.

Pamphlets are published giving in detail the history of this commission and showing clearly that it is in no way obstructive, but is of great assistance to the municipal authorities in preparing plans for municipal structures and to private individuals contemplating the presentation to the municipality of gifts in the shape of memorial structures, or objects of art or utility to be placed in schools or municipal buildings.

In the belief that an Art Commission would not only not be obstructive, but would operate to the advantage of Milton, as similar commissions have to the advantage of New York, and other municipalities, it is the opinion of your Committee that Milton will be assisting itself and other towns of its size by being the first to establish one.

As regards the legality of an Art Commission for Milton,

the Town Counsel has informed your Committee that a special act of the Legislature would be necessary before such commission could be appointed to act with authority, and there is appended to this report, as a part thereof, a form of a general act, drawn by him, showing the proposed scope of such a commission, and the manner of appointing it.

We submit the foregoing result of our investigation of this matter as material for determining the question of the desirability of creating an Art Commission for Milton.

(Signed.) THOMAS K. CUMMINS,
NATHANIEL T. KIDDER,
JOHN ALDEN LEE,
Committee.

Voted, That the above report be accepted and that the Town request its Senator and Representative in the General Court, to advocate a bill for the establishment of an Art Commission.

ART. 5. *Voted*, To appropriate the sum of \$84,500 for the support of Schools the ensuing year.

ART. 6. *Voted*, To appropriate the sum of \$2,000 for transportation of pupils the ensuing year.

ART. 7. *Voted*, To appropriate the sum of \$300 for medical inspection of the pupils of the public schools the ensuing year, the said sum to be expended under the direction, and at the discretion of the School Committee.

ART. 8. *Voted*, To appropriate the sum of \$150 for general use of the Board of Park Commissioners the ensuing year.

ART. 9. *Voted*, To appropriate the sum of \$100 to

be expended by the Park Commissioners in conjunction with the School Committee, in improvement of school lots the ensuing year.

ART. 10. *Voted*, To indefinitely postpone.

ART. 11. *Voted*, To accept that part of Dyer Avenue, (running from Houston Avenue to Warren Avenue) as laid out by the Selectmen, as a Town way.

ART. 12. *Voted*, To accept that part of Houston Avenue, (running from Thatcher Street to Brook Road play-ground) as laid out by the Selectmen, as a Town way.

ART. 13. *Voted*, To accept Columbine Road, as laid out by the Selectmen, as a Town way.

ART. 14. *Voted*, To accept Hinckley Road, as laid out by the Selectmen, as a Town way.

ART. 15. *Voted*, To accept Frothingham Street (running from Canton Avenue to Brook Road) as laid out by the Selectmen, as a Town way.

ART. 16. *Voted*, To appropriate for expenses of the Street Department the ensuing year the following sums:

For general expenses, \$35,000

For construction and repair of permanent sidewalks,
\$1,500

For street watering and oiling, \$9,500

For removal of ice and snow, \$2,500

ART. 17. *Voted*, To appropriate the sum of \$16,450 for street lighting the ensuing year, and that the Board of Selectmen be and hereby are authorized to enter into a contract with the Edison Electric Illuminating Company for street lighting for the Town, for a period not

exceeding five years, the cost to the Town per light under such contract to be no greater than under the existing contract.

ART. 18. *Voted*, To indefinitely postpone.

ART. 19. *Voted*, To erect one electric light at Paul's Bridge, and that the sum of \$22.31 be appropriated therefor: It was also voted that the Selectmen be requested to confer with the Hyde Park Selectmen, with full power to arrange for a better lighting of that locality.

ART. 20. *Voted*, To indefinitely postpone.

ART. 21. *Voted*, To erect one electric light on Canton Avenue, in the south district, between the light at the house of the estate of Lewis Davenport, and the light at the back avenue of the estate of Roger Wolcott, and that the sum of \$22.31 be appropriated therefor.

ART. 22. *Voted*, To erect ten electric lights on Hinckley Road, and that the sum of \$223.10 be appropriated therefor.

ART. 23. *Voted*, To erect nine electric lights on Columbine Road, and that the sum of \$200.79 be appropriated therefor.

ART. 24. *Voted*, To appropriate the sum of \$23,500 for the use of the Fire Department the ensuing year.

ART. 25. *Voted*, To increase the pay of the permanent men of the Fire Department, to three dollars per day, and that the sum of \$1,140 be appropriated therefor.

ART. 26. *Voted*, To appropriate the sum of \$700 for

the purchase of new hose for the Fire Department the ensuing year.

ART. 27. *Voted*, To appropriate the sum of \$1,000 for the use of the Department of Wires the ensuing year.

ART. 28. *Voted*, To install a new fire alarm box at the corner of Washington and Eaton Streets and that the sum of \$200 be appropriated therefor.

ART. 29. *Voted*, To appropriate the sum of \$2,200 for the Health Department (to include expense of inspection of sewer connections) the ensuing year.

ART. 30. *Voted*, To appropriate the sum of \$2,800 for collecting of ashes and garbage the ensuing year, to be expended under the direction of the Board of Health, from such places as said Board may designate.

ART. 31. *Voted*, To appropriate the sum of \$8,700, all fines received at the library in 1910, and the Dog Tax for 1909, for Public Library use the ensuing year.

ART. 32. *Voted*, To appropriate the sum of \$27,500 for the Police Department the ensuing year.

ART. 33. *Voted*, To consider Articles 33 and 34, in conjunction.

ART. 34. *Voted*, That a committee of five citizens, be appointed by the Moderator, to continue the investigation of the question of pensioning the employees of the Town, and to make a report thereon in writing at the next Annual Town Meeting, and that the sum of \$200 be appropriated for the committee's use. Committee appointed: W. Newton Harlow, Murray Ruggles, Reginald M. Johnson, John Pierce, Reginald L. Robbins.

ART. 35. *Voted*, To appropriate the following sums for miscellaneous expenses the ensuing year, namely:

For general expenses, \$3,500.
For interest charges, \$9,400.
For abatement of taxes, \$3,500.
For contingent fund, \$3,500.
For Town Hall and Lot, \$1,600.
For printing, \$2,000.
For insurance, (liability and fire) \$4,450.

ART. 36. *Voted*, To appropriate the sum of \$6,000 plus the proceeds from the Town Farm, and reimbursements from other cities and towns for the support of poor the ensuing year.

ART. 37. *Voted*, To appropriate the sum of \$1,500 for soldiers' relief the ensuing year.

ART. 38. *Voted*, To appropriate the sum of \$1,600 for State Aid the ensuing year.

ART. 39. *Voted*, To appropriate the sum of \$250 to be expended by H. F. Wolcott Post 102, G. A. R. on Memorial Day.

ART. 40. *Voted*, To appropriate the sum of \$9,000 for hydrant service the ensuing year.

ART. 41. *Voted*, To appropriate the sum of \$2,000 for the extension of water mains the ensuing year.

ART. 42. *Voted*, To appropriate the sum of \$750 for the maintenance of the Sewer Department the ensuing year.

ART. 43. *Voted*, That the sum of \$9,000 be, and it

is hereby appropriated for the purpose of constructing sewers, the same to be spent under the direction of the Sewer Commissioners, and the Town Treasurer is hereby authorized, by virtue and in pursuance of Chapter 304, of the Acts of 1895, to issue and sell bonds or notes of the Town, to an aggregate principal amount of \$9,000, payable \$1,000 thereof each year, beginning one year after their date of issue, and bearing interest at a rate not exceeding 4 per cent per annum, payable semi-annually.

Such notes or bonds shall state on their face that they are exempt from taxation in Massachusetts, and shall be denominated on their face, "Milton Sewerage Loan of 1910, Act of 1895."

The above vote was passed, by more than two-thirds majority of those present and voting.

ART. 44. *Voted*, To appropriate the sum of \$8,700 for salaries of Town Officers the ensuing year, said officers to receive the same salary as last year. The Clerk of the Selectmen to also act in that capacity for the Overseers of Poor. The Inspector or Deputy Inspector of Plumbing to receive for each permit issued, the sum of \$3.00, said amount to be taken from the miscellaneous accounts.

ART. 45. *Voted*, To appropriate the sum of \$1,000 together with the receipts of the departments for the use of the Tree Warden, to be expended in the care and planting of shade trees, and the destruction of insect pests injurious to trees.

ART. 47. *Voted*, To appropriate the sum of \$10,000 to be expended by the Tree Warden, in extermination of gypsy and brown-tail moths.

ART. 47. *Voted*, To pay no salary to the Tree Warden;

but the Town desires to place upon record its great appreciation of the long, generous and faithful service, without remuneration of said officer, Nathaniel T. Kidder, Esq.

ART. 48. *Voted*, To appropriate the sum of \$2,000 for the improvement of the Cemetery the ensuing year.

ART. 49. *Voted*, That the sum of \$500 be appropriated towards the restoration of the Jason Reed Cemetery Fund. That said appropriation be deposited by the Town Treasurer in the Milton Savings Bank, or some other Savings Bank, or Trust Company, incorporated under the laws of this Commonwealth, upon the trust that the principal shall remain on deposit subject to the vote of the Town, and the interest be paid over to the Trustees of the Milton Cemetery, to be expended by them in accordance with the terms of the will of the late Elizabeth T. L. Reed.

That the Selectmen shall annually insert in the Warrant for the March meeting, an article substantially like the above until the restoration is completed.

ART. 50. *Voted*, That the sum of \$500, be appropriated towards the restoration of the Elizabeth T. L. Reed Public Park Fund; that said appropriation be deposited by the Town Treasurer, in the Milton Savings Bank, or some other Savings Bank, or Trust Company, incorporated under the laws of this Commonwealth, upon the trust that both principal and interest shall remain on deposit subject to be drawn by the Park Commissioners of Milton, to be expended by them in accordance with the terms of the will of the late Elizabeth T. L. Reed. That the Selectmen shall annually insert in the Warrant, for the March meeting, an article substantially like the

above, until the restoration of both principal and expended interest is completed.

ART. 51. *Voted*, Under this article, Charles E. Roger-son, Esq., Chairman of the Committee appointed at the March meeting, 1909, under Article 50, "toward restoring the Milton Cemetery Perpetual Care Fund," presented the following report:

Recommended; That the sum of \$2,000 be appropriated toward the restoration of the Perpetual Care Fund; that such appropriation be deposited by the Town Treasurer in the Milton Savings Bank, or some other Savings Bank, or Trust Company incorporated under the laws of this Commonwealth, upon the trust that the principal shall remain on deposit subject to the vote of the Town, and the interest paid over to the Trustees of the Cemetery to be expended by them, in accordance with the terms of the several perpetual care agreements. That the Selectmen shall annually insert in the Warrant for the March meeting an article substantially like the above until a sufficient fund has been established to provide at the then current rate of interest, an income equal to six per cent on the present fund.

Voted, That the above report be accepted, the recommendations adopted, and that the sum of \$2,000 be appropriated for the restoration of said fund.

ART. 52, *Voted*, To appropriate the sum of \$1,050 for the general use of the Board of Assessors the ensuing year.

ART. 53. *Voted*, That the Collector of Taxes, be authorized to use all means of collecting taxes which a Town Treasurer, when appointed collector may use.

ART. 54. *Voted*, To adopt the following change in the Revised By-laws.

Section 4, of Chapter 4, of the Revised By-laws of the Town of Milton, is hereby amended as follows: By striking out wherever it occurs in said section, the word "December," and substituting in place thereof the word "November," and by referring to Acts of 1909, instead of to Revised Laws, so as to make said Section 4 read as follows:

"SECTION 4. Poll taxes shall be payable on demand and all other taxes assessed in each year, shall be payable on or before the first day of November, in the same year, and on all taxes as are not paid on or before the said first day of November, interest shall be charged at a rate to be fixed annually by the Town pursuant to Section 71, of Chapter 490, of the Acts of the year 1909, Part 1, and the Collector shall use all the means and processes provided by law for the collection of all taxes remaining unpaid after the first day of November, in the same year."

Note. The above By-Law was *Approved* May 7, 1910, by the Attorney-General, Hon. Dana Malone.

ART. 55. *Voted*, That on all taxes unpaid after November 1, 1910, interest shall be charged at the rate of six per cent.

ART. 56. *Voted*, That the Treasurer be, and he hereby is authorized with the approval of the majority of the Selectmen, to borrow from time to time during the current municipal year beginning March 1, 1910, in anticipation of the taxes of said municipal year, a sum or sums not exceeding at any one time outstanding, \$200,000 for the purpose of meeting the current expenses of the Town, and to give the notes of the Town therefor, payable within one year from their dates. All debts incurred

under authority of this vote, shall be paid from the taxes of said current municipal year.

Said notes shall not be valid, unless authenticated by the certificate of The First National Bank of Boston.

ART. 57. *Voted*, To authorize the Selectmen to employ counsel to represent the Town, at hearings before Committees of the General Court.

(Passed by a more than $\frac{2}{3}$ vote.)

ART. 58. *Voted*, To accept the provisions of Section 43, of Chapter 49, of the Revised Laws, relative to the grading and construction of sidewalks.

ART. 59. *Voted*, See Article 4, Report of Committee.

ART. 60. *Voted*, To appropriate the sum of \$200, to be expended by the Selectmen for a band concert, and athletic sports, in the celebrating the Fourth day of July.

ART. 61. *Voted*, That the action of the Selectmen, and their counsel in assenting, and becoming party to the agreement of compromise in the Supreme Judicial Court, in the matter of the will of Marion D. Hollingsworth be ratified and confirmed.

ART. 62. *Voted*, That the Town accept, and maintain a drinking trough, to be located on the triangle in front of Hose 2 House, at East Milton, provided that all expense of installation be borne by the donor.

ART. 63. *Voted*, To appropriate the sum of \$400, for a new floor, in the large hall in the Town Hall building.

ART. 64. *Voted*, That the subject matter of this article be referred to a committee of five citizens, to be appointed by the Moderator to investigate and report on

the same in writing at the next annual Town Meeting, and that the sum of \$150 be appropriated for the committee's use.

Committee appointed: H. Clifford Gallagher, Horace B. Horne, Timothy W. Melley, James S. Russell, Norton Wigglesworth.

ART. 65. *Voted*, That the Selectmen, and two other citizens to be appointed by the Moderator, be and hereby are appointed a committee of five, with full authority as agents of the Town, to provide an approach to a proposed station of the New York, New Haven & Hartford Railroad Company, at Milton lower mills; to purchase parcels of land, a portion of which may be necessary for such purposes, to sell and execute conveyances of on behalf of the Town, such portions of the parcels so purchased as may be unnecessary for such purposes; to use such Town property as may be necessary for such purposes; to remove buildings from the land so purchased or used together with authority to sell such buildings or the material of which they are constructed; to grade and construct driveways and approaches with suitable borders; to sell and execute conveyances of, on behalf of the Town, a portion of the Town property commonly known as the Town Landing; and the sum of \$10,000 is hereby appropriated for the use of said committee together with such sums as may be received by the Town from the sale by said committee under this vote, of lands, buildings and materials.

MODERATOR'S APPOINTMENTS.

H. Clifford Gallagher, Francis R. Hart.

On leave: The following resolution was presented to the meeting, by Felix Rackemann, Esq.:

Resolved, by the citizens of Milton in Town Meeting assembled;

That the pollution of the Neponset River flowing as it does for miles on the borders of Milton, has for years caused not merely annoyance, but anxiety to the inhabitants: That the extent of the direct and unlawful pollution has long been self-apparent, and the seriousness of the resulting menace to public health has been many times officially declared: That it is the sense of this meeting that the time has now certainly come when the existing statutes for the abatement of such pollution nuisance should be strictly and vigorously enforced, and that until such enforcement of existing laws has been fairly tried, there should be no further legislation in the premises.

Said resolution being read it was unanimously accepted and adopted, as the sense of the voters present at said meeting.

At 6 o'clock, and 35 minutes, P.M., *Voted* to dissolve the meeting.

The foregoing meeting was opened at 6 o'clock, A.M. by the Town Clerk, who proceeded to read the warrant; upon the conclusion of the reading of the third article, it was moved that the further reading of the warrant be dispensed with: Said motion being put, was unanimously carried, and the further reading of the warrant (except the concluding paragraphs) was dispensed with.

At the meeting aforesaid, the total number of ballots cast was 1,239, fourteen of which were cast by women voters, for School Committee.

A true record.

Attest:

HENRY B. MARTIN,
Town Clerk.

Warrant Committee, 1910.

NOVEMBER MEETING.

WARRANT.

COMMONWEALTH OF MASSACHUSETTS. NORFOLK, SS.

To either of the Constables of the Town of Milton, greeting:

In the name of the Commonwealth of Massachusetts, you are hereby directed to notify and warn the inhabitants of the Town of Milton, qualified to vote at elections, to meet in the Town Hall in said Milton, on Tuesday, the eighth day of November next, at six o'clock in the forenoon, then and there to bring in their ballots for Governor, Lieutenant-Governor, Secretary of State, Treasurer and Receiver-General, Auditor, Attorney-General, all of this Commonwealth; Member of Congress from the Tenth Congressional District; Councilor for the Second District; Senator for the First Norfolk District; Representative in the General Court for the Fourth Norfolk District; District Attorney for the Southeastern District; Sheriff for the County of Norfolk; one County Commissioner, and two Associate Commissioners for the County of Norfolk.

All to be voted for on one ballot.

The polls may be closed at 4 o'clock P.M.

And you are directed to warn said inhabitants, qualified as aforesaid, to meet at the time and place and for the purposes herein mentioned, by posting attested copies of this warrant in each of the post-offices of said Milton, at least fourteen days before the date of said meeting, and leaving printed copies hereof at the dwelling houses in said Town at least four days before said meeting.

Hereof fail not, and make due return of this warrant, with your doings thereon, to the Town Clerk, at or before the time of said meeting.

Given under our hands at Milton this twenty-first day of October, nineteen hundred and ten.

MAURICE A. DUFFY,
PHILIP S. DALTON,
HERNY H. BARNES,
Selectmen of Milton

COMMONWEALTH OF MASSACHUSETTS. NORFOLK, SS.

MILTON, Nov. 8, 1910.

Pursuant to the within warrant, I have notified the inhabitants of the Town of Milton, as therein directed, to meet at the Town Hall in said Milton upon the date above mentioned for the purposes therein set forth.

PELEG BRONSDON,
Constable of Milton.

Tyler, Democrats; all of the above named Ballot Clerks and Tellers, being sworn by the Town Clerk before entering upon their duties.

At 6 o'clock and 40 minutes P.M., *Voted*, To dissolve the meeting.

A true record.

Attest:

HENRY B. MARTIN,
Town Clerk.

Whole number of ballots cast, twelve hundred seventy-seven (1277).

Fourth Norfolk Representative District.

We the undersigned Town Clerks of the towns of Canton and Milton, comprising Representative District Number Four, in the County of Norfolk, hereby certify:

That at an election duly held in said towns upon the eighth day of November, A.D. 1910, for a candidate to

represent said district at the next General Court, the following number of votes were given in for the several persons hereinafter named, to wit:

For JAMES H. SHEA, of Milton, nine hundred thirty-six votes.

For ROGER WOLCOTT, of Milton, ten hundred ninety-one votes.

BLANKS, sixty.

Given under our hands at Canton this eighteenth day of November, A.D. 1910.

WALTER AMES,

HENRY B. MARTIN,

Town Clerks of Canton and Milton.

REPORT OF THE COMMITTEE APPOINTED MARCH 1, 1909, TO CONSIDER THE FUNDS HELD BY THE TOWN OF MILTON.

MILTON, MASS., Feb. 10, 1910.

To the Citizens of the Town of Milton:

In accordance with a vote passed at the Town Meeting held March, 1 1909, the undersigned were appointed a Committee to investigate and report in writing at the next Annual Town Meeting on the question of restoring the Jason Reed Public Park Fund, the Jason Reed Cemetery Fund, and the Perpetual Care Fund of the Milton Cemetery. We beg to submit the following report:

Your Committee finds that, while these three funds differ in many respects, as will be described below, they have been treated in the same way by the Town, which has turned them in with its ordinary current receipts, and has spent them for its ordinary current expenses. In other words, when any part of any of these funds has been paid to the Town, the tax levy for that year has been reduced by so much, and the money has been spent just as if it were part of that year's income. The funds are annually published as "Funds held by the Town," but they are not so held, as they no longer exist except on paper. The Town annually raises, as a part of its tax levy, the interest which it is bound to provide on them.

This custom your Committee unanimously feels to be wrong, but wishes to have it well understood that its opinion is in no sense a reflection on any past or present town officers. Most of the cities and towns in the Commonwealth have treated such funds precisely as Milton has done. Indeed, the Town of Brookline is the only one

which has come to the knowledge of your Committee as having always kept its funds intact, and using only the income. Within the past few years, however, a number of cities and towns have taken steps to restore their funds in the manner which your Committee below recommends.

In the foregoing respects all three funds are on the same footing, but their differences will best be set forth by treating them separately.

THE JASON REED CEMETERY FUND

This fund was created by the following clause from the will of Elizabeth T. L. Reed:

“The second of said parts shall be paid to and deposited with the Treasurer for the time being of said Town of Milton, the same to be received, held and invested by said Town as a fund to be known as the ‘Jason Reed Fund,’ and the income thereof shall be applied to the preservation, care, improvement or embellishment of the said Milton Cemetery.”

Under this clause the Town received \$2,626.67 in two instalments in 1892 and 1894. The money was forthwith spent on current expenses. Since then the Town has annually raised by taxation a sum equivalent to four per cent. on the principal of the “Fund,” which has been turned over to the Treasurer of the Cemetery, to be expended in accordance with the terms of the will.

In the opinion of Charles S. Pierce, Esq., the Town Counsel, this fund “should be held by the Town as a trust fund, separate and apart from its general funds.” Your Committee therefore feels that the Town has no discretion in regard to this fund, but is legally bound to restore it and to hold and administer it as any trustee

having accepted a trust is bound to hold and administer it.

The obligation being determined, there remains the question of fulfilling it so as to impose the least possible burden on the tax-payers. To raise the money by taxation in a single year would perhaps be the ideal way, but this, in connection with our recommendations as to the other two funds, would cause an undesirable increase in our tax rate for that year. A loan, repayable by bonds maturing over a period of ten years, also suggested itself to your Committee, but, unfortunately, this does not seem to be authorized by law. The same thing may be accomplished, however, if the Town will appropriate a certain sum annually toward the restoration of this fund until it is restored in full.

Your Committee therefore recommends that the Town at its March Town Meetings annually appropriate the sum of five hundred dollars toward restoring the principal of the Jason Reed Cemetery Fund until the restoration is completed; that said appropriations be deposited by the Town Treasurer in the Milton Savings Bank or some other savings bank or trust company incorporated under the laws of this Commonwealth upon the trust that the principal shall remain on deposit subject to the vote of the Town, and the interest be paid over to the Trustees of the Cemetery, to be expended by them in accordance with the terms of Miss Reed's will; that the Selectmen annually insert in the warrant for the March Meeting an article substantially as follows, "To see what sum of money the Town will appropriate towards the restoration of the Jason Reed Cemetery Fund," until the restoration is completed; that the Town continue annually to appropriate for the Trustees of the Cemetery a sum equal to four per cent. on the unrestored balance of the fund until such balance shall be extinguished.

By carrying out the above recommendations, the Town

will not only be fulfilling the obligation which the law imposes on every trustee, but also the moral obligation, which your Committee feels should be equally binding, that future tax-payers shall not annually be burdened forever in raising the income on a fund which should be self-supporting.

THE JASON REED PUBLIC PARK FUND

This fund was created by the following clause from the will of Elizabeth T. L. Reed:

“And the third of said parts shall be paid to said Town of Milton, and the same shall be applied by the proper legal authorities to or towards laying out, improvement or ornamentation of a Public Park or Parks in said Town, in such manner as said authorities may deem advisable.”

Under this clause the Town received \$2,626.67, the same amount, and on the same instalments, as the Jason Reed Cemetery Fund. The money was forthwith spent on current expenses, and the Town has annually raised by taxation a sum equivalent to four per cent. on the principal of the “Fund.” Unlike the Trustees of the Cemetery, however, the Park Commissioners have not annually expended the full “income,” and the unexpended balance has annually been added to the “Fund,” so that it amounted on December 31, 1909, to \$4,057.17. As above stated, there is nothing tangible to show for this, save the statement on the Treasurer’s books, which is printed in the Town Report.

By the opinion of the Town Counsel this is also a Trust Fund, but differs from the preceding in that the Town through the Board of Park Commissioners has the power to expend not only interest, but principal as well, for park purposes.

Inasmuch as the Park Commissioners may at any time call for both principal and unexpended interest, your Committee feels that this fund must be restored to the full amount of \$4,057.17.

For this purpose your Committee recommends that the Town at its March Town Meetings annually appropriate the sum of five hundred dollars towards restoring the principal and unexpended interest of the Jason Reed Public Park Fund until the restoration is completed; that said appropriations be deposited by the Town Treasurer in the Milton Savings Bank or some other savings bank or trust company incorporated under the laws of this Commonwealth upon the trust that both principal and interest shall remain on deposit subject to be drawn by the Park Commissioners, to be expended by them in accordance with the terms of Miss Reed's will; that the Selectmen annually insert in the warrant for the March Meeting an article substantially as follows, "To see what sum of money the Town will appropriate towards the restoration of the Jason Reed Public Park Fund," until the restoration is completed; that the Town continue annually to appropriate a sum equal to four per cent. on the unrestored balance of the fund until such balance shall be extinguished, the whole or any part of this latter sum to be paid over to the Park Commissioners, and the unexpended balance to be added to the bank or trust company deposit.

THE PERPETUAL CARE FUND

This fund was instituted under statutory authority in 1871, and consists of payments made from time to time by proprietors of cemetery lots under the agreement appended to this report. The fund amounted on December 31, 1909, to \$23,561. These payments were forthwith spent on current expenses. The Town has

annually raised by taxation a sum equivalent to six per cent. (the rate named in the agreement) on the principal for the time being of the fund, which has been turned over to the Treasurer of the Cemetery, to be expended in accordance with the terms of the agreement.

By the opinion of the Town Counsel this agreement does not establish a trust fund, but creates an obligation in the nature of a contract. The Town, therefore, has probably violated no legal duty in following the policy that it has, and, so long as it fulfils its contract to expend six per cent. annually on a proprietor's lot, it seems unlikely that any court of law would concern itself with the Town's disposition of the original deposit.

From the point of view of sound accounting, however, your Committee unanimously feels that this fund should be restored. It was urged at the duly advertised public hearing held on January 7, 1910, that the Town was in the position of one who had borrowed this money, and that therefore, since posterity was to receive the benefit of this borrowing, it was no undue burden for posterity to pay the interest on it annually. But it is not good business to borrow for current expenses, and it is for current expenses that this fund has been spent. No one who hopes to keep out of the poorhouse would borrow money to buy a ton of coal, to replace a worn-out horse with a new one, or to pay his electric light or water bills. Yet it is for precisely similar purposes that this fund has been spent. Furthermore, even if this sum has been legitimately borrowed, posterity is paying an exorbitant rate of interest on the loan. Not six per cent., but three and a half and four per cent. is what the Town is paying on its regular loans. It is not accurate to say that posterity will receive a benefit from current expenditures, as distinguished from permanent improvements, especially when such current expenditures impose on

posterity in return the burden of an exorbitant rate of interest. Your Committee feels that this burden must be removed, as it is being removed in other cities and towns.

Your Committee therefore recommends that the Town at its March Town Meetings annually appropriate the sum of two thousand dollars or some larger amount towards restoring the Perpetual Care Fund; that such annual appropriations be continued until the fund is sufficient to provide at the then current rate of interest an income equal to six per cent. on the present "Fund"; that such appropriations be deposited by the Town Treasurer in the Milton Savings Bank or some other savings bank or trust company incorporated under the laws of this Commonwealth upon the trust that the principal shall remain on deposit subject to the vote of the Town, and the interest paid over to the Trustees of the Cemetery, to be expended by them in accordance with the terms of the several Perpetual Care agreements; that the Selectmen annually insert in the warrant for the March Meeting an article substantially as follows, "To see what sum of money the Town will appropriate towards the restoration of the Perpetual Care Fund," until the restoration is completed as above recommended; that the Town continue to appropriate for the Trustees of the Cemetery a sum equal to six per cent. on the un-restored balance of the fund until the enlarged fund shall be completed.

If the foregoing recommendations are adopted, the Jason Reed Cemetery Fund will be restored in about five years, and the Jason Reed Public Park Fund in about eight years. As these restorations are completed, your Committee recommends that the appropriations for restoration of the Perpetual Care Fund be increased, so that the Town may appropriate three thousand dollars

each year until the last of the three funds is fully restored. Your Committee further recommends that the Cemetery Trustees change from time to time the amounts required to be paid under Perpetual Care agreements in the future, so that the interest on such amounts will be sufficient at the then current rate of interest to provide the perpetual care undertaken, and that such future payments be deposited with the savings bank or trust company having custody of the restored Perpetual Care Fund upon the same trusts.

Respectfully submitted,

CHARLES E. ROGERSON, *Chairman*.
FREDERIC M. STONE.
ROGER WOLCOTT.

KNOW ALL MEN BY THESE PRESENTS that whereas, under and by virtue of the provisions of chapter two hundred and twenty-five of the acts and resolves passed by the General Court of Massachusetts, in the year eighteen hundred and seventy proprietor of lot No. in the Public Cemetery of the Town of Milton, ha paid to the Trustees of said Cemetery, to be deposited in the Treasury of said Town, the sum of dollars, for the purposes mentioned in said act.

Now, therefore, in consideration of said sum of dollars, the receipt whereof is hereby acknowledged, the said Town of Milton covenants and agrees with the said as follows:

That the Treasurer of said Town shall annually pay over to the Trustees of said Cemetery for the time being a sum of money equivalent to six per cent. of said sum.

That the Trustees shall cause the sum which shall annually be paid to them by the Town Treasurer, as aforesaid, to be expended in the care and keeping of said

lot; and shall forever cause the grass which shall grow upon said lot to be cut and removed therefrom, at such times and in such manner as they shall deem most expedient for the interest of said Cemetery.

Provided, nevertheless, that the Town of Milton, by a vote of the Trustees of said Cemetery, may at any time annul and cancel this agreement by paying to the said _____ or _____, heirs, representatives, or assigns, the aforesaid sum of _____ dollars.

In witness whereof, the said Trustees, in behalf of said Town, have caused these presents to be signed and sealed by the Chairman of said Trustees, thereunto duly authorized, this day of in the year nineteen hundred and

Chairman.

Signed, sealed and delivered
in presence of

MILTON, 19 .

Received and recorded at this office in Book _____, page _____.

Town Clerk.

REPORT OF THE COMMITTEE ON PENSIONS

To the Citizens of the Town of Milton:

The Committee on Pensions appointed at the annual Town Meeting held March 1, 1909, to investigate the question of the acceptance by the Town of Chapter 327, of the Acts of 1904 relative to the pensioning of permanent members of the Police and Fire Departments and in this connection to consider the whole question of pensioning the employees of the Town, respectfully report as follows:

Owing to the resignation of Mr. Chas. W. Whittier, Mr. Reginald L. Robbins was appointed to fill the vacancy. The Committee organized on May 18, 1909, with the election of W. Newton Harlow as Chairman and Murray Ruggles as Secretary.

The Committee have held six meetings and one public hearing.

The public hearing was held on Nov. 18, 1909, and the affirmative side of the case was fully presented. No remonstrants appeared.

The Committee first considered the question as to whether any form of pension was desirable. Arguments were advanced to the effect that the employees of a town were more fortunately situated than a large proportion of its citizens from the fact that they receive constant employment, liberal wages, and a certainty of continuous income, and that the granting to such employees of a pension would be the giving of a gratuity to a privileged class.

In opposition to this argument it appears to your Committee that town employment has certain fixed limita-

tions in the amount of wages which an employee can obtain and while the employment is constant, the opportunities for rapid advancement in income from superior merit are not as great as in private business.

We moreover find that it is rapidly becoming the policy of public and private employers to retire upon some form of pension those employees who have become superannuated, not entirely from a sentimental standpoint but largely on the ground of economy and increased efficiency of the service.

We would quote the following passages from President Taft's message to Congress in December, 1909, on this point.

XXI.—CIVIL SERVICE REWARDS

"More than this, every reform directed toward the improvement in the average efficiency of government employees must depend on the ability of the executive to eliminate from the government service those who are inefficient from any cause, and as the degree of efficiency in all the departments is much lessened by the retention of old employees who have outlived their energy and usefulness, it is indispensable to any proper system of economy that provision be made so that their separation from the service shall be easy and inevitable. It is impossible to make such provision unless there is adopted a plan of civil pensions.

"Most of the great industrial organizations, and many of the well-conducted railways of this country, are coming to the conclusion that a system of pensions for old employees and the substitution therefor of younger and more energetic servants, promotes both economy and efficiency of administration.

"I am aware that there is a strong feeling in both houses of Congress, and possibly in the country, against

the establishment of civil pensions, and that this has naturally grown out of the heavy burden of military pensions, which it has always been the policy of our government to assume; but I am strongly convinced that no other practical solution of the difficulties presented by the superannuation of civil servants can be found than that of a system of civil pensions."

We would also quote from a portion of the final reports of the Commission on Old Age Insurance and Pensions, appointed by the Massachusetts Legislature in 1907, and who have made a most thorough study of the entire question.

"The problem of providing pensions for municipal employees in particular has been urged upon the attention of the Commission by representatives of the city government of Boston and of other cities, and by representatives of the organized employees as well. The present practice of keeping on the municipal payroll superannuated workers who have lost their effectiveness means waste of the tax-payers' money and demoralization of the working forces. Considerations of economy and efficiency, not to mention other motives, demand the establishment of municipal pension systems. These considerations are even more imperative in the case of the municipality than in that of the private corporations, for political influences come into play to prevent the discharge of city employees who have outlived their usefulness."

In view of these facts the Committee are of the opinion that some form of pension for Town employees is desirable.

The question of the adoption of any of the existing pension laws pertaining to firemen, policemen, and school teachers was then considered. (For copy of laws, see Appendix.)

The present laws if adopted by the Town would place firemen, policemen, and teachers upon pension rolls at

age 60, after 25 years of service, at an average of about \$500 per year.

The Committee do not favor the adoption of these laws for the following reasons:

First:—On account of the heavy expense.

This objection is an especially weighty one in view of the rapid increase in the expenses of the Town, not only for maintenance of present departments but for payments for State improvements.

Second.—The pension is a non-contributory one, all the expense being borne by the Town. This we believe to be unwise, as a certain proportion of the expense can well be paid by the recipient without undue privation on his part.

Third.—That any non-contributory form of pension must exert a demoralizing reaction on character and a disintegrating influence on the family as it removes the desire to save and destroys the responsibility of making any provision for the care of the future.

Fourth.—That the existing laws apply only to firemen, policemen, and school teachers, leaving all other Town employees unprovided for.

The Committee then considered some form of enabling legislation based on the contributory principle that would meet the requirements of pensioning Town employees, that is, a system in which the employee pays part and the Town pays part. While the Committee were deliberating on this subject the report of the Commission on Old Age Insurance and Pensions was published.

With their report they have submitted a bill providing for the establishment of retirement systems for city and town employees.

This bill, in the opinion of the Committee, if it becomes a law offers a more satisfactory solution of the problem than the acceptance of any of the present pension laws.

As the bill itself is a long one, we outline only its principal features. It provides for a retirement association and a board of retirement. The retirement association is composed of the employees of the Town. Membership in the association is compulsory for all future employees, and voluntary for present employees. Future employees entering the service at age 55 are ineligible. The board of retirement is made up of three members: first, the Town Treasurer, the second member elected by the retirement association, and the third member is chosen by the other two.

The employees may be divided into classes and contribute according to their classification from 1 to 5% of their wages. The Town contributes a like amount.

The Town Treasurer shall have charge and control of the funds of the association subject to the approval of the board of retirement and shall invest them in accordance with the laws of the Commonwealth relating to the investments of savings banks.

The expense of administration is borne by the Town. The contributions made by the employee are for the creation of an "annuity" and the contributions of the Town for a "pension."

Retirement takes place for old age, for long service, or for permanent disability.

The age of voluntary retirement is fixed at 60, or an employee may be retired by the board of retirement at that age.

A period of fifteen years of continuous service is required as a condition of retirement for age.

Compulsory retirement is required at 70.

Retirement for long service may take place after thirty-five years of uninterrupted employment. Retirement for permanent disability may take place at any age or after any period of service.

The amount of the retirement allowance, including annuity and pension, depends on the wages of the employee, the rate of contribution, and the length of service.

To illustrate: In the case of an employee entering the service at 25 years and contributing regularly at the rate of 5% from an annual wage of eight hundred dollars, the amount of retirement allowance at the age 60 would be approximately \$600, including \$300 annuity and \$300 pension.

Special provision is made for persons already in the employ of the Town when the law becomes operative.

Any employee of the Town who has already served fifteen years and reached the age of 60, who retires or is retired, receives in addition to the regular amount to which he may be entitled under the pension feature an extra amount paid by the Town equal to the amount of the annuity that he might have earned if the retirement system had been in operation when he entered the service.

Furthermore, employees who have reached the age of 60 when the system is established and also employees who have reached the age of 50 and become members of the association, may be retired with pensions for prior service without having completed the otherwise necessary service period of fifteen years.

Continuous service means uninterrupted employment with this exception: A lay-off on account of illness or reduction of force; and a leave of absence, suspension, or dismissal followed by reinstatement within one year.

No officer elected by popular vote can become a member of the association nor any employee who is or will be entitled to a pension from the Town for any other reason than membership in the association.

Should a member of the association cease to be an employee of the Town for any cause other than death before becoming entitled to a pension there shall be re-

funded to him all the money that has been paid in by him with compound interest at 3%.

Should a member of the association die before becoming entitled to a pension there shall be paid to his legal representatives all the money that has been paid in by him with such compound interest as shall have been earned on his deposits.

Employees who have become members of the association have the option of accepting their annuities in two forms according to the tables adopted by the board of retirement.

First.—A life annuity payable monthly.

Second.—A life annuity payable monthly with the provision that in the event of death of the annuitant before receiving payments equal to the sum at the date of his retirement of his deposits with regular interest, the difference shall be paid to his legal representatives. In no case shall the total monthly payment to a member be at a less rate than \$200 per year.

All rights of a member to an annuity or pension and all his rights in the fund of the retirement system are exempt from taxation and from the operation of any law relating to bankruptcy or insolvency and cannot be attached or taken upon execution or other process of law. The retirement system for Town employees goes into effect only when adopted by referendum vote of the citizens.

The entire system is placed under the supervision of the State Commissioner of Insurance as regards the chief actuarial and administrative features. He is to prescribe the mortality and other tables, the rates of interest to be used in connection with the tables, and the methods of book-keeping, and is to make an annual inspection of its affairs.

As the present statutes of the State which may be

accepted by the Town, apply only to policemen, firemen, and school teachers and not to all Town employees, as these statutes all are non-contributory and as none of them exhibit careful consideration for detail, and as the Legislature is about to take action upon the report of the State Commission which has made an exhaustive study of this subject for almost three years, and as we feel that the Town should have the benefit of this commission's work if possible, your Committee deem it wise for the Town to postpone definite action upon accepting any pension law until another year, when the recommendations of the State Commission shall have been acted upon by the Legislature.

In conclusion your Committee would recommend that a committee of five be appointed by the Moderator at the March Meeting to continue the work of investigating the matter of pensions for Town employees and report at the next annual Town Meeting so that in the event of new legislation the committee will be able to present the details of the probable cost of operation, together with the bill for the Town's acceptance if in their judgment it shall appear wise to do so.

We wish to thank the various Town officials for the aid they have rendered in furnishing the detailed information we have required.

Respectfully submitted,

W. NEWTON HARLOW,
MURRAY RUGGLES,
REGINALD M. JOHNSON,
JOHN PIERCE,
REGINALD L. ROBBINS.

APPENDIX

ACTS OF 1904. CHAPTER 327.

SECTION 1. The selectmen of every town which accepts this act shall retire from active service and place upon the pension roll any permanent member of the police department and any permanent member of the fire department of such town found by them to be permanently incapacitated, mentally or physically, for useful service in the department to which he belongs, by injuries received through no fault of his own in the actual performance of his duty. They may also retire and place upon the pension roll any permanent member of either of said departments who has performed faithful service in the department for not less than twenty-five years continuously, and is not less than sixty years of age. Every person retired under the provisions of this act shall annually receive as a pension a sum equal to one-half of the annual compensation received by him at the time of his retirement. Such pensions shall be paid by the town, which shall appropriate money therefor.

SECT. 2. The selectmen of any town which accepts this act are hereby authorized, in case of an emergency, to call upon any person so pensioned by such town for such temporary service in the department from which he was retired as they may deem him fitted to perform, and during such service he shall be entitled to full pay.

SECT. 3. This act shall take effect upon its passage so far as to allow any town to vote upon the acceptance of the same, but shall not take full effect in any town until it has been accepted by a vote of two-thirds of the voters of such town present and voting thereon at an annual town meeting. (*Approved May 13, 1904.*)

REVISED LAWS, CHAPTER 108, SECTION 31.

In cities, which, by vote of the city council, and in towns, which, by vote of the inhabitants at an annual town meeting, accept the provisions of this section, or have accepted the corresponding provisions of earlier laws, and which had not, prior to the ninth day of June in the year nineteen hundred and one, established a system of pensions for the members of its police department the board or officer having authority to make appointments to the police department shall retire from further service therein any member of said department whom the city or town physician and two other physicians certify to be permanently incapacitated, physically or mentally, by injuries sustained in the actual performance of duty in the department. A member who is so retired shall annually receive as a pension one-half the compensation received by him at the time of his retirement, and cities and towns may appropriate money for the payment of pensions which are authorized by this section.

ACTS OF 1908. CHAPTER 498.

SECTION 1. In any city or town, except the city of Boston, which accepts the provisions of this act a pension fund shall be established for the retirement of teachers in the public schools. The fund shall be derived from such revenues as may be devoted to the purpose by the city council of a city or by direct appropriation by a town. The treasurer of a city or town shall be the custodian of the fund, and shall make annual or semi-annual payments therefrom to such persons and of such amounts as shall be certified to him by the school committee.

SECT. 2. The school committee of any city or town which shall accept the provisions of this act may retire from active service and place upon the pension roll, any teacher of such city or town who is sixty years old or over,

or is, in the judgment of said committee, incapacitated for useful service, and who has faithfully served such city or town for twenty-five years. The amount of the annual pension allowed to any person under the provisions of this act shall not exceed one-half of the annual compensation received by such person at the time of such retirement and in no case shall exceed five hundred dollars.

SECT. 3. Upon the petition of not less than five per cent of the legal voters of any city or town, this act shall be submitted, in case of a city, to the voters of such city at the next city election, and, in case of a town, to the voters of such town at the next annual town meeting, and the vote shall be in answer to the question, to be placed upon the ballot:—Shall an act passed by the general court in the year nineteen hundred and eight, entitled “An Act to authorize cities and towns to establish pension funds for teachers in the public schools,” be accepted? and if a majority of the voters voting thereon at such election or meeting shall vote in the affirmative this act shall take effect in such city or town.

SECT. 4. So much of this act as authorizes its submission to the voters of a city or town shall take effect upon its passage, but it shall not take further effect in any city or town until accepted by the voters thereof as herein provided.

VITAL STATISTICS

Registry of Births, Marriages, and Deaths, in 1910

BIRTHS

The whole number of births registered in 1910 (returned by physicians as by law required) was 107 (males, 57; females, 50) as follows:

MARRIAGES

The whole number of marriages registered in Milton for the year 1910, was 66, as follows:

- Jan. 2. Clarence B. Berry and Rose C. B. Confrey, both of Milton.
5. William G. Lowrey of Louisville, Ky., and Florence E. Morris of Milton.
6. Walter D. Gordon of Milton, and Edna F. Davenport of Hyde Park.
11. Nathan C. Foot of Rye, N. Y., and Emma M. Cobb of Milton.
16. Walter E. Loud of Milton, and Jeannette F. Cameron of Quincy.
20. Waldo E. Forbes and Ellen Forbes, both of Milton.
30. Thomas Tirrell of Everett, and Margaret Deignan of Milton.
- Feb. 3. John A. Stephenson and Anna E. Hokanson, both of Milton.
8. Albert C. Fais of Dorchester, and Helen W. Farrell of Milton.
26. Clarence T. Reynolds of Milton, and Effie M. Bearse of Chatham.
- April 6. Robert H. O'Callaghan of Boston, and Mildred M. Goreham of Milton.
13. Sidney W. Woodworth of Milton, and Ethel Horne of Dorchester.
22. George Diack of Milton, and Jeannie D. Marr of Scotland.
27. James A. Roberts and Grace E. Pierce, both of Milton.
- May 18. Jonathan G. Sherlock and Ella R. Truelson, both of Milton.
19. Frederick S. McVicar and Elizabeth H. Williams, both of Milton.

- June 1. Patrick Farrington and Bridget O'Hara, both of Milton.
 4. James Methven of Milton, and Emily Hall of Dorchester.
 7. James P. Doherty and Ida M. Walker, both of Milton.
 8. John J. Curley of Dorchester, and Mary A. McNamara of Milton.
 8. Francis C. Donovan and Anna J. Dee, both of Milton.
 8. Ambrose H. Damon of Eastport, Me., and Edna D. Millard of Milton.
 9. Israel Shortliff of Milton, and Ella B. Johnson of Dorchester.
 16. Edward F. Donahue of Cambridge, and Ellen H. McHugh of Milton.
 20. Robert Burns of Hyde Park, and Sophia M. Mullen of Milton.
 22. Frank Duane of Charlestown, and Margaret Corbett of Milton.
 27. Chester Braun of Boston, and Elizabeth G. Jackson of Milton.
 29. William L. Moore and Wilhemina Bergstrom, both of Milton.
 29. William C. Dowling of Boston, and Elizabeth L. Lane of Milton.
 29. Howard D. Ward of Quincy, and Isabell J. Reid of Milton.
 29. Malachi J. Burns of Milton, and Mary O'Neill of Dover.
 29. Frank R. Gunn of Hyde Park, and Nellie C. Welch of Milton.
 30. Fred J. Kallgren and Ellen L. Ekestubbe, both of Milton.
- July 6. Frank S. Childs of Milton, and Annie L. Flynn of Boston.
 13. Frank Foster and Ellen Montague, both of Milton.
 20. James J. Fahey of Milton, and Nora M. Sheehan of Dedham.
 21. Bernard E. Fales of Somerville, and Ethel M. Graves of Milton.
- Aug. 9. Ernest G. Taylor and Annie Sweeney, both of Milton.
 14. James Masterson of Dorchester, and Mary Tierney of Milton.
 18. William E. Ladd of Milton, and Helen K. Barton of Worcester.

DEPARTMENTAL REPORTS

REPORT OF THE ASSESSORS, 1910

The Assessors of the Town of Milton for the year 1910 submit the following report:

The Board organized with Geo. W. Nickerson Chairman, and William W. Churchill Secretary.

The Assessors recommend an appropriation for the following purposes, viz.:

For renewing land plans	\$175 00
For clerk hire	350 00
Lists of copper stocks	75 00
Telephones for Assessors	100 00
Registry of deeds, returning transfers and probate records	60 00
Advertising and printing posters for returns	30 00
Printing poll tax lists	100 00
Printing tax bills	25 00
Miscellaneous	60 00
Total	\$975 00

The Assessors gave the notice required by statutes requesting tax payers to bring in true lists of their polls, real and personal property.

Number of polls assessed, 2,027; gain of 31.

There was a gain of personal estate of \$1,755,400.

There was a gain of real estate of which \$285,400 was on buildings and \$17,625 on land, making a total gain in valuation for the year of \$303,025 real, \$1,755,400 personal. Total gain \$2,058,425.

Total number of horses, 766.

Total number of cows, 686.

Neat cattle other than cows, 7.

Number of swine assessed, 100.

Number of fowls assessed, 2,670.

Number of dogs, 445 males, 77 females; total 522.

Number of dwelling houses, 1,464; gain of 32.

Number of acres of land assessed, 6,223.90.

Assessors census, April 1,

East district, 2,671.

West district, 2,740.

Central district, 2,466.

Total, 7,877.

Gain for the year, 97.

Number of male voters, 1,533; gain of 78.

Number of residents assessed on property, individuals
1,222.

Number of non-residents assessed on property, individuals,
580.

All other resident firms, corporations, associations,
institutions, trustees, estates, 272.

Non-resident firms, corporations, trustees, 56.

Residents on property, 1,494; non-residents, 642.

Poll tax only, 1,316.

Total number assessed, 3,452.

Value of buildings excluding land, \$6,368,200.

Value of land excluding buildings, \$5,845,260.

Total value real estate, \$12,213,460.

Gain for the year on buildings, \$285,400.

Gain for the year on land, \$17,625.

Total gain on real estate, \$303,025.

Gain on personal estate, \$1,755,400.

Total gain in valuation, \$2,058,425.

The town received in corporation and bank taxes, in
1909, \$93,256.06; a gain over 1908 of \$8,974.41.

TAXES ASSESSED IN THE TOWN OF MILTON FOR THE YEAR 1910

Valuation of personal estate.....	\$14,476,190	
Valuation of real estate.....	12,213,460

Gypsy moth assessment Jan. 1, 1909, to Jan. 1, 1910, assessed Apr. 1, 1910.....	1,134 85	
Total.....		\$3,767 44

Respectfully submitted,

GEORGE W. NICKERSON,

WM. W. CHURCHILL,

HERBERT B. TUCKER,

Assessors of Milton.

REPORT OF TRUSTEES OF CEMETERY

To the Citizens of Milton:

The Trustees of the Cemetery submit their report for the year 1910 as follows:

Your board, organized for the year with Samuel Gannett as Chairman and J. Frank Pope as Secretary and Treasurer. Thomas W. Pond was appointed Superintendent.

We have made 123 interments, 67 of which came from out of Town: 23 lots were taken by citizens; 5 lots sold to non-residents; 3 single graves sold; 6 lots taken under perpetual care; 31 new lots laid out and finished; 21 graves myrtled; 17 graves evergreened; 15 foundations for head-stones; 27 foundations for monuments; 4 brick graves made; 240 feet of retaining wall from south side of Cunningham lots; 40 feet of retaining wall front of Stone and Clifford lots; 79 cords of wood and 12 cedar posts sold.

The gypsy moths are still on the grounds. We gave up the trees to the care of N. T. Kidder. He has done well.

By the will of Mrs. Mary Lothrop Peabody, the Cemetery is given one thousand dollars for the permanent care of her lot and monuments.

We respectfully ask the Town for (\$2,000) two thousand dollars.

SAMUEL GANNETT,
J. FRANK POPE,
C. MINOT WELD,
THOMAS K. CUMMINS,
HENRY E. SHELDON.

ENGINEERS' REPORT

MILTON, MASS., January 12, 1911.

To the Honorable Board of Selectmen:

GENTLEMEN:—The Board of Engineers herewith presents its report for the year ending December 31, 1910.

The year 1910 has been a busier year than usual with the Department. There have been about the usual number of bell alarms but a large increase in still alarms, caused presumably by the exceptionally dry season. There have been an unprecedented large number of false alarms and the Engineers propose during the coming season to use every effort to abate this nuisance. Any person discovered sending in a false alarm will be prosecuted to the fullest extent of the law.

The most serious loss of the year was one of \$4,000

The entire amount of loss for the year was \$12,461.14.

The total amount of insurance paid was \$7,710.28.

The fire fighting equipment of the Town is in good condition. The truck has been thoroughly overhauled and painted during the year and rubber tires put on all the wheels. A bank brake has been installed on the truck and on the steamer and are found to be much more effective than the old rim brakes.

The Pope Hartford automobile used by the Chief has done excellent service during the year and the cost of upkeep has not been high. One thousand feet of hose has been purchased.

A new fire alarm box has been installed at the corner of Washington and Eaton Streets and numbered 69.

During the year the Department sold one horse which was declared unfit for further service. There are five

horses in the Department at the present time, seventeen years of age or older and one or two horses will probably have to be purchased in the near future.

The conditions of the buildings have been somewhat improved during the year, and it is planned to make repairs to the shed in the rear of Combination 1 at an early date and to paint it. In addition to this work plans have been made for painting some of the other buildings which are in need of this work.

There have been no changes in the permanent force during the year, but several changes in the call force caused by removal from town or resignation. Discipline in the Department has been good, and the apparatus has responded promptly to alarms. Boston responded to thirteen alarms in Milton, and Milton responded to twenty-seven alarms in Boston.

For the care and maintenance of the Fire Department for the ensuing year we recommend an appropriation of \$24,640.

GEO. F. CHOATE,
ALBERT R. WHITTIER, JR.,
Board of Engineers.

RECORD OF ALARMS OF FIRE FOR THE YEAR ENDING DECEMBER 31, 1910

REPORT OF THE BOARD OF HEALTH

The Board of Health of the Town of Milton has the honor to present to the Town its report for the year ending December 31, 1910.

The following appointments were made: Henry B. Martin, agent for signing burial permits; L. E. Young, inspector of plumbing and examiner of applicants for plumbers' licenses; B. F. Murray, deputy inspector of plumbing; Dr. A. W. Draper, agent for the Board of Health; C. H. Sanford, caretaker of hospital; J. Albert Simpson, inspector of milk.

S. A. Meagher was given a permit to carry on the business of rendering oil, tallow, etc.; Peter McIntyre to slaughter cattle and swine for food; John R. Lawrence to empty vaults and cesspools; Quincy Tallow Cp. to collect grease; Dr. James Spencer, inspector of slaughter houses, and meat slaughtered for food.

The number of contagious diseases reported for the last three years is as follows:

	1910.	1909.	1908.
Diphtheria	11	15	11
Scarlet Fever	28	27	21
Measles	50	61	66
Typhoid Fever	2	4	7
Tuberculosis	18	20	11
Chicken Pox	13	34	3
Whooping Cough	8	10	25
Cerebro-spinal Meningitis	0	0	0
Mumps	2	1	0
Erysipelas	1	0	0
Cancer	1	2	1
Acute Anterior Polio-myelitis	1	3	0
Dog-bite (Rabid)	0	0	3
Septicemia	0	0	1

There have been 114 deaths in the Town during the past year, giving a death rate of 14.25 per thousand inhabitants.

	1908.	1909.	1910.
Number of deaths in Milton	92	95	114
Rate per thousand	12.04	12.21	14.25

John R. Lawrence has cleaned out 152 cesspools and 33 vaults; 341 loads in all.

There has been a gratifying increase in the number of applications for permits to connect with the Town sewers, but the number of cesspools and vaults has shown a slight gain. We once more urge every householder to connect with the sewer when possible.

The Board asks for the co-operation of the citizens of the Town, for with it, their work is made much more efficient. For example, if every person would take the trouble to make a visit to the dairy from which they obtain their milk, it would be of great help in obtaining a clean, wholesome, supply. Regulations are formulated on health matters in general, and with the aid of the community they are much better enforced than with a Board working by itself.

Respectfully submitted,

EDWARD F. W. BARTOL,

J. S. LINCOLN,

A. W. DRAPER.

REPORT OF THE INSPECTOR OF ANIMALS AND PROVISIONS

MILTON, MASS., Jan. 1, 1910.

To the Honorable Board of Selectmen:

GENTLEMEN:—I have the honor to submit my report as Inspector of Animals for the year ending December 31, 1910.

Inspected throughout the year, one hundred sixteen (116) stables, which were, with but few exceptions, in good sanitary condition, meeting the legal requirements of water, light, ventilation, etc.

I have given a physical examination to seven hundred fifty-nine cows, fourteen bulls, three hundred forty-seven swine, and seventy sheep which I found free from all traces of tuberculosis or other contagious diseases.

One case of glanders appeared in Town, which was immediately destroyed, and premises disinfected.

I have also examined the carcasses of animals slaughtered in Town, and stamped all those which were free from disease.

Respectfully submitted,
JAMES SPENSER,
Inspector.

REPORT OF THE INSPECTOR OF BUILDINGS

MILTON, MASS., Jan. 2, 1911.

To the Honorable Board of Selectmen:

GENTLEMEN:—I herewith submit my annual report for the year ending December 31, 1910.

One hundred nineteen (119) applications for alterations, additions, repairs, and new buildings have been made, and one hundred nineteen (119) permits have been issued.

WORK OF THE BUILDING DEPARTMENT BY MONTHLY REPORT.

Months.	Permits issued for Wooden Buildings.	Permits issued for Stone and Brick Buildings.	Valuation by Application.
January	2	0	\$10,000 00
February	1	0	200 00
March	12	1	135,600 00
April	15	1	54,325 00
May	11	3	35,350 00
June	9	1	32,700 00
July	10	0	20,375 00
August	12	2	74,200 00
September	5	1	28,500 00
October	8	1	20,400 00
November	15	0	23,275 00
December	8	1	74,775 00
	108	11	\$509,700 00

making the valuation as per applications five hundred nine thousand, seven hundred dollars (\$509,700.00).

Office hours of this Department, 7.30 to 9 P.M., Tuesdays and Thursdays.

Respectfully submitted,
G. E. BURT,
Inspector of Buildings.

REPORT OF THE INSPECTOR OF MILK

To the Honorable Board of Health:

GENTLEMEN:—I herewith submit my report as Inspector of Milk for the year ending December 31, 1910.

There have been 52 licenses issued, divided as follows: 41 to wagons and 11 to stores; of this number 39 were residents of the Town; 13 non-residents.

Samples of milk taken from stores and wagons and tested at the Harvard Dental School, "Department of Chemistry", with two exceptions were up to the standard established by the Commonwealth.

I have made inspection of the barns where milk is produced within the Town limits, which at my request have been cleaned and whitewashed.

If any resident of the Town has cause for complaint as to the quality of the milk please notify, and have samples taken and analyzed.

Thanking you for your co-operation, this report is

Respectfully submitted,

J. ALBERT SIMPSON,

Inspector of Milk.

REPORT OF THE INSPECTOR OF PLUMBING

MILTON, MASS., Jan. 2, 1911.

To the Honorable Board of Health:

GENTLEMEN:—I have the honor to present the following report of the Department of Inspection of Plumbing for the year ending December 31, 1910.

One hundred eighty-nine (189) permits to perform plumbing have been issued from this office, on applications, the approximate valuation of this work being forty-two thousand, four hundred and fifty dollars (\$42,450.00), an increase over last year of twenty (20) permits, and an increase in valuation of over twelve thousand dollars (\$12,000.00).

Seventy-two (72) buildings have been examined, by your orders, before being connected with the Town sewers, and the necessary improvements ordered installed. An effort is made in each case to require no extra work performed, except so much as reasonably good practice would seem to demand.

Thanking you for your confidence and help, this report is respectfully submitted.

LORENZO E. YOUNG,
Inspector of Plumbing.

REPORT OF THE INSPECTOR OF WIRES

MILTON, MASS., January 9, 1911.

To the Honorable Board of Selectmen:

GENTLEMEN:—I herewith present the report of the Department of Wires for the year ending December 31, 1910.

This Department has supervision of the Fire Alarm and Police Signal System, also inspection of all buildings equipped with electric light service and all poles and wires on the town streets.

INTERIOR WIRING

The interior wiring of one hundred and two buildings for installation of light and power was inspected requiring three hundred and twelve visits; one hundred and twenty-one permits were granted the Edison Electric Light Company.

OVERHEAD CONSTRUCTION

Considerable work has been done the past year by the Telephone Company on overhead lines. Defective poles have been replaced by new ones. The poles on Thatcher Street have been renewed from Brook Road to Central Avenue, and the various repairs and renewals have put the poles and wires throughout the Town in a very satisfactory condition.

FIRE AND POLICE SIGNAL SYSTEM

This system has worked satisfactorily during the past year. The usual minor troubles have occurred occasionally. These have all been attended to as soon as possible

so that no serious trouble has resulted. A new line has been built from Blue Hill Avenue to Box No. 13 on Blue Hill Terrace and the old line removed; 11,065 feet of circular loom cable was used on the following streets:—

FEET

Thacher Street & Houston Ave. 4665 4-conductor cable.

Smith Road to Robbins Street 1015 2-conductor cable.

Robbins St., from Blue Hill

Ave., to Brush Hill Road, 1020 2-conductor cable.

Hillside St., from Randolph

Ave., to Harland St. 3305 4-conductor cable.

Canton Ave., from Vose's Lane

to near Box No. 41 1060 4-conductor cable.

All of the old wire was removed from the above streets.

The Telephone Company has built an underground duct on Adams Street from the junction of Randolph Avenue to East Milton, and has reserved one duct for the use of the Town. All wires cared for by the Town should be placed in this duct at the earliest date as overhead construction is liable to severe damage on this exposed stretch, and I recommend an appropriation for that purpose.

For the necessary repairs and the placing of wires underground I recommend an appropriation of \$2,000.

Respectfully submitted,

GEO. F. CHOATE,

Inspector of Wires.

REPORT OF THE PARK COMMISSIONERS

To the Citizens of Milton:

The graded field at East Milton Playground is still little used, but the sand and gravel in the pits is getting to be more in demand. A good deal of the material used in mending the roads has been taken from the east side, as the Superintendent of Streets finds that it works well when mixed with oil. Partly in view of this use it has been decided to take a new attitude and keep for the present most or all of what remains.

Brook Road Playground was patched up as well as circumstances permitted, its thorough re-surfacing being deferred indefinitely. The new row of trees planned for has also been postponed, which is perhaps as well, as the summer has been so dry. The back-stops were repaired.

The following is quoted from the Records of the Park Commissioners, being a part of the minutes of a meeting held March 16, 1910, at which the Commissioners were all present:

“As the name ‘Waterside Common’ has never been entirely satisfactory, it was voted: To change the name of ‘Waterside Common’ to ‘Hollingsworth Field’ in commemoration of the donors of the same, Amor L. Hollingsworth and his wife, Marion D. Hollingsworth.”

Hollingsworth Field needed but little attention, though before this report reaches the Town it is hoped to trim the trees along the road, and attend to such cleaning out as may prove necessary. It may be well to mention that the provisions for games on this field are kept very simple, as it is not intended that it shall become a playground to the exclusion of its quiet and rest, as we believe

that the donors had it in mind that it should be simply an open space for the good of immediate neighbors.

Dollar Lane Playground is kept as clean as possible, but the dump along Blue Hill Avenue leads to some disorder. We feel that this dump is ultimately to help the playground, though it would, of course, be more satisfactory could the abandoned gravel pit be filled all at once.

Very little of the appropriation for the improvement of school grounds has been expended, owing to various causes, including the early freezing up of the ground.

No new work of any importance being in our estimation required, we ask for the following sums to carry on the work for the coming year:

General appropriation, \$100; School lots, \$100.

Respectfully submitted,

NATHANIEL T. KIDDER,

HORATIO A. LAMB,

CHARLES E. ROGERSON,

Park Commissioners of the Town of Milton.

MILTON, Jan. 2, 1911.

POLICE DEPARTMENT

To the Honorable Board of Selectmen:

GENTLEMEN:—I have the honor to submit for your consideration the annual report of the Police Department for the year ending December 31, 1910.

Street obstruction removed	14
Water running to waste reported.	5
Wires burning trees reported.	9

STOLEN PROPERTY

Amount reported stolen	\$613 00
Amount recovered	351 00

CRIME

No serious crimes have occurred in the Town during the period covered by this report; good order has generally prevailed.

THE FORCE

The conduct of the officers has in the main been excellent, and the rules and regulations governing the Department have been generally observed.

PENSIONS

An act to provide for the pensioning of permanent members of Police Departments and Fire Departments in Towns.—

Be it enacted, etc., as follows:

SECTION 1. The Selectmen of every town which accepts this act shall retire from active service and place upon the pension roll any permanent member of the Police Department and any permanent member of the Fire Department of such town found by them to be permanently incapacitated, mentally or physically for useful service in the department to which he belongs, by injuries received through no fault of his own in the actual performance of his duty. They may also retire and place upon the pension roll any permanent member of either of the said Departments who has performed faithful service in the Department for not less than twenty-five years continuously, and is not less than sixty years of age. Every person retired under the provisions of this act, shall annually receive as a pension a sum equal to

one half of the annual compensation received by him at the time of his retirement. Such pensions shall be paid by the town, which shall appropriate money therefor.

SECT. 2. The selectmen of any town which accepts this act are hereby authorized, in case of an emergency, to call upon any person so pensioned by such town for such temporary service in the Department from which he was retired, as they may deem him fitted to perform, and during such service he shall be entitled to full pay.

SECT. 3. This act shall take effect upon its passage so far as to allow any town to vote upon the acceptance of the same, but shall not take effect in any town until it has been accepted by a vote of two-thirds of the voters of such town present and voting thereon at an annual town meeting. (*Approved* May 13, 1904.)

I believe the citizens must recognize the fact that under the civil service laws as they exist to-day, the best years of a policeman's life are spent in protecting their lives and property,—and the salaries paid the police in this Town are not sufficient for them to lay aside enough to maintain them in their old age.

There is no reason why Milton should not follow her sister cities and towns and also the State and Metropolitan Park Commission in this beneficent direction. It is not humane,—and certainly not to the credit of any municipal corporation, to push men aside who have imperilled their lives both day and night in all kinds of weather and on all occasions for twenty to twenty-five years on its police force, and at the end of that time without means, and too old to get a living at anything else,—to be laid aside as back numbers.

I am now more impressed than ever with this proposition. I think it just, humane and equitable and the only satisfactory way of retiring the older men in the department when it is necessary to do so.

CONCLUSION

In closing this report, I wish to thank all who have assisted this Department in their duties.

To you, Honorable Board, I desire to return my most sincere thanks for the kind and considerate treatment accorded me in the discharge of my official duties.

Respectfully,

MAURICE PIERCE,
Superintendent of Police.

REPORT OF OVERSEERS OF THE POOR

In submitting its report for the year 1910 the Board of Overseers of the Poor has nothing unusual to record. The membership of the Board and its organization have continued the same as last year. Mr. and Mrs. Calvin H. Sanford have remained in charge at the Town Farm, and Mr. Albert Rounseville has continued to act as Agent of the Board.

Nothing more than a few minor repairs has been attempted at the buildings on the Farm during the year. One important matter being considered is the lighting of the two dwellings, which is now done wholly by kerosene lamps. This method is a continual cause for anxiety, as all the inmates are old or feeble and must be carefully watched to see that they do not by some accident set themselves or something else on fire. The heavy cost of installing either an electric, or a gas lighting service, at this distance from the highway, makes it desirable to get along without either of them, unless accident occurs.

In December the Board granted to the Tree Warden the privilege of using about one half an acre of cleared land as a nursery for young trees for his Department.

MILTON, Dec. 31, 1910.

FORTIETH ANNUAL REPORT OF THE BOARD OF TRUSTEES OF THE MILTON PUBLIC LIBRARY

As is their custom the Trustees make their annual report to the Town mainly through the report of the Librarian, which they fully endorse. There is little for them to add to enable the citizens to understand the workings and the usefulness of the Library.

A stage has arrived in the history of the Library when, in the nature of the case, there is less to report of a striking character than in previous years. Without sensation and without novelty the Library is filling its place among the educational influences of Milton.

In some respects the Trustees and the Librarian feel that the work of the Library during the past year is the best that it has ever done, especially along the lines of investigations for individual readers, as is indicated in the Librarian's report. This is a kind of work that can not be tabulated and yet is of inestimable value to those whose studies are helped thereby. The Town is fortunate in having so responsive and resourceful a body of assistants to help readers in this way.

An attentive reader of the reports of the Library of recent years will notice a fluctuation in the circulation of the Library from year to year. This is inevitable and is not an accurate index of the use that is being made of the books. Books may be circulated but may not be read, while books used at the Library or any of its branches, but not registered to be taken out, are generally of great service. This latter feature of the Library shows an encouraging development during the year just ended.

For some time, the room used for the Mattapan Branch has not been entirely satisfactory. An opportunity to improve the condition of the Library in the Mattapan district was offered by the opening of "Kidder House," on the Blue Hills Parkway, a social center bought and controlled by some private citizens and designed by them to do for this part of the Town something of what is done in the neighborhood of East Milton by the Cunningham trustees. The first floor of this building was offered to the Trustees of the Library for the use of the Mattapan Branch at the same rental as the room formerly occupied. This offer was accepted and the branch moved to "Kidder House," as described in the Librarian's report. The Trustees confidently expect an increased usefulness for this branch because of this change in location.

Respectfully submitted,

NATHANIEL T. KIDDER, *Chairman,*

CHARLES E. ROGERSON, *Treasurer,*

RODERICK STEBBINS, *Secretary,*

Trustees of the Milton Public Library.

REPORT OF THE LIBRARIAN

MILTON, MASS., January 1, 1911.

To the Trustees of the Milton Public Library:

I have the honor to submit my report for the year ending December 31, 1910.

The most important change in the Library system during the year was the moving of the Mattapan Branch, on September 30, from Bartlett's Library Building to Kidder House, 101 Blue Hills Parkway. Last year this Branch was in an unsettled state owing to measles, a fire, and two consequent movings. And although it is now in permanent quarters, it has not fully recovered from past conditions.

The new rooms at Kidder House are better lighted, and more attractive in every way; the entrance is more convenient, and there is one room set apart for older persons, where their reading is uninterrupted by the going and coming of children. A cork carpet on the floors deadens sound, and there is about the whole place an air of dignity and repose, which is conducive to the comfort of all.

A few additions have been made to the list of periodicals and newspapers, and fifty books have been added to the permanent collection. Various changes in hours of opening have been made, in order to find out what best suited the users of the Branch. The present hours, dating from September 1, are from 3 to 6, and 7 to 9, with the exception of Wednesday evenings, when the Branch is closed at 6.

Such changes in hours and location have naturally affected the circulation, which has dropped from 10,599

in 1909, to 9,442 in 1910. But the attendance has increased from 13,972 to 14,693, and although a part of this increase is undoubtedly due to visitors to Kidder House, Miss Lyall feels that there is a greater interest in the Library throughout the community, and that with such a splendid equipment the Branch will, in the future, be able to accomplish more than ever before.

At East Milton there has been an unexpected increase both in attendance and circulation, the attendance having increased from 15,925 in 1909, to 16,817 in 1910, and the circulation from 15,656 to 16,758. This is an excellent showing when one considers that the East Milton Branch serves only one section of the town, with a population of less than 2,200.

The hours at East Milton have also been changed to meet present conditions. They are now from 3 to 5.30, and 6.30 to 9, except on Wednesday evenings when the Branch is closed at 6, as at Mattapan. The use of the added half hour from 8.30 to 9 has not been so great as was expected, and after further trial, it may be better to close at 8.30 as heretofore.

Fifty books have been added to the permanent collection. These include biography, history, science, standard fiction, and children's books. With each addition to the book collection the need of more room is emphasized, and the securing of larger quarters in a more convenient location, cannot long be deferred.

Reports of Russell Reading Room show but little variation. There has been a slight increase in circulation, from 1,958 in 1909, to 2,008 in 1910, but the attendance has dropped from 1,466 to 1,249.

The number of books sent through the house-to-house delivery has increased from 3,725 in 1909, to 3,990 in 1910. This is a net gain of 265, and would seem to indicate not only that the service is, on the whole, satisfactory,

but that it is undoubtedly the best way in which to reach so scattered a population.

The circulation of books from the Central Library has decreased slightly from 35,478 in 1909, to 33,711 in 1910. This is due somewhat to changing conditions in the schools, but even more to a greater use of books within the Library, which use is not recorded. For example, whereas formerly 25 or 30 books were issued at a time to pupils of the Academy or the public schools, these books are now reserved for use at the Library. This is equally true of books reserved for the use of such classes as the Social Problems Class, under the direction of Mr. L. D. Somers, in connection with the First Parish Church, and also of books reserved for the Thacher Brotherhood, under the direction of the Reverend Albert D. Smith.

An increasing number of requests for help in research work are coming to the reference assistant, and although this is by far the most important part of a library's work, it cannot be adequately recorded, nor can its results be shown except by the satisfaction of the person helped.

The resources of the Library are stronger than ever before, but they are not yet drawn upon as much as they should be. Whether this is because these resources are not generally known, or whether it is because the majority of people have not yet got into the habit of using the Library, it is difficult to tell.

For the first time in the history of the Children's Room, the circulation and attendance have not equalled that of the previous year. The circulation has been 10,088, against 11,824 in 1909 and the attendance 10,879, against 12,165 in 1909.

The total attendance for the whole Library system has been 55,314, and the circulation 61,919, as compared with an attendance of 55,885 and a circulation of 63,691 in 1909.

There have been held at the Library during the year, 14 meetings of the Education Society and its committees; 2 meetings of a committee from the First Parish Church; 10 meetings of the Historical Society and allied committees; 5 meetings of the Social Service League and committees; 24 meetings of the Thacher Brotherhood; and 20 meetings of the various committees of the Woman's Club. The attendance totalled 1,031. These figures represent a considerable use of the Library not included in the regular attendance, and show how closely the Library keeps in touch with the social and civic work of the town.

The exhibits for the year have been: January 15-February 6:—Articles of interest from the Philippine Islands, arranged by the Art Committee of the Education Society, with an attendance of 255.

February 14-May 14:—Manuscripts, documents, books, portraits, and photographs relating to the early history of Milton, arranged by the Historical Library Committee of the Historical Society, with an attendance of 243.

May 25-August 3:—A flag exhibit, showing the history and development of the American flag, lent by the Peabody Museum of Salem, with an attendance of 403. This exhibit proved very popular, and was visited by members of the G. A. R. and of the Sons of Veterans.

November 1-December 21:—Casts and pictures suitable for school room decoration, arranged by the Art Committee of the Education Society. The casts were lent by Messrs. Caproni & Co., of Boston, and the photographs by Messrs. Braun & Co., of New York, and by Messrs. Curtis & Cameron, and Messrs. A. W. Elson & Co., of Boston. To emphasize the importance of appropriate school room decoration the Art Committee also arranged for a talk, November 12, by Mrs. Louis Prang,

on "Art in the school room". So great has been the interest in this exhibit that pupils of the Academy and public schools have been required to make it a subject for themes, and they are voting on the picture or cast which they like best. The returns, which are not yet in, will be interesting, and should have more than a passing effect on the taste of the children, helping them to discriminate between the good and the bad in art. The attendance of 756 was larger than at any other exhibit.

In addition to the usual number of miscellaneous gifts, the notable ones have been:—A subscription to the "Oriental economic review" from Dr. Harris Kennedy; 201 bound volumes of Littell's living age from Miss Aimee E. Alsop; 29 volumes from the Columbine Book Club; 6 volumes from Mrs. Samuel W. Dabney; 45 opera librettos and 1 volume of music from Miss Catherine W. Faucon; 60 volumes from Mrs. Edward C. Perkins; 37 volumes of music, 51 copies of sheet music, and miscellaneous guide books from Miss Mary Rivers; 12 volumes and 1 graphoscope from Mr. Henry S. Shaw; also from Mrs. Mary W. Tileston copies of her "Child's harvest of verse", and "Sugar and spice and all that's nice"; and from Mr. Horace E. Ware a copy of his "A forgotten prime meridian".

By the will of Mrs. Amor L. Hollingsworth the Library received a large painting—a hunting scene—by Paul Tavernier, which has been hung in the Children's Room.

Respectfully submitted,

GERTRUDE E. FORREST,

Librarian.

REPORT OF THE BOARD OF SELECTMEN OF MILTON

January 1, 1911.

The Board of Selectmen of the Town of Milton herewith submits the seventy-fourth annual report:

The bonded debt of the Town, as of January 1,	
1910, was	\$408,000
Issued during 1910, Milton Sewer Bonds	\$9,000
Issued 1910, Vose School Furnishing Bonds	3,000
	<hr/> \$12,000
Total	\$420,000
Bonds paid during 1910	24,000
	<hr/>
Bonded indebtedness, January 1, 1911 . . .	\$396,000

There were \$4,000 Vose School Furnishing Bonds authorized at a special meeting of the Town, October 12, 1909. These bonds were in serial form, \$1,000 coming due each year, and as the money was not needed until January 1, 1911, only \$3,000 of these bonds were issued, the first having become due and cancelled.

At the close of business, December 31, 1910, the unexpended balances of appropriations were found to be in a satisfactory condition, with the exception of the Miscellaneous Account, the Board of Health and Tree Warden Accounts. The two latter departments applied for and received additional funds from the contingent account for necessary work, details of which will be found in their annual reports.

The Miscellaneous Account had unusual demands made upon it through two sources, the principal one of which was the settlement of a claim for \$1,500 which had

been in litigation for two years. The account was further drawn upon by compulsory expense of re-fitting the vault at the Town Hall. The State Commissioner of Public Records called the attention of the Board to Sections 18,19, and 22, Chapter 35, of the Revised Laws, requiring more protection for town records, which resulted in the expenditure of \$421.47 for steel filing systems in the Town Hall Vault for the following departments: Treasurer, Board of Health, Sewer Commissioners, School Committee and Overseers of the Poor; safes being required for the Police and Town Clerk's offices.

A new system of insurance was put into effect April 1, 1910. It is known as the Blanket Policy under Schedule Form. The adopting of this policy amounts to a saving of \$5.00 per thousand; under the old system the cost was \$18.50 per thousand for five years; under the new system it is \$13.50. The amount of insurance on the buildings and contents is now \$587,000, and a saving has consequently been made amounting to about \$3,000 for a period of five years.

We thoroughly believe that the highways of the Town have been kept in good condition during the past year. Owing to the ever-increasing motor traffic, both pleasure and commercial, the problem of keeping the streets in proper condition is a perplexing one. We have continued the extensive use of oil emulsion with successful results, as it helps to preserve the surface of the roads and until something better is substituted, we would recommend its continued use. A short stretch of Center Street was resurfaced with what is known as "Tarvia", which has proved a desirable form of treatment, and we would recommend further use of this form of construction.

During the past year the Board has expended the appropriation of \$1,500 on the repairing of permanent sidewalks, namely, Eliot Street and a portion of Randolph

Avenue. The Board feels that a more liberal appropriation should be made for the construction of sidewalks in those parts of the Town which are so badly in need of this necessity.

The Board is grateful to all Town officials and other citizens who have assisted them in the discharge of their duties.

MAURICE A. DUFFY,
PHILIP S. DALTON,
HENRY H. BARNES.

Selectmen of Milton.

REPORT OF THE SEWER COMMISSIONERS

The Board of Sewer Commissioners reports as follows regarding the work of the Sewer Department during the year 1910, their report being in accordance with the general form recommended by the Sanitary Section of the Boston Society of Civil Engineers:

General		
Population by census of 1910	7,924	
Total area of town	15 square miles.	
Area served by sewerage system	0 634 square miles.	
Method of disposal	Metropolitan system.	
Collection Mains		
	For Sewage only	For Sewage & Surface Water
Lineal feet pipe (measured)	49,167.81	700 (storm over-flow)
*Lineal feet extended during year	6,540.20	
Number of inverted siphons	1	
Number of manholes	209	
Number of storm overflows	1	
House Connections		
Number made during year	68	
Average cost per foot connections	50c.	
Number of stoppages coming to notice of Dept.	4	
Discharge of Sewer		
Estimated population using sewer system . .	3,000	
Number of buildings connected	459	
Financial		
Total cost collection mains to Dec. 31, 1910		\$104,159 76
Bonded debt at date		21,000 00
Average rate of interest on bond		4%

Method of assessing abutters and rate of assessment: frontage and area to a distance 100 feet from street line—50c. per front foot and $\frac{1}{2}$ c. per square foot.

In addition to expense of \$700.00 for interest on bonds issued by the Town and \$2,000 payment of said bonds

maturing, the Town has paid during 1910 for assessments for Metropolitan South System, the following amounts:

Sinking Fund Metropolitan Sewer Loans	\$ 3,503 16
Interest on Metropolitan Sewer Loans	15,770 32
Operation and Maintenance	2,195 40

\$21,468 88

For details of sewer construction account and maintenance account reference is made to the Financial Reports compiled by the Auditors as shown elsewhere.

Respectfully submitted,

PHILIP M. REYNOLDS,

JOHN BALCH,

Board of Sewer Commissioners.

*The extensions made during the year were in Adams St., 2,406 ft., Pleasant St., 778 ft., Houston Ave., 271.2 ft., Bryant Ave., 1,500 ft., State St., 435 ft., Grafton Ave., 350 ft., Sheldon St., 800 ft.

REPORT OF THE SUPERINTENDENT OF STREETS

To the Honorable Board of Selectmen:

GENTLEMEN:—I herewith submit the report of the Street Department for the year, 1910. The general work of this Department changes very little from year to year.

After a very short, severe winter the usual spring cleaning was started early in March and was completed much sooner than in former years. A great amount of repair work was also accomplished in March and April as the weather conditions were very suitable for this kind of work.

Much of this work was necessary on the main streets. Brush Hill Avenue, Canton Avenue, and Blue Hill Avenue, are subject to a great deal of travel and required a great amount of repair and new construction work. Central Avenue, was resurfaced on both roadways from Hinckley Road to the bridge over Pine Tree Brook. This street was widened between Maple Street and Eliot Street. This work required considerable blasting and is a great improvement as it was a very dangerous blind corner. The west roadway was resurfaced with crushed stone from Eliot Street to the street railway turnout.

Valley Road and Rockview Road were resurfaced with gravel and crushed stone. Brookside Park was resurfaced with gravel. Morton Road was resurfaced between West Side Road and Morton Terrace. Morton Terrace was entirely rebuilt. The material on the street was excavated to a depth of eighteen inches and was replaced with stone and gravel.

School Street between Canton Avenue and Randolph

Avenue was resurfaced with gravel and stone dust. Russell Street was resurfaced with crushed stone. The roadway on the north side of Reedsdale Road near Canton Avenue was rebuilt.

The material was excavated to a depth of two feet and was replaced with small stones and broken stone. The same roadway near Randolph Avenue was resurfaced with crushed stone.

Stone walls were built along Randolph Avenue near Poplar Hollow. The stone used in building these walls was quarried from a ledge on Randolph Avenue near Reed Street. The street was widened at both of these places on account of the improvement of the abutting private property. Hillside Street between the Metropolitan Park line and the Canton line was resurfaced with gravel. Green Street was resurfaced with crushed stone and gravel. Harland Street was repaired with gravel. Robbins Street was resurfaced with gravel. Dyer Avenue, and Houston Avenue were repaired and resurfaced with gravel. Frothingham Street was repaired with gravel. That part of Center Street between Adams Street and Brook's estate was regraded and resurfaced with crushed stone and Tarvia X.

This form of construction is known as "Tar Macadam" and is being adopted quite extensively at the present time. It has proved satisfactory in other places and seems to be a very great improvement over the old form of construction.

More or less repair work was done on all the streets.

Under drains were laid in many streets where the roads become soft from surface and spring water.

All the surface drains were cared for and the catch basins were cleaned.

Fourteen new catch²basins were built in different parts of the Town.

Granite Avenue and Central Avenue bridges were repaired and kept in good condition.

The plank walk on Central Avenue needed a great amount of repair work.

This walk will soon have to be replaced as it will not last much longer.

The board walk on Adams Street is also in very poor condition.

Automobile warning signs were put up in many places and new street signs were placed wherever necessary.

The sidewalk on Brook Road between Central Avenue and Blue Hill Parkway was rebuilt nearly the entire distance.

New sidewalks were built on Valley Road, on part of Pleasant Street and also on part of Dyer Avenue.

The sidewalks on State Street were rebuilt.

The sidewalks on Adams Street, Highland Street, Brookside Park and Eliot Street between Central Avenue and High Street were resurfaced with stone dust. The sidewalks in general were repaired with gravel and stone dust.

In repairing the tar concrete sidewalks on Eliot Street and Randolph Avenue, the appropriation for permanent sidewalks was nearly expended.

I believe that the Town ought to make a much larger appropriation for permanent sidewalks so that a system of sidewalks on the main streets might be established.

Gravel sidewalks are generally satisfactory, but during the winter and spring seasons are liable to be soft and muddy.

BROOK ROAD

This street is now completed between Canton Avenue and Adams Street. It is being used a great deal by automobiles and promises to be a very popular street.

STREET WATERING

The streets were oiled and watered in the same manner as during the past year.

About 100,000 gallons of oil were used during the season. As this treatment is very satisfactory I cannot see why it should not be continued. There are now but two carts used for water sprinkling.

REMARKS

Many of the streets were opened the past year for the purpose of laying water, sewer and gas mains and house connections.

This work is necessary but always injures the surface of the streets and also causes a certain amount of inconvenience to public travel.

Those in charge of this work should always see that the trenches are properly back filled, and that when the work is completed the streets should be left in as nearly the same condition as they were before the work was started.

As the local supply of road material gradually diminishes the cost of maintaining and repairing the streets gradually increases.

The Town was very fortunate in getting a large amount of good gravel in the Blue Hill section during the past two seasons. This material was used to good advantage in that section of the Town.

Every year a large amount of money is expended for widening streets, removing ledges of rock, building walls and other similar work. A great amount of this kind of work remains to be done in the future. The expense of this work is taken from the general highway appropriation.

The cost of maintaining and repairing the new streets accepted by the Town during the past few years is also another expense.

For these and many other similar reasons, I believe that the appropriation should be increased.

In concluding this report I wish to extend my sincere thanks to your Honorable Board, to the citizens and property owners and also to the employees of the Department.

**INVENTORY OF STOCK AND TOOLS OF THE HIGHWAY
DEPARTMENT, DECEMBER 1910**

Stable and Sheds	\$4,000 00
Stone Crusher	1,800 00
Steam roller	2,500 00

	\$1,000 00

Respectfully submitted,
EDWARD A. McCUE,
Superintendent of Streets.

REPORT OF THE TREE WARDEN

The Work of the Tree Warden has been largely along various lines of fighting gypsy moths. It is uninteresting to relate but none the less important if we wish to preserve our shade trees, which are so important to our streets. The succession of dry seasons which we have had, together with the ravages of canker worms, elm leaf beetles, gypsy moths and now leopard moths, has greatly weakened many of our trees, especially elms. The trimming of roadside trees has been somewhat neglected since the campaign against the gypsy and brown-tail moths began. For all these reasons it is necessary that we pay them more attention in the immediate future. It should be borne in mind that it is now necessary to spray more kinds of plants than in the days when spraying was first begun. Formerly we had only the canker worm on elms and apples to consider, but the gypsy moth eats the leaves of any tree. It is not difficult at any season to decide whether these are in a given neighborhood or not.

From the appropriation for Gypsy and Brown-Tail Moth work a new spraying machine was bought. This machine has proved more satisfactory than the old one in that it is more compact and so easier moved about. It has greater power, and so does its work without strain. Various details of spraying outfit have been much improved during the years since spraying became general, so that to-day this method is on the whole the most satisfactory of any one method of fighting destructive insects. Arsenate of lead is rather expensive, and in extreme quantities becomes dangerous to other forms of life than insects. For these reasons it is necessary where

we have dense foliage to thin out before applying the poison. Moreover, it can be readily understood that it is impossible to penetrate to any depth in dense woods even with a stream from a hose, and the poison is most effective when put on in a spray. Applied thus it sticks better to the foliage.

With a second spraying machine in the Department, and especially one as easily drawn about as the one bought this year, it has been possible to extend the work of spraying over more ground and to get into some pretty rough places. Fortunately it is possible to send a stream through hose as much as a thousand feet from the machine, and also it is possible to fill the water tank by means of the engine on the machine. Both of these facts reduce the amount of moving about necessary, and effect a saving of time.

Much has been written and more said about the danger to stock from the spraying work, and this must be taken into account, and reasonable caution used. As to the effect on birds, we have interesting observations and deductions chronicled in the report of the State Ornithologist for the year 1909, as printed in (and reprinted from) the 57th Report (Massachusetts) State Board of Agriculture. He there says in part:

“Investigations of the possible poisoning of birds by spraying trees with arsenical insecticides were continued through the summer of 1909. The result was inconclusive, but from what we know now it seems probable that the fatal effects of such spraying have been exaggerated both by the people and the press. . . . Probably there is far more destruction of birds where unsprayed trees are stripped of their foliage by the gypsy moth and the brown-tail moth than where spraying is done and the foliage saved.”

He says more on the subject, but I would refer all who are interested to the report.

In asking for an appropriation of ten thousand dollars again, I am acting in accordance with the State Forester's request. I believe we should make this appropriation. I think that only by thoroughly thinning out the woodlots along our roads so that we can reach with spray what is left standing, can we keep the gypsy moths under control. The protection of roadside trees is comparatively simple with modern machinery, provided that the neighboring woodlands and orchards are kept reasonably clear of caterpillars. From the appropriation of ten thousand dollars I mean to buy a third power sprayer, with the necessary quantity of hose, etc. It would then be my idea to undertake some of the private spraying, as I believe that this would be more economical for the Town and for its individual inhabitants. At present there are a good many firms doing this work, and several of them doing it in Milton, though not there located. An outsider has to charge more than a resident. Furthermore, an outsider, serving several towns, up to the limit of his force, would be pretty sure to take the easiest work or the best pay, and not cover the ground as thoroughly as the Town itself. The Town's recompense would be, not directly pecuniary, but in benefits derived from keeping the insects down. It should be realized that land values are injured where the trees are destroyed. Each year I become more strongly convinced that every land owner should buy a spraying outfit in proportion to the number of trees and shrubs he owns, as the spraying done just as the leaves unfold and while the insects are still young is the work that counts. A fact which should encourage us in Milton is that the Federal Government is clearing up Morton Street which leads from Forest Hills to Milton. This has been badly infested by caterpillars, and many of them must have come into Milton from there.

In a previous report I have said that burlaps are not being used as generally as formerly. This is owing to the expense of turning them. They are an excellent aid to the work of extermination where it is possible to give them the attention which they need.

Elm leaf beetles were perhaps not quite so abundant this year as last, but there was little difference taking the town throughout. It was a great gain having a home machine employed on these pests throughout the short season. The older machine, somewhat clumsy as to running gear, but effective as to its pump, was kept steadily on the beetle until their host trees were all sprayed on the Town property. Then it was turned in on the gypsy moth work, but the season was so far advanced that this was effective for only a short time. Canker worms were not as abundant as usual.

I believe that the time has come when we should take measures to replace trees by the roadside, and to plant for the future in streets both old and new. It is hard to get good trees for this purpose, and a Town nursery seems very desirable. Fortunately the Overseers of the Poor have agreed to let the Tree Warden use a certain section of the Town Farm as a nursery. Trees for the roadside must be reasonably large or they are at once demolished. It is hard to get them with good roots, but perhaps the greatest difficulty of all is to keep the trees fresh and moist from the nursery to the place they are to be planted. With a Town nursery it should be possible to transplant the trees at frequent intervals during growth, to trim them in the desired shape, and most important of all, to plant them out without the drying process to which they are submitted in coming by freight or even express when one cannot select the weather.

I have made up my estimates for the coming year with the objects mentioned in this report well considered.

The first item includes starting a nursery and stocking it with young plants.

To be expended in the care and planting of shade trees and the destruction of insect pests injurious to trees the ensuing year, \$2,000.

To be expended in the extermination of the gypsy and brown-tail moths, \$10,000.

Respectfully submitted,

NATHANIEL T. KIDDER,

Tree Warden.

MILTON, Jan. 2, 1911.

REPORT OF THE WATER COMMISSIONERS

To the Citizens of the Town of Milton:

The Water Commissioners respectfully submit the following report of their operations for the year 1910.

At the annual meeting in March, Reginald M. Johnson was elected for the term of three years, to succeed Robert F. Herrick.

At the same meeting an appropriation of \$2,000 was made for the extension of mains, and the usual appropriation of \$9,000 was made for hydrant service.

The total amount expended for new construction in public streets, exclusive of Hillside Street within the limits of the Blue Hills Reservation, was \$9,516.18, apportioned as follows:

Webster Place, 81 feet of 4-inch pipe	\$ 73 56
Westside Road, north of Morton Road, 245 feet of 6-inch pipe	223 03
Blue Hill Terrace Street, East and West of Oak View Street, 611 feet of 6-inch pipe, 1 hydrant	1,219 44
Dyer Avenue, between Houston Avenue and Warren Avenue, 237 feet of 4-inch pipe	214 24
Highland Street, between Reed Street and Randolph Avenue, 683 feet of 6-inch pipe, 1 hydrant	828 29
Willard Street, from Mechanic Street, north, 518 feet of 6-inch pipe, 1 hydrant	570 81
Randolph Avenue, from end of pipe to Centre Street, 1,733 feet of 6-inch pipe, 2 hydrants	3,192 44
Brook Hill Road, from end of pipe to Eliot Street, 346 feet of 6-inch pipe, 1 hydrant	629 93
New low service line on Quarry Street, 636 feet of 8-inch pipe	1,212 97
Churchill's Lane, 404 feet of 6-inch pipe	372 44
Squantum Street, from Adams Street to end of pipe, 862 feet of 6-inch pipe	912 88
New hydrant on Spafford Road, 2 feet of 6-inch pipe, 1 hydrant	66 84
Total	\$9,516 87

There was also laid in Hillside Street from a point near the watering trough, at the stable of the Metropolitan Park Commission, to Houghton's Pond 1,953 feet of 6-inch pipe, which, with a hydrant and other incidental equipment, cost \$1,474.37. The amount was re-paid to the Town by the Metropolitan Park Commission.

The gaps in Randolph Avenue have now been closed, so that there are pipes from the Lower Mills to Houghton's Pond. However, there is a division at Reedsdale Road between the low service and the high service pressure. In order to complete a circuit of low service through Randolph Avenue, Pleasant Street, Edge Hill Road and Adams Street, an additional line in Quarry Street was laid, as the 10-inch main already lying in that street was necessary to carry the high service pressure through Reedsdale Road, Pleasant Street and Randolph Avenue to Scott's Woods. A gap in Squantum Street has been filled in, and other gaps in the mains have also been closed.

During the year seven hydrants have been added in public streets and two in private property, making a total of 332 hydrants in public streets and 24 in private property. There are at present 1,454 active services, (an increase of 74 over the previous year,) 21 connections temporarily unused and 56 connections apparently discontinued. During the year one standpipe has been discontinued and another has been moved, the total number in all now being 55.

During the year some tests as to electrolysis were made by an expert on that subject. Though some electricity sufficient to cause damage was found at a few points, the conditions speaking generally, were satisfactory. The attention of the Street Railway Companies was called to our expert's report, and these companies are co-operating to remedy the difficulties referred to.

The receipts of the Department from December 31,

1909, to December 31, 1910, excluding service work, for which the Department was reimbursed, were:

From water takers	\$35,512 85
(An average of \$24.42 per service)	
From Street Watering	736 82
Interest on deposits	171 57
	<hr/>
Total	\$36,421 24
Appropriation for extension of mains	2,000 00
Appropriation for hydrant service	9,000 00
	<hr/>
Making available for the work of the department . . .	\$47,421 24
The expenses of the department during the same year excluding the service work, which was paid for by property owners, and excluding new construction were	
Interest on 233 bonds	\$12,652 57
Interest on 233 bonds	8,225 00
Metropolitan water	15,113 85
	<hr/>
Total	\$35,991 42
Construction	9,516 87
	<hr/>
	\$45,508 29

The balance on hand at the date of the annual Town meeting, \$1,900.75, reverted to the general treasury of the Town.

We estimate that the cost of running the Department during the coming year, paying interest on bonds and the cost of Metropolitan water, will amount to about \$36,500, and that the receipts will slightly exceed that amount, but as we have stated in other reports, we can only estimate, as the average receipts per water taker vary from year to year, and we cannot foresee the emergencies which may arise. We have reached a point where, for the first time the receipts of the Department for water have equalled the expenditures, exclusive of construction. The construction is progressing rapidly, but should be completed at the earliest possible day, as in the near future we may expect the necessity for renewals to arise.

We, therefore, ask for the usual appropriation of \$9,000 for hydrant service and the further appropriation of \$1,000 for the extension of mains.

The following figures show sums expended from Town funds on the water plant.

Amount paid for Milton Water Co.	\$199,608 35
Bonds of Milton Water Co. Paid off	120,546 67
Appropriation for extension in 1903	4,000 00
Appropriation for extension in 1904	5,000 00
Appropriation for extension in 1905	4,000 00
Appropriation for extension in 1906	7,000 00
Appropriation for extension in 1907	4,000 00
Appropriation for extension in 1908	4,000 00
Appropriation for extension in 1909	3,000 00
Appropriation for extension in 1910	2,000 00

Total	\$353,155 02
Less balance reverting in 1904	\$8,908 09
Less balance reverting in 1906	220 59
Less balance reverting in 1907	2,042 52
Less balance reverting in 1908	1,520 80
Less balance reverting in 1909	985 68
Less balance reverting in 1910	1,900 75
	<hr/> 15,578 43
	<hr/> \$337,576 59

11 bonds have been paid at maturity in each of the years
1903 to 1910 inclusive, amounting to \$88,000 00

Respectfully submitted,

CHARLES S. PIERCE,

THOMAS B. GORDON,

REGINALD M. JOHNSON

FUNDS HELD BY THE TOWN

PERPETUAL CARE FUND

Amount held January 1, 1910	\$23,561 00
Amount held December 31, 1910	23,561 00

This fund is held by the Town Treasurer in accordance with Chapter 82, Sections 15-18, of the Public Statutes, interest at the rate of 6 per cent per annum being allowed on it and paid over to the Trustees of the Cemetery.

Funds for Perpetual Care received in 1910	\$900 00
-----------------------------------------------------	----------

JASON REED CEMETERY FUND

Amount held January 1, 1910	\$2,626 67
Amount held December 31, 1910	2,626 67

The interest on this at that rate of 4 per cent per annum is paid over to the Trustees of the Cemetery.

E. T. L. REED PUBLIC PARK FUND

Amount held January 1, 1910	\$4,057 17
Interest, 1910	162 29
	\$4,219 46
Less expenses for 1910	20 43
	\$4,199 03

EXTRACT FROM THE WILL OF ELIZABETH T. L. REED

"All the rest, residue and remainder of all the moneys remaining in the hands of said Executor or Administrator, I direct shall be divided into three equal parts.

"The second of said parts shall be paid to and deposited with the Treasurer for the time being of said Town of Milton, the same to be received, held and invested by said town as a fund to be known as the 'Jason Reed Fund,' and the income thereof shall be applied to the preservation, care, improvement or embellishment of the said Milton Cemetery.

"And the third of said parts shall be paid to said Town of Milton, and the same shall be applied by the proper legal authorities to or towards laying out, improvement or ornamentation of a Public Park or Parks in said town, in such manner as said authorities may deem advisable.

"I make the foregoing bequests in favor of First Parish, the Cemetery and the Parks in said Milton, both on account of the deep interest taken by my father, the late Jason Reed, deceased, in the affairs of said town, and of my own profound desire for the welfare of said town and of the citizens thereof."

REPORT OF THE SCHOOL COMMITTEE

To the Citizens of the Town of Milton:

The School Committee herewith submits its Annual Report for the year ending December 31, 1910.

In view of the contemplated changes in the trend of educational work in the public schools, the Report of the Superintendent should be read with care, so that the citizens may obtain a proper idea of what the Milton schools are accomplishing.

The Committee adopted early in the year a new regulation concerning the admission of children to the kindergarten and primary grades. The results more than justify the change as shown by the work of the pupils.

The Committee has had several meetings with delegations representing citizens, concerning the policy of the schools, and has thoroughly and carefully considered the suggestions that were offered.

STATISTICS, 1910

Assessed valuation of the town . . .	\$26,689,650 00
Total amount raised by taxation . . .	321,660 83
Amount expended for general school purposes	79,972 81
Amount expended for transportation of pupils	1,861 00
Amount expended for medical inspection	167 75
<hr/>	
Total school expense	\$ 82,001 56
Percentage of school expense to total tax levy254
Percentage of school expense to valuation003

Cost per pupil based on average membership	\$58 16
Cost per pupil based on total enrollment	52 13

EXPENDITURES

The largest amount in the expenditures of the school department is for the salary of teachers and supervisors. Your Committee asks for five thousand dollars (\$5,000) over 1909 in order that it may make a general increase in the teachers' salaries.

This amount will increase the maximum pay of the grade teachers fifty dollars (\$50) yearly each, and will also provide for increases in other salaries among the teaching force, which are imperative if we are to retain the services of the efficient corps of teachers we now have.

During the past year there has been expended in repairs and maintenance of the school buildings, and in some minor changes and furniture for the High School building, the sum of five thousand twelve and 73/100 dollars (\$5,012.73).

The amount allowed your Committee by the town during the year has enabled it to put practically all the school buildings in good condition, much better than they have been for many years.

TRANSPORTATION OF PUPILS

The transporting of the pupils has been by the usual method, and the expense has been kept within the appropriation.

GIFTS

The following gifts have been made to the schools as designated, and the School Committee desires to gratefully acknowledge them at this time:

HIGH SCHOOL:

Library of historical and scientific books and pamphlets bequeathed to the School by the late Robert B. Palfrey, and to be known as the "Palfrey Collection".

Oil Painting—"The Augury," from Mr. and Mrs. Henry Southworth Shaw.

Picture—"Venetian Scene," from graduating class of 1910.

VOSE SCHOOL:

Small statue of "Mercury" from graduating class of 1910.

GLOVER SCHOOL:

Portrait of Francis Scott Key, from Master J. Lee Turner.

TUCKER SCHOOL:

Reflectoscope, from graduating class of 1910 and friends.

Coffee and tea urn, from the parents of the district.

Flag and standard, from Huntington F. Wolcott W. R. C., No. 147.

BELCHER SCHOOL:

Portrait of Abraham Lincoln, from Col. Oliver W. Peabody Camp 74, Sons of Veterans.

"Landscape with Windmill" by Ruysdall, from graduating class of 1910.

REQUIREMENTS FOR 1911

Your Committee has made careful estimates for the ensuing year and is of the unanimous opinion that the following amounts should be appropriated.

The estimates are:

General school expenses	\$89,500 00
Transportation of pupils	2,000 00
Medical services and nurse	1,000 00

In its report of last year, your Committee stated that a general increase of salary should soon be considered and some action taken thereon. As already stated in this report an increase in the general appropriation of \$5,000 is asked for to cover this item. If this increase in appropriation is granted the maximum for the teachers in the grade schools can be increased to \$750 per year as against \$700, now paid, and the maximum in the High School of \$850 can be increased to \$900.

HIGH SCHOOL

By reason of resignations, one being of a woman teacher, your Committee was enabled to add to the teaching force three men teachers in addition to the new principal, Mr. Charles L. Curtis. This is a step that the school has long required. Owing to the large increase in the number of pupils in the High School, and the inability of the contractor to finish the new Vose School building, the conditions under which the teachers and pupils have worked during the fall term have been very trying, but the routine has been carried on with good spirit by teachers and pupils alike.

VOSE SCHOOL

Owing to the severity of the winter of 1909-10, and the usual delays coincident to the erection of a large building, the contractor was unable to finish the Vose School building in time for occupancy at the beginning of the fall term, and the former Consolidated School, now known as the Vose School, did not begin its work in the new building until after the Christmas recess.

The building is now practically finished, and is proving to be all that was expected of it. There are a few minor details and some grading yet to be done before the build-

ing can be accepted by the town. It is hoped that the citizens will visit this building and see what a modern up-to-date school building should be.

THERON A. APOLLONIO, *Chairman*,

REPORT OF SUPERINTENDENT

To the School Committee:

I submit herewith my tenth annual report, being the thirty-first in the series.

The abstract of statistics covering population and attendance follow the same order as in previous years.

ABSTRACT OF STATISTICS

POPULATION

Population of the town, 1910 (United States census) 7,924

SCHOOL CENSUS

The number of children who lived in the town September 1, 1910 between the ages of 5 and 15, and 7 and 14, according to the census taken between September 1 and November 15, is as follows:

September 1, 1910

Number of boys between 5 and 15	672
Number of girls between 5 and 15	655

Total	1,327
-----------------	-------

Number of boys between 7 and 14	512
Number of girls between 7 and 14	494

Total	1,006
-----------------	-------

Number of male illiterate minors over 14 years of age, 1.

Number of female illiterate minors over 14 years of age, 0.

The following table gives the number of children between the ages of 5 and 15, for each of the years since 1880:

May 1, 1880 . . . 551	May 1, 1896 . . . 1,030
May 1, 1881 . . . 519	May 1, 1897 . . . 1,099
May 1, 1882 . . . 533	May 1, 1898 . . . 1,098
May 1, 1883 . . . 563	Sept. 1, 1899 . . . 1,110
May 1, 1884 . . . 612	Sept. 1, 1900 . . . 1,198
May 1, 1885 . . . 627	Sept. 1, 1901 . . . 1,218
May 1, 1886 . . . 621	Sept. 1, 1902 . . . 1,255
May 1, 1887 . . . 595	Sept. 1, 1903 . . . 1,247
May 1, 1888 . . . 630	Sept. 1, 1904 . . . 1,237
May 1, 1889 . . . 626	Sept. 1, 1905 . . . 1,313
May 1, 1890 . . . 680	Sept. 1, 1906 . . . 1,291
May 1, 1891 . . . 710	Sept. 1, 1907 . . . 1,330
May 1, 1892 . . . 749	Sept. 1, 1908 . . . 1,327
May 1, 1893 . . . 802	Sept. 1, 1909 . . . 1,335
May 1, 1894 . . . 956	Sept. 1, 1910 . . . 1,327
May 1, 1895 . . . 1,010	

SCHOOL ENROLLMENT AND ATTENDANCE

The enrollment and attendance statistics for the year beginning September 13, 1909, and ending June 23, 1910, were as follows:

Number of different pupils enrolled	1,573
Average membership	1,410
Average attendance	1,306
Percentage of attendance	93

The following table gives the number of different pupils enrolled in each of the years since 1879:

1880	588	1890	794
1881	563	1891	811
1882	607	1892	862
1883	599	1893	931
1884	635	1894	1,075
1885	679	1895	1,174
1886	701	1896	1,267
1887	673	1897	1,302
1888	696	1898	1,341
1889	752	1899	1,440
From September, 1899, to July, 1900			1,288
From September, 1900, to July, 1901			1,384
From September, 1901, to July, 1902			1,507
From September, 1902, to July, 1903			1,528
From September, 1903, to July, 1904			1,552
From September, 1904, to July, 1905			1,559
From September, 1905, to July, 1906			1,516
From September, 1906, to July, 1907			1,508
From September, 1907, to July, 1908			1,580
From September, 1908, to July, 1909			1,585
From September, 1909, to July, 1910			1,573

Since 1902, the enrollment of pupils by schools for the month of November has been given in the annual report. The enrollment for this month is probably more typical of the enrollment for the other months of the year than any other month. In 1902 the total enrollment was 1,382; in 1903 it was 1,406; in 1904 it was 1,425; and in 1905 it was 1,446. The enrollment by schools for the years 1906-10 is given in the following table:

	Nov., 1906	Nov., 1907	Nov., 1908	Nov., 1909	Nov., 1910
High	158	178	192	209	257
Vose	151	153	163	178	168
Thacher.	80	74	80	80	82
Glover	166	159	152	151	128
Tucker	387	388	388	382	389
Sumner	52	50	49	47	40
Houghton	34	28	31	31	36
Wadsworth	91	84	86	85	79
Belcher	317	332	319	321	292
Total	1,436	1,446	1,460	1,484	1,471

The enrollment for November shows a small decrease from the preceding year. This is due to increasing the age of admission to the kindergarten. Otherwise the enrollment would have been larger.

The percentage of attendance for each of the years since 1900 was as follows:

1901	91.2
1902	92.9
1903	90.1
1904	90.2
1905	90.7
1906	93.3
1907	92.4
1908	92.3
1909	93.
1910	93.

TEACHERS

There were employed by the town in December, 1910, 72 teachers, an increase of 2. Sixty-one of these were class teachers—12 in the High School, 43 in the elementary schools, 6 in the kindergartens, and 11 directors and special teachers.

The number of resignations during the year was 9—4 in the High School, 4 in the elementary schools, and 1 special teacher. The changes in the teaching corps are shown in the following list:

RESIGNATIONS

High School—Edgar D. Varney; Philip W. L. Cox; Miss Inez Stevenson; Miss M. Frances Huntington.

Glover School—Miss Nina L. Murdock, kindergarten.

Wadsworth School—Miss Alma G. Pierce, principal; Miss Marion L. Pierce, grades 2 and 3.

Belcher School—Miss Florence J. Lowe, principal's assistant.

Teacher of Cooking—Mrs. Mary L. Wade.

TRANSFERRALS

Miss Rosa E. Richardson was transferred from grade 4, Glover School, to principalship, Houghton School.

Miss Marguerite C. Dudley was transferred from position of kindergarten assistant, Glover School, to same position, Tucker School.

Miss Etta M. Graves was transferred from position of associate teacher, sub-primary and grade 1, Tucker School, to grade 1, Wadsworth School.

Miss Alice V. Morrissey was transferred from position of kindergarten assistant, Tucker School, to kindergarten principal, Glover School.

Miss Mary W. Munroe was transferred from principalship, Houghton School, to principalship, Wadsworth School.

NEW TEACHERS

High School—Mr. Charles L. Curtis, principal; Mr. J. Richard Lunt, Mr. Sidney C. Hazelton, Mr. Maurice B. Merrill.

Vose School—Miss Celia Tilton, grade 8.

Belcher School—Miss Adelaide Patterson, principal's assistant.

Special Teachers—Miss Amalie F. L. Grutzbach, teacher of printing and assistant teacher of manual training; Miss Hope R. Mudge, teacher of cooking; Miss Lillian F. Long, special assistant, sewing.

The question of teachers' salaries is an annual topic of interest both to the town in whose interest the teacher works, and which has to pay his wage, and to the teacher himself. While these two parties are keenly interested in the subject, there is a third party whose interests are vital. This party is the child.

The school is created and exists for the child. The child needs development and training to fit him for his proper place in the world. The child is an individual and a part of the social whole. As an individual he needs training to make his individuality effective in right thinking and living. As a member of the social whole he needs training that he may use his strong individuality in working harmoniously and efficiently for all that is true and good and beautiful in community life. While many and varied factors enter into this training, the part the school plays is of the utmost importance.

The school essentially consists of teacher and pupil. The work of the former is that of interpreter, guide, and leader for the latter. It follows, then, that the more efficient the teacher the greater the gain to the pupil. Inefficiency in a teacher means a loss to the child which can never be fully recovered. Efficiency, on the other hand, gives to the child priceless opportunities for proper growth and development. The saying may be trite but it is nevertheless true that "as is the teacher so is the school". It necessarily follows that the town which wants good schools must employ good teachers.

It is one thing to realize the importance of putting each school in charge of a superior teacher; it is another thing to do this. A number of factors enter into the problem which must be seriously studied; and the better these factors are understood and appreciated, the easier the solution.

It so happens that the demand for the best teachers is far greater than the supply. It naturally follows that the town which can and will pay sufficiently large salaries to attract the best teachers, other things being equal, should be able to place a superior teacher in every one of its schools; and the return upon the investment will be out of all proportion to its size.

The time has come when the salary schedule in Milton should be revised, and the maximum made larger. There are several reasons for this. In the first place, there has been only one general increase in fourteen years. During this period some cities and towns have increased salaries a number of times. There are cities and towns whose salaries fourteen years ago were very much smaller than those paid in Milton, but who are now paying nearly as much or the same as Milton pays. Others have passed Milton. Second, the increasing qualifications and the higher standard of work demanded seem to make an increase in salary necessary. Besides, the increased cost of living plays an important part. In justice to the teaching force and to the children in whose interest the teachers work, the appropriation should be large enough to make possible a fair increase, and thus make the salaries more commensurate with the splendid service rendered by the teachers to the community.

The salary question is of vital interest to the town, the teachers, and the children. It is for the town to keep its standard high and pay salaries which will retain its best teachers, and fill any vacancies which may occur with

teachers who measure up to that standard. It is for all teachers to make themselves worthy of the highest salary. This and this only insures the child a "square deal".

In May, Miss Alma G. Pierce, who had served the town as a teacher and principal for forty-one years, resigned her position. Miss Pierce's long term of service was marked by efficiency and usefulness. The boys and girls whom she taught and influenced were many, and although her active service as a teacher has ended, the impress for good which she left upon her pupils goes on influencing the lives of those with whom they come in contact. The pecuniary rewards of a teacher are small, but the opportunities for usefulness are out of all proportion to mere pecuniary rewards. The teacher who does her duty faithfully and well, day after day, is performing a service which can not be measured in dollars and cents. This Miss Pierce has done.

Miss Pierce was honored with a reception by the Milton Education Society, and was presented with an annuity fund raised by a committee of the Society. The Public School Teachers' Association also honored her with a reception.

CHANGES IN SCHOOL ORGANIZATION

Previous to September, 1908, the school system below the High School comprised a kindergarten course of one year, and an elementary course of nine grades, or years. The age of admission to the kindergarten being three and a half years, a large number of children entered the first grade at approximately five years. Experience had shown that this was too young for the large majority of pupils to do the work usually covered in the first grade, either successfully or beneficially. Then, too, about 80 per cent of the cities, towns, and villages of 4,000 people and upward in the United States have eight-grade systems, and

the age of admission to the first grade in the large majority of municipalities is six years.

While the practice as to age of admission and number of grades in Massachusetts was practically the reverse of the rest of the country, it was felt that the general practice obtaining outside the State was more in accord with the nature and needs of the children. Besides, the tendency in the State to change to eight grades and to raise the age of admission became quite marked.

The first step taken to improve the system was the reduction of the number of grades from nine to eight. This change, without changing the age of admission to the first grade to approximately six years, would not have accomplished the desired result. It was, therefore, decided to introduce a sub-primary grade between the kindergarten and the first grade. The work of this grade was planned to promote the growth and development of the child in a natural way between the age of five and six.

At the same time it was felt that three and one-half years was altogether too young to admit children to the kindergarten. Consequently, the age of admission was fixed at four years.

With these changes made, the system of organization in effect from September, 1908, to September, 1910, was as follows:

A kindergarten course of one year, and the age of admission four years.

A sub-primary grade of one year.

An elementary course of eight grades or years, and age of admission approximately six years.

A high school with courses of four years, and post-graduate courses.

It was strongly felt at the time that the changes made were in the line of progress. At the same time there was a feeling that other changes were desirable to put the

system on the best basis possible. Nearly two years of observation and study have strengthened this feeling.

The conviction is growing that four years is too young an age to send children to school, even to kindergartens with half-day sessions. The child during the first four years of his life should spend as much of the day out of doors as possible, and should be almost exclusively under home influence.

After an experience extending a little over a year it was found, too, that a morning and an afternoon session each day was not conducive to the well-being of sub-primary children. The change was accordingly made to half-day sessions. Thus, during the year there were two grades of half-day sessions each. This not only made the system more costly, but the results were not in keeping with the expense.

If, however, it had been simply a question of expense, it might have been justified. But when, on the other hand, it failed to accomplish the best results, there seemed to be no excuse for its continuance.

With these facts in mind, and after careful investigation and consideration, the following regulations were unanimously adopted by the School Committee, May 2, 1910:

"A child five years of age shall be admitted to the kindergarten at any time during the year. A child who shall attain the age of five years at any time during the fall term, is eligible to such admission in September.

"Pupils shall be regularly admitted to the first grade during the month of September only, it being understood that any child six years of age, or who shall attain that age at any time during the fall term, is eligible to such admission. Pupils of the proper school age and who are qualified to join existing classes shall be admitted at any time during the year."

Beginning with the opening of the new school year in September the school organization includes:

Kindergartens, for children between approximately five and six years; half-day sessions.

Elementary schools, grades 1-8, for children between approximately six and fourteen years.

High School, with seven four-year courses—classical, scientific, general, commercial, carpentry and wood-working, printing, and dressmaking.

In general, it may be said that with these changes the system better meets the needs of the growing child, it is more economical of time and money, and it is in accord with advanced educational thought and practice.

MEDICAL INSPECTION

Medical inspection has again justified itself during the year and should be continued. It is a preventive measure, and herein lies its great value. The amount of wasted time and money, and the suffering which it prevents, are out of all proportion to the small amount of money expended for the purpose. The health of the children should be the first consideration. The school can not do its work in helping them to become educated, intellectually and morally, unless it safeguards and fosters their health.

Dr. Walter A. Lane, school physician, made twenty-four visits. This is five less than in the preceding year. In only one district was scarlet fever quite prevalent at any time. Prompt measures were taken to prevent its spread through the schools, and these proved very effective. On the whole the health of the children was unusually good.

The time has come when another step may well be taken to make our medical inspection more effective. This step is the employment of a competent school nurse who

will give all her time to the schools. This is not an untried experiment. Some of the large cities have had trained nurses for a number of years with the result that they are now considered an absolute necessity. The smaller towns are slowly falling into line, and in the few places where school nurses have been employed, the results have been eminently satisfactory. While the necessity for a nurse in a town like Milton may not be as pressing as it is in larger places, the employment of a competent nurse may be made of the greatest value. The need of such service has strongly impressed itself upon the school officials during the year.

There are many ways in which a nurse may render effective service. She can assist the school physician, see that his directions are carried out, and give such instruction to pupils as may be necessary to promote their physical welfare.

At present the school physician may send home any child whom upon examination he may find it advisable to do so, but there is no way of following up the case to see that it receives proper attention. A school nurse could be sent to the home to explain and to render such assistance as may be necessary to have the child receive proper attention. Prompt action would in many cases enable the child to return to school in a very short time. A nurse, too, could give advice and assistance to teachers and parents whenever and wherever such help is needed the most. She could take the sight and hearing tests, and render valuable service in having defects of sight and hearing remedied. The notice sent to parents informing them of defects are in some cases read and soon forgotten. In the meantime the child suffers. A nurse could follow up these cases, and impress upon the parents the importance of taking prompt measures to have the defects remedied at once, and give necessary aid. There

are cases in which parents would attend to these matters if they felt that they had the time or knew how to proceed. A nurse could be of assistance in such cases. There are numerous other ways in which the work of a nurse could be made of real value.

Last year attention was called to the common drinking cup as a serious source of contagion. This danger had been removed to quite an extent by teachers encouraging pupils to bring their own cups to school. This, however, did not remove all sources of danger. Even if all the pupils had brought cups from home, the question of having them kept clean and free from contagion was a difficult one to overcome. The problem has been solved by the installation of bubbling drinking fountains into each school.

As the number and variety of fountains was large, the subject was thoroughly investigated to find a fountain which was well made, practical, and sanitary. It is believed that the use of the fountains now in the schools has reduced the danger of contagion from the source of drinking water to a minimum.

The towel is undoubtedly a source of contagion in the schools. Although every precaution is taken not to have the towels used after they become soiled, there are times when too many pupils use the same towel. We are now experimenting with paper towels in the hope that the use of these will solve the problem.

The sight and hearing tests were made by the director of physical training, and included the pupils of grades 1-8 and of the High School. The tabulated results are as follows:

REPORT OF SIGHT AND HEARING TESTS

	High School	Elementary Schools	Total
Number of children examined.	180	1,081	1,261
Number found defective in eye- sight	35	159	194
Number found defective in hearing	4	26	30
Number of parents or guardians notified	23	152	175

The discrepancy in the number of cases of defectives and the number of parents notified, is due to the fact that no notices were sent to parents whose children were already provided with glasses, unless there were good reasons to suppose that the glasses were not properly adjusted to the eyes of the children. In cases where no attention was given to the first notice sent to the parent, a second notice was sent; in a few cases more than two notices were sent to a parent.

The decrease in the number of defectives in sight and hearing is largely due to the discovery of these defects through the tests in previous years, and to the application of proper remedies. This proves the value of the tests, and it is hoped that as time goes on the number of defectives will decrease from year to year until it reaches a minimum.

While the tests reveal defects to parents, teachers, and the children themselves, it can not be too strongly emphasized that unless the parents provide the proper remedies, and the children are made to co-operate in making the remedies effective, and the teachers place the defectives in the most favorable positions as to light and hearing, a large percentage of the value of these tests will be lost.

THRIFT

The teaching of thrift in the public schools of the State was made compulsory by legislative enactment last year. This does not necessarily mean that room has to be made on the time program for another branch of study. Thrift may be taught during part of the time allotted to opening exercises and at any opportune time which may present itself. Besides, the various activities of the school may be used to teach thrift.

That the welfare of a community or a nation depends largely upon the intelligence, uprightness, and thrift of its people, is a well established fact. That it is the duty of the home and the school to instruct children in the subject and help them become thrifty can not be denied.

The school savings bank may be made a strong factor in teaching thrift. The child who deposits money in a savings bank which otherwise would be spent for things which simply gratify a passing whim, and which are of no real value to the child, is laying a firm foundation for the future practice of thrift. Parents and teachers, therefore, should encourage children to become regular depositors, even though the amounts at any one time may be very small.

Valuable as the saving and depositing of money is, it may become harmful. Money is for use. The person who does not use money for those things which are needed to better his condition and make himself a more efficient and helpful person, but simply hoards it for the sake of hoarding, is a miser. This is unintelligent spending and saving and is to be strongly discouraged. Children, therefore, should be taught the proper uses of money, and such simple principles as will help them to distinguish between proper and improper expenditure of money. This is work for both home and school.

There is another way in which thrift can be taught to children in a concrete way. The public school is a free institution supported by the people through taxation. The child is furnished with books, pencils, paper, and other materials free of charge. He is very apt to get the idea that as these things do not cost him anything they need not be given proper care. Under these conditions it is so easy to waste pencils and paper and to misuse books. It is the duty of the school to impress upon pupils the need of taking just as good care of property which is free, as it is of property which has to be bought by the individual or by his parents. This can be done by insisting that the tools furnished the pupil must be used in a proper manner. This we are trying to do.

For a number of years small fines have been collected from pupils for the misuse of school property, whether books, pencils, paper, or other materials. The results of this practice are gratifying. The fact that a pupil has to pay for damages to school property through misuse or gross carelessness, impresses a stronger lesson than any other method which has been tried. The fine may not always be full payment for the damage done, nevertheless, the pupil learns the lesson that school materials cost money and should be properly used.

PUBLIC SCHOOL SAVINGS BANK

The report of the bank for the year ending January 1, 1911, and a statement of deposits from the time of its introduction in December, 1899, to the present, are as follows:

The amount collected from the pupils and deposited in the Dorchester Savings Bank between January 1, 1910, and January 1, 1911, was \$882.30. The amount deposited between December 30, 1899, to January 1, 1910, was \$6,279.68, a yearly average of \$627.97. The total amount

deposited between December 30, 1899, and January 1, 1911, was \$7,012.44, a yearly average of \$637.49. The last average is \$24.48 higher than the former average.

The number of depositors during the year was 416, an increase of 65 over the previous year, of which 140 were new ones.

The report is very gratifying. It shows an increase all along the line. Credit is due to the cashiers for their conscientious and effective work in increasing the number of depositors and the amount of the deposits.

The first school savings bank was started in Long Island City, in March, 1885. Since then banks have been established in different parts of the United States, Canada, Porto Rico, Southern and Western Australia. According to a recent report, 118 such banks were in existence in the countries named in the year 1910. School savings banks are also found in France and Algeria.

Bank Commissioner Arthur B. Chapin in his annual report submitted to the Legislature this year, approves school savings banks, and recommends that suitable legislation be adopted which will legalize and encourage these institutions, by permitting them to operate under proper conditions and proper supervision wherever there is sufficient demand for them. This, no doubt, will tend to increase the number of banks in the State.

The method of conducting the business of the bank in Milton differs somewhat from that followed in many other places. When the bank was established in 1899 the stamp system was adopted, which continues to be the system in many banks. Briefly this system is as follows: Each depositor is given a stamp card containing his name. There are special stamps of different denominations. Whenever a depositor makes a deposit, stamps to the amount of his deposit are pasted on his card.

There are several objections to this system. It is too

expensive, and takes too much time and work on the part of the cashiers. The stamps are apt to become loose and get lost. Then, too, it does not give children the right idea of how actual banking is done. It was, therefore, thought wise to abandon this plan and adopt a more rational and businesslike method. The new method was installed in October, 1904. The results have shown that the right method is in use, and that the claim that the stamp system strongly appeals to children and consequently creates a greater interest in the bank, is not well founded. Our experience has shown that children like to do their banking as their elders do.

The business of the bank is conducted as follows:

The bank is known as the Public School Savings Bank, Milton, Mass.

The Superintendent of Schools is the head of the bank.

Each school has a cashier who receives the money in the school, keeps the necessary accounts, and sends the deposits to the Superintendent's office, together with a list of depositors and amount to be credited to each depositor. The cashier is either the principal of the school, or some responsible person from outside who kindly gives her services to the work. The cashiers of the different schools are working under the direction of and are responsible to the head of the bank.

Deposits are made by the pupils at stated periods, the time of such periods being largely left to the principal of each school.

When a pupil makes his first deposit an account is opened for him. He is given a card which corresponds to a bank book and which takes the place of a stamp card. This card has the pupil's name, address, and a number. It contains columns for dates, deposits, withdrawals for deposit in the Dorchester Savings Bank, withdrawals before the money is credited in the Dorchester Savings

Bank to his account, and balances. This card is presented by the pupil to the cashier whenever he deposits or withdraws money. The card remains in the possession of the pupil, the same as a bank book.

The amount of deposits and withdrawals of each depositor is also entered on the bank's loose leaf sheet, the ruling of which is the same as that on the depositor's card. Each sheet has the account of but one depositor. These sheets are the bank's ledger.

Deposits of one cent or upward may be made. No account can be opened for a pupil in the Dorchester Savings Bank, until the amount of his deposits is one dollar. When this amount is reached, an account is opened for him in that Bank, and he receives a bank book. After the pupil has an account with the Bank, the smallest deposit which the Bank receives is five cents. The Bank pays interest on all sums of three dollars or more, not including fractional parts of a dollar, which shall have been deposited at least three months next preceding the day when such dividends shall be declared.

Money deposited to the credit of a pupil in the Dorchester Savings Bank may be withdrawn in accordance with the regulations of the Bank.

The regular time for sending all cash on hand to the Superintendent's office is the first Wednesday of each school month, except in September and June. Cashiers may, however, deposit money at other times also. The bank accounts for the year are balanced and the final deposits made during the last week in May.

PUBLIC SCHOOL TEACHERS' ASSOCIATION OF MILTON

On February the 8th, 1910, after considerable preliminary work had been done by a committee appointed for the purpose, the Public School Teachers' Association of Milton was organized. Its object "is the intellectual and profes-

sional improvement of its members and the promotion of good fellowship". It is not meant to take the place of existing associations in the town, nor to do work which other associations can do better.

One meeting was held before the close of the schools in June. This took the form of a banquet in the High School assembly hall, preceded by a reception to Miss Alma G. Pierce. An interesting after-dinner program had been prepared, and the occasion was a notable one.

The Association has started under most favorable conditions, and it promises to be alive to the needs of its members. Plans are under way for courses of lectures to be given during the coming year.

THE WORK OF THE SCHOOLS

Education is changing in meaning, and the work of the schools must change with this changing conception. The belief, once very common, that school education beyond the mere rudiments was or should be solely a preparation for a learned profession, has nearly disappeared. To-day it means preparation for all walks of life. Its chief purpose is health, character, and efficiency.

The school, whose work is education, accepts the purpose of education as now understood. It recognizes that good health in the worker is a prime requisite for the fullest living. It realizes that education without a sound moral basis is an anomaly. It acknowledges the value of honest work, and the importance of mastering the best tools and the best methods. It believes in educating for power—ability to use the training and knowledge of the school for immediate use and as a means for further growth and development. It appreciates the needs of present day life, and adjusts its work to meet these needs.

The work of the public schools of Milton is based upon this conception of education and the purpose of the school.

The officials and teachers are endeavoring to have the schools measure up to this conception and purpose. To give an idea of the work which is being done, a brief discussion of some of the activities of the schools seems necessary.

The school plant—grounds, buildings, furnishings, books, apparatus—is being gradually improved.

The introduction of medical inspection has done good service, as well as the efforts of school officials and teachers in making the conditions under which the pupils work more conducive to health. Much more attention is being given to the physical development of the pupils. The too formal and stilted physical exercises have given way to freer and better movements. The instinct of play in children is not left to haphazard development. Plays and games are devised and used which have for their object not only right development of body and mind, but thorough enjoyment, and are given careful supervision. These games and plays are not intended for those only who naturally are very active in play, but also for those who will play very little, if any, if left to themselves. As a result the latter enter into these games and plays with zest and are greatly benefitted thereby.

The school is a moral institution. As such its function is character building. That it is trying to do this work is undoubtedly true. It recognizes and appreciates the fact that the many and various activities of the school offer splendid opportunities for effective moral training, and these it turns to good use. It uses suitable opportunities for ethical teaching whenever they occur, and part of the morning exercises is given to ethical instruction. The work, however, good as it is, is not in all respects what it should be. It is unsystematic and too often lacks definiteness. The need of a carefully graded course in ethics, including such topics which the pupils

can understand and appreciate, and which will give them the fundamentals of morality, is strongly felt. Such a course is in preparation.

The kindergarten has become firmly established as a part of the school system. It has passed the stage of a separate school, and has become a vital part of the system.

The kindergarten takes the child from the home and makes the transition from home to school in the most natural way possible. It takes the child from the smaller and more sympathetic unit in which most of his life has been spent, and initiates and accustoms him to the larger unit—the school. It makes him acquainted with the world at large. It prepares him for the more formal work of the grades, and it does the work well.

The course of study for the elementary schools is rich in branches of knowledge, and is intended to give the pupils an all round development. Until very recently the course was growing in complexity, due to the increasing amount of subject matter included under the different branches of knowledge taught. This complexity too frequently resulted in overwork or lack of thoroughness. Simplification of the work of these schools is now in progress. No attempt is being made to reduce the number of studies, but the amount of subject matter taught in many of the studies. Music, drawing, physical training, manual training, sewing, and cooking, in addition to the other branches taught, have come to stay. The age demands training in these subjects.

The High School has lost its distinction as a mere preparatory school for college, and for giving a training which leads to nowhere in particular. The High School is the finishing school for the majority of children which enters its doors. Most of them will engage in commercial, industrial, or agricultural pursuits. The cry which comes from the leaders in these fields is for intelligent and well

trained workers. It is, therefore, the part of wisdom and justice to recognize this fact, and provide training which will prepare those whose school days end in the High School, to enter upon their chosen fields of labor with assurance of success, as well as to prepare those whose goal is a higher institution of learning, to enter upon their work well qualified to meet the demands with profit to themselves.

This new conception of high school education has led to the establishment of two types of schools, whose organization is intended to meet the demands of the times. These are special, or vocational high schools, and composite high schools. The object of the former is to provide vocational courses only, and they are distinct from those schools whose object is college and normal preparation. The object of the latter is to provide distinct and separate courses for college and normal preparation, for commerce, industry, and agriculture.

In the large centers of population it is an open question which plan of organization is the more desirable, specialized schools or composite schools. In smaller communities there ought to be no question regarding the matter. The composite school for towns and small cities is financially more economical, socially more satisfactory, and educationally more efficient.

The Milton High School is of the composite type. It offers courses as follows: Classical, Scientific, Normal, Commercial, Carpentry and Woodworking, Printing, and Dressmaking. The first three are primarily preparatory courses for college, scientific school, and normal school. The last four are vocational courses, fitting the pupils to enter upon their chosen vocations with ability and confidence. Pupils in the preparatory, or academic courses, are allowed to elect some manual training, printing, sewing, or cooking.

The fact that vocational courses are now an important part of the High School, does not mean that the preparatory or so-called academic courses are receiving less attention than formerly, with a consequent lowering of scholarship. The aim is to do the work in each course as well as it is possible to do it.

Interest in the vocational courses is increasing and more pupils are electing them. All signs indicate that their introduction was timely and wise.

In the elementary schools the class method of teaching pupils is not used exclusively. Pupils are taught in classes, in groups, and as individuals, now one, then another, as the needs of the class and the individuals in the class may determine.

The so-called "lock step" in education, by which classes of pupils are moved along together irrespective of the fact that there are those who should go more slowly and others advance more rapidly, has no place in our schools. Grades 1 and 2 in each room are divided into three divisions, and grades 3-8, into two divisions. These divisions are made according to the power and knowledge of the pupils, and each pupil is placed in a division where he can do his best work. As these divisions represent different stages of advancement, it is comparatively easy for a pupil to be moved forward or backward as his needs may demand, at any time in the year.

Since 1905 the reports which have been sent to parents regarding the ability, effort, and work of the pupils in the elementary schools, can be easily interpreted and understood, and are, therefore, of real value. They are based on the principle that whatever information is sent to parents should be in simple, understandable English, and not in letters or figures which may be interpreted in different ways.

The discipline in the schools is good. Pupils are taught

the lessons of self-direction and self-control. The spirit of co-operation is everywhere evident. The schoolroom is made a work shop, not a prison. Teachers are almost universally looked upon as friends, not as enemies.

INTEREST IN PUBLIC EDUCATION

Interest in public education has never been as great as at present. Increasingly frequent is it a topic of conversation among all classes of people. The results of educational endeavor are subjected to more criticism both by laymen and professionals, and each class is quite ready to suggest remedies for whatever shortcomings may be or supposedly are existing in the educational process.

The greater interest in the schools by the community is also shown in the increasing number of parents' associations and other organizations, which have for their object the closer co-operation of the home and the school.

The schools are expected to give a larger variety of training than formerly, on the theory that they should prepare a pupil for any walk in life he may choose. The sums of money expended for public education each year are steadily increasing, and the cry is for more to accomplish what is expected. The school plants—grounds, buildings, furnishings, books, and apparatus, have never before been as good and as well adapted to the purposes which they are to serve. The standards for the teaching profession are increasing. To-day it is almost impossible for a teacher without normal school or college training to obtain a position in the schools, especially in the most progressive communities. Supervision is much more general and effective. The qualifications demanded for the work of supervision are increasing, as well as the demands upon the time and ability of the supervisor.

The interest in public education promises well for the future. It means much for the schools and for the chil-

dren who are educated therein. It remains for the town to make possible, in the future as in the past, the rejection of everything in educational practice which has been found wanting, the holding on to that which has been found good, and the incorporation of whatever may be necessary to keep the schools in the forefront of efficiency and progress. It remains for the school officials and teachers to make the possibilities into realities.

The departmental reports which follow should be carefully read.

Respectfully submitted,

ASHER J. JACOBY,
Superintendent of Schools.

REPORT OF THE HIGH SCHOOL

MR. ASHER J. JACOBY, *Superintendent of Schools.*

DEAR SIR:—It gives me pleasure to submit to you my first annual report as principal of the Milton High School for the year ending Jan. 31, 1911. I appreciate the fact that my five months of actual service therein have not afforded me a basis for the systematic and thorough study of all the problems of the school, nor for expressing an authoritative opinion on many of them. There are, however, certain matters upon which I feel qualified to express myself at this time. These I shall proceed to touch upon in the limited space at my disposal in this report.

The policy of employing a larger proportion of men teachers than has been employed in the past is tending to give the school a virility that would otherwise be impossible. That the youth of the land should grow to maturity, under the sole tutelage of the mothers at home, and of women at school, is unfair to both the teachers and the taught. We need both men and women in our schools.

The girls of the school have long been provided with a competent instructor in physical training, and a gymnasium tolerably adequate for their needs. An equally adequate physical training for the boys is much needed.

The rapid growth of the school has brought with it new problems. Not only the proper housing of its classes, but the adaptation of its courses to its personnel, must be constantly kept before us. The average total enrollment of the last six years is 184. This year there are enrolled 258, a gain of 40%. The population of the town has by no means increased in the same ratio. Last year the total enrollment of the school was 198.

This means, then, that the school is becoming more and more the school of those who, in the past, have not regarded it a profitable investment for their boys and girls; that is to say, of the families where the struggle for

existence is real, and where the early earning capacity of the child is a prime consideration. The offering of the vocational training is, doubtless, to a considerable extent, responsible for this increasing confidence in the efficacy of the school. Whatever can be done to justify this confidence should be done. Courses in manual training, sewing and cooking have long been maintained. Recently, courses in printing, dressmaking, and carpentry and wood-working have been added. It is my belief that more and more parents will find these suited to their needs as affording a training in keeping with the interests and capabilities of their children, thus tending to arouse their ambitions and increase their earning capacity, both immediately and permanently. In this connection we may hope to have established, ultimately, courses in machine work, iron work and pattern making.

Whatever else a school teaches, it cannot fulfill its mission unless it inspire in its pupils a spirit of earnest endeavor, a respect for accuracy and promptness, a vigorous self-reliance, based on the knowledge of each boy and girl, that he or she has done, and can do, something well; and, more than all else, a cheerful and hearty loyalty to those who, for the time being, are their official superiors.

Too great an emphasis cannot be laid upon the selection of the proper course for boys and girls about to enter the school. Every course demands the pupils' active interest and participation in school, and a careful and thoughtful preparation at home of the work for the next day. This home work will require from $2\frac{1}{2}$ to $3\frac{1}{2}$ hours every school day, varying with the pupil, the teacher, and the course. Pupils who are unable to do this amount of home work should present a physician's certificate and enroll as partial course students.

We believe in work being well done. It is a mistake to allow children to attempt more than they are likely to so

do. I believe that a total of sixteen hours of prepared academic work, plus four to five hours of unprepared special studies, is all that the average pupil can do well. This plan would not reduce the total credits necessary for a diploma, but would merely allow each pupil to take advantage of the rich industrial curriculum provided by the school, without overtaxing his time and energies. At present, the average pupil is taking from 23 to 25 periods per week, leaving but 5 or 7 periods of 43 minutes each for study during school hours.

Too many pupils enter upon courses unsuited to their individual powers and needs. The parents of pupils who expect to enter the High School next September are urged to confer with the principal as early as possible during the current school year. It is unwise to postpone this action until the busy days preceding graduation shall have rendered it difficult for him to give to each case its proper investigation and consideration.

The principal's office has been moved to the first floor, where he may be found from 8 to 9 A.M. and 1.30 to 2.30 P.M., but it is safer to make an appointment. Parents and others are cordially urged to visit the school during its regular working hours, to see it for themselves. Any case of failure in any subject should mean an immediate consultation with the principal by the parent.

The principal believes that when a child is absent from any recitation he should be fully informed as to the cause for such absence. An indefinite explanation saying "sent on an errand" does not, in itself, seem to him sufficient cause to warrant absence from classes, and pupils so reporting, cannot be allowed to make up and receive credits for work lost. No business office would accept such an excuse, and school is the child's business as long as he is enrolled. Every allowance will be made for emergencies, providing the facts are made known.

The principal is ready at all times to listen to suggestions and to hear criticisms for the good of the service.

Respectfully submitted,

CHARLES L. CURTIS.

MANUAL TRAINING AND INDUSTRIAL WORK

MR. A. J. JACOBY, *Superintendent of Schools*.

DEAR SIR:—Milton adopted manual training into its school system in 1892, and at the present time its work begins in the kindergarten and extends, in some form, through all the elementary grades and the High School.

The course in the lower grades is along the same general lines as outlined in my last report, excepting that during the past year thirty minutes have been added each week to the time of the seventh and eighth grades, thus giving these classes two hours each week instead of one hour and a half.

We are very well equipped in the lower grades for our work, but there should be some additional equipment for the High School. Thus far that equipment has been used by both High and Vose School pupils, but since a manual training room has been established in the new Vose building, it would seem desirable that the equipment at the High School should be increased to better meet the needs of its pupils.

The interest in manual training among High School pupils increases each year. Some creditable pieces of furniture are constructed each year, the pupils purchasing their own material. The department has also completed quite an amount of school apparatus, and has done some simple repairs about the building.

An industrial course in Carpentry and Woodworking was established one year ago; this course is meeting with a sufficient number of pupils to warrant its installation.

The printing department of the High School which was started three years ago, is proving to meet the demands for which it was established. The industrial course in printing covers four years; besides, pupils in other courses of the High School are allowed to elect four periods a week, the same as in manual training. The interest in the work increased last year to such an extent that it seemed advisable to secure a special teacher of printing who gives four days each week to the work.

The shop is very well equipped, much interest is shown, and good results are expected.

The installation of this department into our school system has received favorable comment among school boards in this vicinity. In several instances letters of inquiry have been received and visits made by school officials who are contemplating the starting of a like department in their schools.

Last year a large printing establishment applied to us for boys to enter their employ.

It is the purpose of the industrial courses to give to the pupils selecting them a general knowledge of the trade represented, which will enable them to better pursue the work when ready to leave school.

Respectfully submitted,

CLARENCE M. HUNT

SEWING AND DRESSMAKING

MR. A. J. JACOBY, *Superintendent of Schools*.

DEAR SIR:—As we look back over the past few years and note the development in this department, we may well feel pleased with the progress of the work.

It is quite an advantage to the children to begin their sewing in the lower grades, and we soon recognize a better control of the muscles and a development of the mind.

Thus we observe, as they pass on to higher grade work, that they have a superior knowledge which gives them a practical education in domestic art.

From the gratifying results obtained, they are prepared for the advanced work which many are interested to elect during the four years they spend in the High School.

Since the revision of our general course of sewing in the High School a few years ago, we have been much better prepared to meet the requirements of the pupils, as many of them are well qualified to proceed with advanced work on entering. I believe we shall be able in the future to do even better work with High School pupils, as the extension of the sewing periods in the two upper grades of the grammar schools has already made quite a difference with the results. I also believe that in the High School we should correlate sewing and drawing as much as possible, for there is a close connection between the two, and many designs in drawing could be worked out in the sewing room. Last year we worked out several with good results, and this year we hope to do more. In the dressmaking course the plan of designing the costumes in the drawing room, then making the dresses from these designs, is proving very satisfactory.

That girls may become more familiar with the textures of cloth, they are encouraged to buy the materials for their garments. The purchases made have shown taste and good judgment.

The work along all lines of industrial education is growing. Many inquiries have been received about the dressmaking course introduced into the High School two years ago, both from parents and those engaged in educational work. I believe there is a great future in this work for girls, and when the parents understand and realize the advantages it represents to their children, they will encourage them to take the course. Encouragement and

support from the parents are the things needful to make the work a success. How can we any better obtain this support, than by our efforts with the children in endeavoring to demonstrate through our teaching the value of this form of vocational training? As an industrial people we must see that skill goes with schooling. Practical work in the school must prepare for practical life.

The interest shown in the work by the girls who take the dressmaking course leads me to believe that they will continue and complete the four years' work.

Respectfully submitted,

EDNA S. DOW

COOKING

MR. ASHER J. JACOBY, *Superintendent of Schools.*

DEAR SIR:—The work in cooking is given in the seventh and eighth grades. Each class has a two hour lesson once a week making a complete course of about thirty-six hours. There is also one class of pupils in the first year of the High School.

The aim of the work is to present in a carefully considered order, a series of lessons that will be of the greatest practical value, and includes the application of the fundamental principles of cookery. With this in view the practice work consists of the preparation and serving of simple and nourishing foods as required for the usual family table. The cooking of elaborate or fancy dishes is not regarded as essential in this course. Importance is placed upon attractive serving. Several lessons are devoted to the preparation of breakfasts, dinners, and suppers by each class.

If the course of study could be arranged so that the seventh and eighth grades could come for the two full years it would mean that a much more complete and

valuable training could be given than is possible at present. The question to consider is, whether this additional time which is now given to other subjects, if given to cooking, would prove of more value to the pupil? If so, should not the course in cooking be extended?

The interest shown by the High School class is very pleasing, especially as their work is much limited by lack of time. Owing to the arrangement of the schedules many pupils who wished to take the work were unable to do so. Those who were able to arrange it have to come on one day for one-half of their lesson and on the next day for the remainder. As may be easily seen this is a very unsatisfactory arrangement for work in cooking. It is to be hoped that another year it may be possible to give more time to this department.

The value of cooking as a part of the school curriculum, is being more generally recognized each year. It is sometimes said that girls could learn to cook at home. This in a way may be true, but how many mothers or daughters find the time to study and practice together this branch of science? The result is that unless some systematic training is given at an early age, many girls grow up with little knowledge of how to cook or care for a house. Much is heard now about giving in school the right preparation for life. There are very few girls who will not find at some time a knowledge of cookery and the other related subjects included in the Art of Right Living, of great value.

Respectfully submitted,

HOPE RAWSON MUDGE

DRAWING

MR. A. J. JACOBY, *Superintendent of Schools.*

DEAR SIR:—It gives me pleasure to report that the work done in drawing last year was satisfactory in many respects.

At recent grade meetings the good was commended and ways of improving the poor work were discussed.

Representative drawings by the children in each grade were shown and served as models for the best results.

One of the conclusions reached in these meetings was the need of renewed effort in helping backward children while they are yet in the primary grades, for if they are not well started then, they lose interest and ambition in all future work.

Changes that seemed helpful were made in the outline, but the general plan is similar to the one used last year.

One change was made in the eighth grade program. Instead of the former plan for this class, all the work in drawing is to center about a plan of decoration for a living room. This brings the child face to face with actual living problems, and will help him to know and choose good home furnishings in pleasing colors. The enthusiasm and interest which the pupils have shown in undertaking this new work made the experiment worth while.

The manual work in the primary grades is planned to progress as the child develops naturally. Weaving, cardboard construction, and clay modelling are the three forms of handwork done in the first primary grades.

Excellent work was done by the teachers who had charge of this work.

The regular drawing courses in the High School are mechanical and freehand drawing. Besides these, special courses are offered students specializing in industrial work.

Better results could be obtained if more time were allowed.

Respectfully submitted,

ETHEL MAYHEW JAMES

MUSIC

MR. A. J. JACOBY, *Superintendent of Schools.*

DEAR SIR:—The report of the music in the Milton schools must necessarily be similar to those of preceding years; yet in many respects it is a pleasure to note a satisfactory gain.

The teacher who from year to year has striven to make each lesson a step to something better, has grown strong in the work, and the class shows corresponding advancement.

Many teachers have shown marked individuality in their work, showing careful preparation of each lesson before it is presented. Such care, together with a proper conception of position and tone production, assures the advancement of the pupil.

In the first grade the music is taught by imitation from rote songs, combined with scale work and simple exercises from the staff.

The second year introduces the individual sight singing from the Weaver slips and the individual scale work.

In the last half of the third year two part songs are begun, and in the fifth year, three part songs. Sometimes the eighth grade furnishes a few bass voices; then it is possible to introduce four part singing.

Two hundred and fifty pupils in the High School make a chorus of desirable proportions. The voices are well balanced and of good volume.

Since the enlargement of the chorus in September the work of the High School never has been so satisfactory. The discipline and spirit of the class are just as they should be.

Some problems confront every teacher. At the beginning of the year a class to which she is not accustomed and pupils who are unaccustomed to her ways, present themselves, then work moves slowly. This is especially true

in the lower grades. There are those who are not true to the pitch, there are indifferent readers, and, I may add, indifferent pupils. These are the problems, and the sooner they are solved the better for every one.

Respectfully,

GEORGE E. WALES

PHYSICAL TRAINING

MR. ASHER J. JACOBY, *Superintendent of Schools.*

DEAR SIR:—In submitting my report of the work in physical training, I wish in a brief way to speak of the scope of the work and its purpose.

To many people physical training means only gymnastic exercises of various kinds, pleasing or displeasing to the eye, acrobatic feats of strength or agility, etc., with nothing of any particular value back of it all. Physical training is a science, and its use in the public schools is to study the condition of the children in the schoolroom, and the effect of the schoolroom conditions on the children. It provides a scientific means of correcting and improving the various defects in posture; it aims to develop, to increase lung power, and to provide a means of relieving the strain and fatigue of schoolroom life by means of games and plays properly conducted.

All matters pertaining to school hygiene, such as proper ventilation and heating and cleaning of schoolrooms, are intimately associated with this subject, which has for its object training for a life of efficiency, and good health as the foundation of an active and helpful life.

The defects found in posture, sight, hearing, breathing, teeth, etc., are carefully noted for upon the correction of these defects the health and efficiency of the child depend.

This is but a brief outline of the object of the work in physical training.

With regard to the subject of correct posture in the schoolroom, an earnest effort has always been made to secure correct sitting and standing positions. This year even more attention has been given to the subject in the earnest hope that fewer cases of round shoulders and faulty carriage will be noticed. Faults of this kind are due as a rule to carelessness on the part of the child; bodily laziness is usually associated with mental laziness. Sometimes anaemia or too rapid growth cause this defect.

In connection with this important subject it is very necessary for parents to co-operate. The posture of children when at home should be watched and corrected. It is also very necessary that the clothing should be loose not only during early childhood, but also during the years spent in grammar and high school, for these also are the years of growth and rapid development. Parents cannot watch the posture and growth of their children too carefully.

It is encouraging to know as a result of the tests taken every year, that many defects of sight and hearing have been attended to, and also many children have visited a dentist, but there are still many defects yet to be corrected. Many household duties, the care of little children, lack of knowledge on the subject, lack of means, etc., prevent parents from correcting these defects. Parents so situated need help.

New outlines in physical training have been arranged this year for grades 2-7. A general teachers' meeting in the interests of physical training was held the first Tuesday in October.

Many talks have been given to the children in the various class rooms on the care of their teeth, posture, etc. Many personal letters have been written to parents with regard to defects found in their children. Addresses of hospitals, time of clinics, etc., have been given.

The interest of children in out-door sports is earnestly encouraged, and the development of personal initiative is heartily desired. With this purpose in view, two athletic meets were held in November, one by the upper classes of the Tucker School, the other by the pupils of the Vose School. Simple badges were given to the winner of the various events. The events were conducted by the boys themselves, and both meets passed off with great credit to the boys. The upper class girls of the Tucker School played a competitive game requiring considerable skill in team work.

The High School girls held a successful athletic meet in June as a fitting ending to their out-door work in various sports. They made some very creditable records.

Organized play at recess is most earnestly desired and has been very successfully carried out in two buildings. By this means all the children play something which they enjoy, and no children are left to idly stand around, or walk slowly getting no active benefit from their recess period, which ought to be a time of complete relaxation and activity. Children as a rule look forward with increased pleasure to a recess when they know that an interesting game is to be played.

The decision as to whether there should be organized play at recess or not has been left to the initiative of the principal of the building. It has certainly been a success where it has been tried.

Respectfully submitted,

EDNA P. CARRET

MEDICAL INSPECTION

MR. ASHER J. JACOBY, *Superintendent of Schools.*

DEAR SIR:—The number of visits to the public schools for the past year has been 24, distributed as follows: High,

1; Consolidated, 4; Glover, 3; Tucker, 4; Sumner, 3; Wadsworth, 5; Belcher, 4.

There have been no serious epidemics of contagious diseases, although in the early part of the year several children were sent home for observation from a school, because of a mild epidemic of scarlet fever in that district.

In one of the schools two children, members of families in which the parents had pulmonary tuberculosis, were examined for physical signs of the disease, and were found to be negative.

It seems an opportune time to discuss the desirability of providing more suitable hygienic conditions for children who are below par, and who are attendant upon their school duties in schoolrooms which do not have an excess of fresh air. It would seem that an examination should be made of those children who by observation are definitely below par, with enlarged glands, anaemic, and below weight. These might be economically taught in an out-of-door room in some school or in an out-of-door building at some central location, where the school duties could be carried on under the best of hygienic conditions.

Whenever children with obvious abnormalities of the throat have been seen, they have been recommended to their homes and through them to their physicians or to a hospital for a correction of such conditions.

While not strictly a medical duty, I have been impressed with the large number of children who show defects of the teeth. This is probably a marked factor in cases of lowered general condition.

My impression is that these conditions are neglected in too many cases, not so much from the want of care on the part of the parents, but from lack of an appreciation of the importance of having all these defects remedied for the child's welfare. I have believed that the records of the sight and hearing tests would show that these

children constitute a large proportion of those defective in these senses and who are not doing as well as they should in their school work.

The installation of the bubbling drinking fountains has made a marked difference in the sanitary conditions.

The control of the contagious diseases as in the past should be largely augmented by the care and watchfulness of the various teachers in the schools, and I think credit should be largely given to them.

Very respectfully yours,

WALTER A. LANE,
School Physician

REPORTS OF TRUANT OFFICERS

MR. ASHER J. JACOBY, *Superintendent of Schools.*

DEAR SIR:—I present herein my report as truant officer for the year 1910.

Cases investigated	13
Visits to schools	19
Visits to homes of children	17
Children kept from school by parents	10
Truants	3

Respectfully,

TIMOTHY McDERMOTT

MR. ASHER J. JACOBY, *Superintendent of Schools.*

DEAR SIR:—I hereby submit to you my report as truant officer for the year 1910:

Number of notices received	40
Number of children kept by parents	22
Number of children kept on account of sickness	10
Number of children kept for want of clothing	1
Number of cases of truants	7

Respectfully yours,

HENRY F. BRIERLY

CLASS ODE

Frances M. Phipps

As falls the dusky twilight hour,
 Safe in from Youth's bright sea,
 With costly freight a ship deep-stored
 Drops anchor in the lee.

But short her stay, for on the morn
 She spreads her white sails wide;
 For longer voyage must she take,
 Far off on swelling tide.

May the Hand that e'er has held
 This ship on rocking wave
 Still hold her now on rougher seas,
 And, guiding forward, save.

Mary Dinnie	2	84 Garfield Street,	Quincy
Laura E. Macdonald	1	101 Bryant Avenue,	East Milton
Editha M. Keefe, Kindergarten,			East Milton
Adola F. Fitzgerald, <i>Assistant</i>		870 Fifth Street,	So. Boston
Henry F. Brierly, <i>Janitor</i>		Church Street,	East Milton

DIRECTORS AND SPECIAL TEACHERS

Clarence M. Hunt, Manual and Indus. Wk.,	8 Maybrook Street, Grove Hall
Ethel I. Gray, Asst. in Manual Training,	60 Seaver Street, Roxbury
Leon G. Lewis, Sp. Asst. in Man. and Indus. Wk.,	Elm Street, Milton
Amalie F. L. Grutzbach, Printing and Asst. Man. Train.,	15 Spring Park Ave., Jamaica Plain
Ethel M. James, Drawing,	97 Francis St., Fenway, Boston
Edna S. Dow, Sewing and Dressmaking,	110 Davis Avenue, Brookline
Louise Marston, Asst. Sewing and Man. Training,	27 Lindsey Street, Dorchester
Lillian F. Long, Special Asst., Sewing,	Sharon
Hope R. Mudge, Cooking,	68 Pembroke Street, Newton
George E. Wales, Music,	Williams Avenue, Hyde Park
Edna P. Carret, Physical Training,	11 Ruthven Street, Roxbury

Holidays

Every Saturday; October 12; Wednesday afternoon and Thursday and Friday of Thanksgiving week: February 22; April 19; May 30; June 17.

SCHOOL SESSIONS

High and Vose Schools.—One session from 8.30 A.M. to 1.30 P.M.

Sumner and Houghton Schools.—One session from 8.45 A.M. to 1.45 P.M.

Kindergartens.—One session from 9 A.M. to 12 M.

All other schools.—Morning session from 9 to 12; afternoon session from 1.30 to 3.30.

No School Signals

2-2. Four rounds at 7.30 A.M., no school for the day, all schools.

On stormy days the omission of the afternoon session, if the schools were not closed in the morning, is left to the judgment of each principal, and notice of such omission is to be given in the school before the close of the morning session.

VOSE SCHOOL, MILTON, MASS.
Erected 1910

VOSE SCHOOL

It had been felt by the School Committee for several years previous to 1909, that increased school accommodations should be provided for the High and Consolidated (now Vose) Schools. Both schools were outgrowing their accommodations in the High School building. It became very evident that the High School needed the whole building to carry on its work as economically and effectively as possible. The question, therefore, was referred to the town at the annual town meeting in March, 1909, for consideration and action.

At this meeting it was voted to refer the matter of increasing the school accommodations at the center of the town to a special committee, to consist of the School Committee, and three citizens to be appointed by the Moderator. This Committee was "to carefully study the school requirements, and if in their judgment additional school accommodations are necessary, they are to have detailed plans and specifications prepared, obtain accurate estimates of the expense, and report to the town their recommendations at the next annual meeting, or a special town meeting called for the purpose. And that the sum of \$750 be appropriated for the Committee's use."

The Moderator subsequently appointed Dr. M. Vassar Pierce, George Wigglesworth, and Arthur H. Tucker. These with the members of the School Committee—William B. Thurber, Mrs. Caleb L. Cunningham, J. Frank Pope, George Y. Badger, George M. Anderson, and Theron A. Apollonio—constitute the Special Committee.

At the first meeting of the Special Committee, William B. Thurber was elected Chairman, and Arthur H. Tucker, Secretary. The Committee made a most careful and

thorough study of conditions and needs, and at a special town meeting held October 8, 1909, reported at length on the school conditions as they existed at that time and on the probable conditions in the future. They recommended that the town purchase the lot of land on the westerly corner of Central Avenue and Brook Road, owned by Mr. George T. Tilden, and containing about 3.56 acres, and that the sum of \$115,000 be appropriated to purchase the land and construct and furnish the building.

The town so voted, and the Special Committee was appointed "a committee with full authority, general and incidental, to erect on said lot of land, after it has been purchased by the Selectmen, a school building for the town, substantially in accordance with the plans and specifications heretofore prepared by the said Special Committee, and to furnish said building."

In October, 1909, it became necessary for William B. Thurber to resign the chairmanship, on account of the pressure of other duties, and Dr. M. Vassar Pierce was elected in his place.

Work on the new building was begun in November, 1909, and it was ready for occupancy, January 3, 1911.

The following description of the building was furnished by the architects:

"The exterior of the new Vose School is of red water-struck brick laid in Flemish bond, with water table, cornice and other trimmings of gray terra cotta. The foundations are of concrete, and the ventilating stacks and practically all the interior walls are of brick. The floors and roof are framed with steel girders and trusses, and Georgia pine joists. The staircases are of iron and slate enclosed in brick walls. The roof is of asphalt composition with copper flashings carried up the parapet walls and under the copings. The style of architecture

suggests the Georgian, but the intent of the design was to secure a well-proportioned, business-like building free from unnecessary and meaningless ornament.

"The building contains twelve full sized class and recitation rooms and a large assembly hall, in addition to rooms for principal, teachers, storage and ante-rooms. All the class rooms are provided with separate coat rooms with outside windows, and supplied with rubber racks, umbrella holders and the latest pattern of coat and hat holders. Each class room is equipped with slate black boards, book-case, telephone, and program clock, operated from a master clock in the principal's office, and is lighted by seven 100-watt Tungsten lamps. The building is arranged so that four additional class rooms can be added without seriously disarranging the interior or injuring the external appearance. In case this addition is made, the Assembly Hall could be extended to include the entire central portion of the second floor.

"Special attention has been paid to lighting the class rooms, the side lighting system being used, which brings all the light in one direction over the scholar's left shoulder and avoiding cross lights, as well as trying lights in the teacher's eyes.

"The interior finish is of ash with dadoes of burlap painted to an enamel finish. Two bubbling stream drinking fountains are provided on each floor. The basement contains toilet rooms, which are equipped in the latest and most sanitary manner, play rooms, boiler room, fan room, engineer's room, and coal pocket. The heating and ventilation is by means of two 70 H. P. boilers which provide steam both for direct heat in the class rooms and for the operation of a steam engine, which drives an eight foot fan, delivering 28,000 cubic feet of fresh air per minute into the building. This air is driven through concrete tunnels under the basement floor to the brick

uptakes, through which it passes to the rooms. The Johnson system of automatic temperature control is installed, which automatically regulates the heat in all parts of the building. The boiler room contains, besides the necessary pumps and other machinery, an apparatus for burning waste paper.

"The building is equal to a 16-room building as rated by the Boston Schoolhouse Commission, and cost about \$35,000 less than the amount which has usually been apportioned to such a building in Boston, the only difference being that the floors and roof of the Vose School are not of fireproof construction."

The architects were Kilham & Hopkins, of Boston, and the heating and ventilating system was designed by Hollis French and Allen Hubbard, of Boston.

At present seven of the rooms are occupied as regular class rooms, and two for special work—manual training and sewing. The equipment for the special rooms is incomplete at present, but it will be completed during the year. The cooking and lunch rooms will also be equipped during the year. When this is done only two rooms in the building will be unoccupied.

The Milton Historical Society was asked by the School Committee to suggest a name for the new school. The Society gladly acceded to the request, and after due consideration recommended the name Vose School. This was in honor of Robert Vose, a large land owner and prominent citizen in the early history of Milton, and the founder of the Vose family, which has occupied an important place in Milton for more than two and a half centuries. The Committee voted to call it the Vose School.
